

The TIME You LOSE when Constipated

makes every Beecham's Pill worth at least a Dollar in the Time it has Saved you.

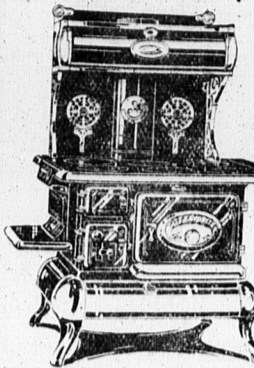

The Constipation Habit costs more than time, for it sets you back in many ways. It lowers vitality, cuts down your ability, wastes even the food you eat. Beecham's Pills make your bowels free and regular. They are famous also as an aid to digestion and a stimulant to the liver. Beecham's Pills, by helping the entire digestive tract, benefit the whole system.

Montague, P. E. Island Office Connected With Drugstore

THE WESTERN GUARDIAN

—SHOP from Holman's Catalog.

—SAVE DOUBLE FIRST CLASS EXPRESS charges by buying Hall's Fox Shipping Crates. Hall Mfg. & Cold Storage Co., Ltd., Summerside, P. E. Island, 401-10-29Mw41.

—SUMMERSIDE BUSINESS COLLEGE—Bookkeeping, Short-hand and Typewriting, Civil Service, Private tuition if desired. Evening classes. A complete business training at reasonable cost—J. Pogson, Principal. 3454 8 7 3moas

—FINE SHOWING.—"The Beautiful Liar," "The Leather Pushers" and "Comical Comedy," are the pictures that Mr. Yeo showed in the Strand Theatre, Kensington, on Saturday night. They were brought out clear and impressive. Large quantities of certified seed potatoes, cobbler and green mountain are being hauled to the Baltic starch factory.

—EASTERN AGENT.—Mr. J. W. Murdock is now Guardian Agent in Montague and will be pleased to receive news items, advertising, Job Printing, new and renewal subscriptions.

—FOR STARCH FACTORY.—The starch factories are apparently the best market for potatoes, seed and table stock. The price being paid is around 25c a bushel, while the regular buyers of choice merchantable potatoes pay but 22c.

—WANT CENTRAL HALL.—Kensington is one of the most important productive, commercial, educational, and religious centres in the province. What centre is supported by a more enterprising and intelligently progressive section than is Kensington? Churches and schools and public halls are convenient to all. But we know of no institution where all classes and creeds may meet and discuss questions of public import, or where they may participate in or enjoy a social evening, with each section having a right to enjoy an equal share in the privileges or responsibilities. Now, why could the young people not concentrate their intellectual forces and found the Kensington Centre Literary Institute, to acquire and disseminate knowledge to develop intellect, strengthen will and legitimately gratify the imagination? Such a union would strengthen the powers that at present act often with a single aim.

—A Foe to Asthma.—Give Asthma a half a chance and it gains ground rapidly. But give it repeated treatments of Dr. H. D. Kellogg's Asthma Remedy and it will fall back faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the inmost breathing passages and leaves no place for the trouble to lurk. Have it by you, for ready use.

—MRS. MICHAEL McDONALD, Clear Springs, who went to Boston two months ago for hospital treatment, came successfully through the operation and left Boston for home Sunday.

—MR. JOSEPH PARSONS and family who have been residing at Herbyville for the past eight years moved this week to St. Columba, East Point, where they have purchased the Conway farm from the recent owner, Mr. Peter McInnis, North Lake. This is a snug little farm, nice buildings and lots of lumber and hardwood, convenient to church school and fishing.

—THE SHIPPERS recently took objection to the Railway Commission which promptly adopted the course which Mr. Meighen said would have to be taken. The Commission ordered the withdrawal of the rates that have been causing the trouble and asserted its right to deal with the whole subject of rates.

—DOUGLAS as he might, the Right Hon. Mackenzie King and his Government have had to face this problem. They have done all the dodging they can get away with, and now they have to face the music. And what did the Premier say at Vancouver recently? Why, he had to take the position assumed by the Right Hon. Arthur Meighen long ago, and admit that the Railway Commission was the only body competent to deal with railway rates.

