

CHANGES.

The summer by us Softly crept; First thing we thought of It was Sept.

Full soon the streets will All be blocked With freezing rains—a Sign of Oct.

Then he will hug the Parlor stove— A sure and certain Sign of Nov.

Then will come Christmas, Time of peace, All in the cranny; Month of Dec.

What then? Ah merci! Unto man Another century Come with J n l —St. Louis Post-Dispatch.

ARE QUICK TO SEE.

Good Doctors are Quick to See and Appreciate Real Merit in New Medicines

Stuart's Dyspepsia Tablets are a discovery of great value to the medical profession and the public. They are an unfailing specific in all cases of dyspepsia and disordered digestion.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for is to take some of the so-called blood purifiers, which in many cases are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and they will right themselves.

Purgin is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach what it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes.

They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets give them needed help and you will have no trouble.

It is a common sense medicine and a common sense treatment and it will cure every time. Not only cure the disease but care the cause. Goes about it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but we don't publish many of them. However—

Mrs. E. M. Faith of Byrd's Creek, Wis., says: I have taken all the Tablets I have got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time.

H. E. Wilare, Onslow, Ia., says: Mr. White of Canton, was telling me of your Dyspepsia Tablets curing him of Dyspepsia from which he had suffered for eight years. As I am a sufferer myself, I wish you to send me a package by return mail. Phil Brooks, Detroit, Mich., says: "Your dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia but am now entirely cured and enjoy life as I never have before. I gladly recommend them.

It will cost 50c. to send out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

All druggists sell them. A little book on stomach diseases will be mailed free by addressing F. A. Stuart, Co., Marshall, Mich.

Domestic Economy.

Said Brown unto his wife one day, "We've nothing left to eat. If things go on in this queer way, we can't make both ends meet." His wife replied in words discreet, "Oh, we won't be badly fed. If you can make but one end meet, I'll make the other bread!" Chicago News.

BUT GOOD WIFE!

You won't make good Bread if you don't use good Flour. It's a mistake many people make in buying Flour as well as other things, in thinking they are using economy by buying a cheap grade but it generally proves the dearest in the end. When in want of Flour give us a call; we keep most of the standard brands and can quote as low prices as anyone in the trade.

RED CROSS TEA.

This is one of the finest flavored Teas on the market, give it a trial. 20c. per pound.

Try a bottle of our pure homemade Raspberry Vinegar, 25c. per bottle. It makes a splendid drink. Free delivery. Telephone connection.

HATCHING CHICKEN

Meas of Incubators

by A. G. Gilbert.

EXPERIMENTAL FARM

Manager Well-known in P. E. Island—Where He Held Meetings Last Winter.

Mr. Gilbert writes Farming: Experiments in artificial incubation and rearing, carried on by means of incubators and brooders, showed:

1. The necessity of having the laying stock in robust condition.

2. That they be properly fed and treated so as to avoid an overfat condition.

3. That eggs laid in early January seemed to hatch a greater percentage of strong chicks, with fewer dead in the shell, than eggs laid in March and April.

It seemed difficult to get a satisfactory percentage of strong germs, later in the season, from hens which had laid all winter. There were too many fully-developed chicks dead in the shell.

In many cases the eggs were fertilized, but a large percentage of the germs seemed too weak to make progress beyond 7th, 11th, or 15th days.

The whole subject is being made a matter of scientific investigation in both Canada and the United States. One feature in connection with artificial incubation worthy of note is the number of farmers and others who have bought incubators and brooders during the past year. In two instances, I know of farmers' wives who have so successfully managed their incubators that machines of 20 egg capacity have been ordered to take the place of smaller ones. By means of incubators and brooders the farmer is able to get out his chickens at an early date, of the same age and in larger numbers. It is important to have early pullets for they certainly make early layers.

How early should they be hatched? Experience has shown that late April and May chicks do better than others hatched at other periods. This applies to both incubator and hen hatched chickens. My remarks do not apply to the specialist in poultry raising, who has all the necessary plant and facilities in the shape of incubator room, brooding house, and outside runs to permit of his beginning operations at the end of December and continuing them all winter. Mr. A. S. McBean, of Thornhill Farm, Lancaster is a farmer who has so successfully managed certain departments of his farm that he has become a specialist, and a very successful one in vegetable, fruit, and poultry raising. He has telephonic communication with his customers in that large market. All farmers are not so favorably situated, it may be said. But there are many farmers situated in the neighborhood of cities and large towns throughout the Dominion who are not alive to their opportunities. It was a farmer who said so and he spoke truly.

THE JIG IS UP.

"Th' jig is up," says Bobs, says 'e; "Th' jig is up at last; There ain't no use to fight," says 'e, "Th' fightin' hour is past. Ye done yer best, my lads," says he, "Ye gave us lots to do; An' I'll admit," says Bobs, says 'e, "Ye made us all feel blue."

"I'm sorry for ye, lads," says Bobs; "Ye didn't ave the weight; We kind o' tired ye out," says Bobs; "An' then ye know 'twas fate. Come inter camp," says Bobs says 'e, "Come in an' see us, do!" An' w'en we've shook all roun'," says Bobs, "W'y you can start anew." —Cleveland Pain Dealer.

Rheumatism.

is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the cause of those fearful shooting pains and stiff, aching joints. There is but one sure way—

Dodd's Kidney Pills

THE SPORTING WORLD.

