**In Memoriam**

The death of Mrs. Daniel Somers occurred at her home in St. George's on February 19th, 1945. Always of a kind and hospitable disposition she welcomed most heartily the visits of her friends and neighbours and to within a short time of her death took a keen interest in the affairs of the community.

Comforted by the last rites of the Catholic Church and surrounded by all living members of her family except one son Allan who was unable to be present, she passed peacefully away, leaving to mourn one daughter, Mary, in St. John, N. S., and three sons, Allan in Chicago, William in Dartmouth, N. S., and John at home.

Her funeral which was largely attended, was held on Monday morning to St. George's Church where Requiem Mass was celebrated by her pastor, Rev. B. J. McDonald, whose frequent visits during her last illness gave her so much comfort. Following the services at the grave her mortal remains were laid to rest beside her husband and two sons who predeceased her many years ago, there to await a glorious resurrection.

The pall-bearers were Gus McDonald, Alex D. Campbell, Neil D. McDonald, Austin Johnstone, Louis Fitzpatrick and Trevor Cheverie. Hearse driver, Peter McCormack. Many Mass Cards and letters of sympathy were received.

May her soul rest in peace.

**Card of Thanks**

We wish to thank Fr. MacDonal, all those who sent Mass Cards, Letters and Cards of Sympathy, and all who in any way helped us during our time of bereavement. The family of the late Mrs. Daniel Somers. 6-19-45.

**Eisenhower Discusses Peace, War Prospects**

**By AUSTIN BEALMEAR**

**ALLIED SUPREME HEAD-QUARTERS, June 17**—(AP)—Gen. Eisenhower today forecast continued harmony with Russia, and told press conference there was nothing in his experience with Russians that led him to doubt the Western Allies could co-operate with them perfectly.

"The individual Russia," the Supreme Commander added, "is one of the friendliest persons in the world."

Gen. Eisenhower gave his longest review of the war, and also discussed prospects for the peace, in his headquarters here before he left by plane for his Frankfurt headquarters.

He told the correspondents:

1. The Allied control council will be a success as the over-all governing body of Germany, although peace problems are slow of solution.
2. Adolf Hitler "if not dead, must undergo the worst possible punishment... to be hunted in disguise and underground."
3. The Germans were justified in waging the German cities by air bombardment.
4. Marshal Von Rundstedt was the German commander the Allies met.
5. The Allied armies were the best equipped in the world, although the Germans had superior tanks until the American Pershings arrived, and the Germans' 88-M.M. guns and jet planes were outstanding weapons.
6. The chief characteristic of Gen. Eisenhower's command was "the co-operation of ground, sea, and air forces, which is fully as important as integration among the Allies."
7. The Germans "knew the jig was up three days after their Ardennes offensive began, but they still held out in hopes of splitting the Allies."
8. In 2,000 tons a day, made possible by the continued advance into Germany after the crossing of the Rhine.
9. Germany is unrepentant, with the majority of her people denying that they had committed a crime.
10. The punishment should be made to fit the crime in dealing with war criminals.

**British-Indian Conference June 25**

**LONDON, June 17**—(Saturday)—(CP)—The British Government announced today that a British-Indian conference has been set for June 25 at Simla to discuss British offers of additional posts for Indians in the Indian Government.

A dispatch from Bombay said later that Mahomed Ali Jinnah, Moslem League President, pledging "Mohammedans" co-operation and good-will, had asked that the conference be postponed for two weeks to permit fuller discussion of the terms of the league's executive committee.

Jinnah, first Indian Political leader to comment on the British offer, said the Mohammedans would contribute to any just interim settlement of the Indian problem, but he generally opposed the Simla conference would accept yesterday's British white paper proposal, which the British Premier, Sir Winston Churchill, said was "toward Indian self-government."

In New Delhi, it was said the British Government might agree to a different plan or even a final solution of the constitutional problem if the Simla conference unanimously agree on one.

Registration of state for India, promised today the Viceroy would not use his veto power on those so carelessly again. These might be made by the proposed new executive council.

lovely picture; the red of the paths and the shadowed roadway and a benign smile, even all the popular leaves on the tree beside me stirred—dancing their restless lives away. I stooped to better catch the fragrance of the narcissi in the lawn-bed when Judy came with the mower to put it by for the day. "What do you call these things?" she asked me. "Judy," I said, "never let me hear you refer to them as 'these' again. These 'I said impressively' are narcissi named in honor of... but dear me, I could tell by her look and the way she followed a passing car with her eyes that my words were lost at utterance. "Now," I asked her: "What are these?" "You just said it, Mrs. Ellen," she returned laughing and making her way to "garage" her machine.

**Looking Ahead In Ottawa**

**By The Ottawa Staff of The Canadian Press**

**OTTAWA, June 17**—(CP)—Action of Nova Scotia miners in turning down wage recommendations of the Carroll Industrial Disputes Commission bounced back in the lap of the Labor Department one of the toughest and most persistent hardliner set forth by the deal with under the wartime wage control plan.

The miners turned down the Commission's recommendations which included extension of one week's vacation to two weeks, some pay increases and introduction of a five-day week by a vote of 5,132 to 4,072. In view of the comparatively narrow margin it was considered possible the United Mine Workers (C.I.U.) might decide to take a new referendum.

Regardless of the outcome of a second vote, if one is held, the final word rests with the National War Labor Board which turned down the Union's original application.

Under the terms of the agreement voted to strike and the Industrial Disputes Commission was then set up an effort and a tie-up in the mines and a reduction in the output of much-needed coal.

The Commission's report, however, made its recommendations subject to approval by the N.W.L.B. which has the final say in wage matters.
