Friends of The Guardian are again asked to have all their advertising matter whether of entertainments, lectures, concerts, or of a general nature, in this Office not later than 4 p. m. and of any considerable length much earlier, as it is impossible to give all the news of the day if advertising has to be handled at night, for every line of the latter prevents the appearance of the same quantity of news. EVERYBODY should see the Big Web Perfecting Press printing so many Guardians at 11.30 a. m. on Monday or Wednesday of each week. A monstrous roll of paper, several miles in length, is pulled through the press at a high rate of speed in a manner similar to that of the largest papers throughout the world. This is the only press of its kind in the province and well worth seeing.

Miss MAGGIE HUGHES, Emerald, leaves home today for Montreal, where she purposes to join the Sisters of the Congregation of Notre Dame. Miss Hughes was a favorite wherever she went and she will have the best wishes of many friends in her commendable undertaking.

OYSTER BED BRIDGE.

Jan 10 Beautiful weather for January. Mildest winter that has been known for years, mercury only gone below zero once and quite a contrast to last winter.

The fishermen reports poor catches of smelts and eels. The gill net fishermen claim that the purse seine has ruined the small business here as the fish are shy and very small, in fact, so small they go through their nets. Eels are scarce largely on account of their being disturbed when going into winter quarters by our zealous fishermen. All here claim a law should be enacted to prohibit eel fishing until after the ice makes, as boat fishing frightens them causing them to scatter, and will in a short time ruin this important industry.

The school opened on Tuesday 2nd inst. after the Xmas holidays, the only change in the staff being the appointment of Moses Gallant to the position rendered vacant by the resignation of Elias Blanchard, who has secured a lucrative position in New York.

Bruno Doucette has disposed of his valuable farm in three separate lots to Andrew Gallant, Donatien Gallant and Amedy Gallant realizing from \$25.00 to \$30.00 per acre. Mr. Doucette intends moving to Rolle Bay where we understand he has purchased a farm.

Joseph Younker has purchased the "Saunders" farm from the Gallant Brothers.

Joseph Gallant's schooner "Florence", Captain Doucette succeeded in making Rustico harbor on 5th inst, a hitherto unknown occurrence as well as a proof of the mildness of the winter.

Isidore Doucette is at present visiting his old home here. Mr. Doucette has been away for some ten years, but still believes that the Garden of the Fall is equal if not superior to any of the places he visited while abroad.

Queries. What's the matter with the Debating Society? Did it receive its death blow from the "Salary Grab"? When is the government going to give us a rail for Carr's Bank?

A MILLION DOLLARS SQUANDERED.

It is estimated this sum was wasted last year by the Government in the purchase of catarrh. Foolish for sufferers to experiment when it is so well known that "Catarrhose" is the only remedy that cures permanently. Other treatments only relieve, but Catarrhose cures. Isidore Doucette from ever returning. "I had Catarrh in its worst form" writes G. E. Fadden of Royan, Que. "I was so bad that ordinary medicine did not even relieve, but Catarrhose cured perfectly." No chance of disappointment with Catarrhose—it's certain as death to cure your Catarrh—just try it.