Long, the new marvel in the sprinting world, will be 22 years old on October 16. He is 5 feet 11 1/2 inches tall, and weighs 163 pounds. He began running in the spring 1897 and finished third, from the 23-yard mark, in his first race, a quarter of a mile handicap. He quickly attained first-class form, however, and won the metropolitan championship of that year. When asked whether he would retire, Long said: "I intend to go into business this fall, and do not expect to do so much running in the future as I have done, but if I can spare the time I shall stick to the path for a while."

THE SHAMROCK AGAIN.

LONDON, Oct. 15.—Further information regarding Sir Thomas Lipton's new challenger for the America's cup confirms the statement that the boat will be named the Shamrock and will be selected by a series of contests between the yacht Watson is designing and the old Shamrock, after the latter shall have undergone the improvements proposed by Fife, though both yachts will be kept full manned by Sir Thomas Lipton and may cross the water together. The challenger will be commanded by a well known amateur yachtsman, whose name Sir Thomas Lipton does not wish to divulge at present. None of the old Shamrock's former captains will be employed in the coming races.

REMARKABLE SURGICAL OPERATION

Pall Mall, Gazette: A remarkable story comes from Cardiff. It appears that at the present time a little girl seven years of age, lies in the Cardiff Infirmary recovering from severe burn on her back. On her being taken to the Infirmary some weeks ago, the medical officers stated that the burn was of so serious a nature that they would not heal unless some flesh were taken from one of her sisters and grafted on that of the little sufferer. No sooner had the elder sister, a child of fifteen, been informed of this, than she volunteered to go to the Infirmary and undergo the operation for the sake of her sister. Portions of flesh were taken from her legs and placed upon the back of her sister. The operation was of so trying a character that the elder girl had to remain in the Infirmary for three weeks, and she has just returned to her home nearly well again. The younger child is still in the Infirmary, but making rapid strides towards recovery. The skin that has been grafted on her back has grown on to it. Altogether the operation has been entirely successful.

Business Men's Backs.

Too much rush and bustle, work and worry fall to the lot of the average business man. Kidneys can't stand it; they fail to filter the poisons from the blood properly. Urinary trouble, general languor and pain in the back are the natural results. A man can't attend to business properly if his back aches—no use trying.

DOAN'S KIDNEY PILLS.

Take a hint from business men who have used them: "I have taken Doan's Kidney Pills, which I procured at the Medical Hall here, for rheumatism and pains in the small of my back, with which I have been afflicted for the past six years. They did me so much good that I heartily recommend them as an excellent medicine for rheumatic troubles and backache." CHARLES C. PILKETT, dealer in agricultural implements, Orillia, Ont.

Doan's Kidney Pills cure backache, lame or weak back, Bright's disease, diabetes, dropsy, gravel, sediment in the urine, too frequent risings at night, rheumatism, and weakness of the kidneys in children and old people. Remember the name, Doan's, and refuse all others. The Doan Kidney Pill Co., Toronto, Ont.

TEMPERANCE REFORM IN ENGLAND.

The National United Temperance Council finds it impossible to chronicle all that has been accomplished during the past year, but rejoices that the signs of progress are full of encouragement and hope.

The council claims that the refusal by the London County Council to grant music licenses to new premises except on condition that intoxicating drinks were not sold there was largely due to the efforts of itself.

It has also held temperance reciting, speaking, essay, and singing competitions. The report includes a lurid map of England showing the distribution of drunkness, and concludes by expressing the conviction that sooner or later the antagonism of thoughtful and patriotic citizens to the liquor traffic will be strong enough to raise and free the nation for ever from this great destroyer of its health, happiness, and virtue.

MR. HOUSE, OF BERLIN.

Cured of Lumbago by Dodd's Kidney Pills.

Berlin, Oct.—Everyone in Berlin knows Andrew House. He is a respected and prosperous resident, who numbers his friends by hundreds.

For over a year past, Mr. House was tormented by severe pains in his back, which increased with severity in spite of doctors and their medicines. He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks, Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for back-ache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

COAL SUPERSEDED.

If the invention of a German engineer, which has been patented at Hamburg, realizes expectations, the coal problem is solved, and coal goes out of fashion.

The invention is a new burner for liquid fuel in combination with an apparatus which dispresses the liquid by means of high pressure air. The result is claimed to be an enormous heating power. A blow-pipe flame is easily produced, and the burner may be used for boilers, soldering, or smelting.

With the new burner it is suggested that a vessel could not take enough liquid fuel on board to carry her round the world without refilling. Navies and merchant vessels would thus be independent of coaling stations, and millions of tons of coal would be available for the domestic fire-grate!

Dear Sirs,—This is to certify that I have been troubled with a lame back for fifteen years.

I have used three bottles of your MINARD'S LINIMENT and am completely cured.

It gives me great pleasure to recommend it and you are at liberty to use this in any way to further the use of your valuable medicine.

Tw Rivers, ROBERT ROSS.

UP TO DATE.

Lives of some men oft remind us If we had but half their gall, We could loaf, too, and behind us Leave not any tracks at all.

WITHOUT SLEEP.

The vitality of the blood is soon exhausted. Sleeplessness is one of the symptoms of starved nerves. It is a warning of the approach of nervous prostration or paralysis. Don't be tempted to use narcotics or opiates. Dr. Chase's Nerve Food will gradually build up and reconstruct the wasted nerve cells and positively cure all nervous diseases. It is nature's greatest restorative, recommended by your druggists.