—THIS IS another tribute to the Conservative Leader's courage in meeting a problem face to face. Like a wise counsellor, whose advice is sought, he frankly tells the country what will have to be done. Sometimes the advice may be rather unpleasant, but he would rather tell the truth and run risk of displeasure, than act the part of a hypocrite. After all, such a policy will win out with the country, for those who have important interests at stake cannot afford to take chances on an artful dodger.

—IT WAS lack of courage to take a stand on this subject that got the country into all the trouble over the Crow's Nest Pass commodity rates this year. The Government was told what would happen, but it took a chance and the business interests of the country suffered. During all this time the Government did not offer a single constructive idea for the solution of this vexed problem. They acted as though it was no concern of theirs.

—BUT THE Right Hon. Arthur Meighen did not dodge the issue. He met it squarely. In effect he said: "You can't afford to allow the situation as respects freight rates to continue, for it will be fatal to business. We have a Railway Commission appointed to deal with freight rates, and the only course to take is to turn the whole matter over to it. Until this is done there will be nothing but dissatisfaction. In the meantime you will have to cancel the rates that are causing all the trouble."

The Public Forum

(Continued from Page 4)

ing the crossing at 45 minutes and Gall on the part of Mr. Mutch, when he tried to make me fatherly their guess, at any rate his statement that they were "Captain Read's own figures" is not true.

If one of my men were to tell me that we could make an average trip or crossing in 45 minutes, I would make it a point to smell his breath and if I found the nothing wrong there, I would consider his case as needing observation.

Another statement made by him on the 24th was: "Now suppose an additional trip were made by crossing from Tormentine to Borden before 9.15 and a return trip to Tormentine in the evening, the ACTUAL TIME would be increased by another two hours and fifteen minutes or a total of nine hours."

The above deduction is not correct, because Mr. Mutch is not WELL ENOUGH INFORMED from the facts supplied, and it is the kind of evidence supplied I don't wonder at them being misled, for it sounds reasonable but still it is not true.

So when he wrote: "So that to perform our schedule, the boat would have to operate during only fifteen minutes of twilight in the shortest day of the year," is absolute nonsense, and this I can prove so plainly that even he would have to admit his mistake, if he has the courage to do so.

But this is not the only mistake he has made, for he said: "For time of arrival at Borden, ON HIS FINAL TRIP in the evening during November and December last was after dark, but forgot to say, OR SHALL WE DROP THE 'FOR' and put it PLAINLY AND SAY THAT HE DELIBERATELY INCLUDED IN THE FIGURES REQUIRED TO MAKE HIS AVERAGE TRIP in the evening up to 10.40 p.m."

Now Sir, I like plain talking and since Mr. Mutch appears to relish it and insists on "calling a spade a spade," let me say for his information that the above statement of his is an absolute falsehood.

I am not one of those people who value their word lightly and I make this offer, IF Mr. Mutch can say that I said "the average time of our ARRIVAL AT BORDEN, ON OUR FINAL TRIP in the evening during November WAS AFTER DARK," I will pay a hundred dollars to the Orphanage.

If he can find or show, THAT I USED ANY TIME OTHER THAN THE ACTUAL TIME OF OUR ARRIVAL WITH THE PASSENGER TRIP in getting the average I will pay another hundred dollars to enter for a man, the thing easier not even ask him to put up a dollar, although as D. A. Bruce's Advt. says "Money talks."

Now here is a chance to get another couple of hundred dollars for a good cause PROVIDING MR. MUTCH IS CORRECT, and as he says himself "Time will tell."

He said: "Perhaps Captain Read can deny the authorship of the letter filed in this case."

Why should I deny the letter? Mr. Mutch in his wild scramble for a loop hole says: "Captain Read also gives us a little further insight into the cause of the late arrival at Borden in the evening, when he attempts to explain that the coaling, which the Board of Trade suggested could be done at night under the proposed schedule, is now done BEFORE LEAVING WITH THE LAST PASSENGER TRIP."

This, Sir, is also untrue. I never made any such statement or suggestion and it only goes to show Mr. Mutch does not realize that in the busy season we make trips after the passenger trip on every Friday evening and that we coal on "formy days" when I do not consider it safe to make a freight crossing. So another of his arguments falls by the wayside for want of knowledge of what actually takes place here.

ALL I ask of Mr. Mutch or any other man in an argument, is that I be quoted correctly. I have never opposed a double passenger service in daylight or at any other time when the buoys are out, and only did so when I thought the safety of the boat was endangered and I have yet to use false statements to back up my arguments.

Will Mr. Mutch take my offer? We will see.

I am, Sir, Etc. JOHN L. READ. Borden, P.E.I., Oct. 27th.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Extirminator.

DOMINION OF CANADA VICTORY LOAN BONDS

MATURING 1st NOVEMBER, 1924

THE BANK OF MONTREAL, under authority of the Minister of Finance is prepared to redeem the above bonds in full at maturity, without charge at any of its Branches in Canada.

For the convenience of owners of the bonds, the Bank of Montreal will accept the bonds at any time prior to November 1st, and will make payment in cash on November 1st, either by issuing a cheque or by placing the amount to the owner's credit in the books of the Bank, as the owner may desire.

CANADIANS IN LONDON

28th October, 1924.

During the week ended 14th October 215 visitors called at the Office of whom 134 obtained interviews and 34 registered.

The High Commissioner's Office is informed by the Canadian Trade Commissioners in Great Britain that they have received the following enquiries for Canadian goods during the past week:

1 London firm of Australian merchants invites quotations c. i. f. Australian ports from Canadian manufacturers of Box Shooks.

A Bristol produce agent desires West of England and South Wales representation for Canadian house handling.

A Glasgow company asks to be put in touch with Canadian manufacturers of cane chairs and other cane furniture.

A Bristol Commission agent particularly interested in Maize, Wheat and Barley desires West of England and South Wales representation for a Canadian Grain house both Montreal and Vancouver.

A Glasgow company seeks a connection with Canadian exporters of coarse grains and mill feed.

The Bristol Trade Commissioner reports to the High Commissioner's Office that he and the Timber Commissioner of the British Columbia Government have been investigating the possibilities of increasing imports of Douglas Fir and Hemlock into Bristol Channel ports. Douglas Fir is particularly suitable for the manufacture of railway wagons and coal trucks in the production of which a number of local manufacturers are engaged.

The High Commissioner's Office has made arrangements during the week for the distribution to the Dominion Bureau of Statistics of a Bulletin on the circulation of the late or the coaling, which the Board of Trade suggested could be done at night under the proposed schedule, is now done BEFORE LEAVING WITH THE LAST PASSENGER TRIP."

Flush The Kidneys Before Breakfast

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much food creates acids, which excite the kidneys, and cause them to fail to filter the blood. Then we get Rheumatism, headaches, liver-ness, nervousness, dizziness, ten come from sluggish kidneys. The moment you feel a dullness in the kidneys, or your back aches, or if the urine is cloudy, or full of sediment, irregular of salt, or attended by a somewhat scalding, begin drinking a quart of water each day, also get about ounces of Jad Salts from any grocery store; take a tablespoonful of glass of water before breakfast in a few days your kidneys will act fine.

This famous salt is made of the acid of grapes and lemon combined with lithia, and has been used for years to flush and purify the kidneys; also to help realize the acids in the system; they no longer cause irritation, thus often relieving bladder-ness.

Jad Salts is inexpensive; it is a delightful effervescent liquid to drink which everyone can take now and then to help keep kidneys clean and active and blood pure, thereby averting serious kidney complications. All means have your physician amine your kidneys at least once a year.

For Sore Feet—Minard's Liniment

—By GEO. McMANUS

REDUCTION OF GRADES

Heavy Rains Affected Sask Crop—Threshing Resumed

REGINA, Sask., Oct. 27.—It is estimated that bleaching will cause a reduction of one to two grades in the wheat crop affected by the heavy rains about nine days ago, according to telegraphic reports received today by the Provincial Department of Agriculture.

Threshing was resumed generally throughout the province at the week-end.

Only isolated reports of grain sprouting in the stocks have been received. In some districts the crop is turning out better than was expected.

More than 65 per cent of the threshing in the province is finished, except in the southeast, where more than half yet remains to be done.

Darken Gray Hair, Look Young, Pretty

Hair that loses its color and lustre, or when it faded, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.
