Christmas Entertainment In St. James' Hall

One of the prettiest and most interesting entertainments of the season was given in St. James' Hall last evening by the Sunday School Children who had been tutored for the occasion by Miss Ethel Stewart.

ISLANDER ELECTED MAYOR.—Mr. J. H. Edwards, son of Mr. J. R. Edwards of North Wilshire, has been elected Mayor of Govan, Saskatchewan. Mr. Mayor Edwards has been fourteen years in the West and many friends will be glad to hear of his success.

K. O. P.—This year His Worship Brother Wright is host for the Annual Pythian Watch-night smoker which will be held in Castle Hall tonight, starting at 9 o'clock. A very interesting programme will be presented. All Pythian brethren and applicants for the Pythian rank are cordially invited.

FLOODING GOVERNMENT POND.—His Worship Mayor Wright is this morning keeping his promise made to the children of West Kent School at the closing, by flooding Government Pond. This will afford good skating for New Years Day, if His Worship can control the weather.

AT HOME.—Rev. H. D. Raymond and Mrs. Raymond will be at home to the congregation of St. Paul's Church on New Year's Day from 3 to 6 o'clock.

XMAS TREAT AT ST. PETERS.—The annual Christmas treat for the children of St. Peter's Sunday School was held last evening. It proved a thoroughly enjoyable time for the little ones. After tea had been served, and full justice had been done to the good things provided, games were played and a programme of recitations, etc.; then came the Christmas tree laden with good things which were dispersed by Santa Claus who caused much merriment. Before leaving for home each child was presented with a bag of candy and an orange.

"HAY THERE!"—An unusual spectacle was presented yesterday when the Murray Harbor train was seen towing along a load of hay. It appears that a man with a load of hay on his sleigh was driving across the Hillsboro bridge when for lack of snow ice, or sufficient horse power the sleigh stuck and no progress could be made. The driver finding himself in this strange predicament took his departure and proceeded along the bank, no doubt, for assistance leaving of course the sleighload of hay right in the middle of the bridge obstructing the railway track. Soon the train from Murray Harbor came tooting along and the engineer describing an immense stack of hay on the immediate right of way, and properly concluding it was no attempt to make a mountain of a mole-hill but the genuine article, naturally concluded that it would be wise to bring the train to a stand-still rather than attempt to make it travel through the load of hay. After a brief consultation it was decided that the only thing to do was to remove the obstacle and the engine and the train was backed to a convenient spot, on the Southport side where the hay was shunted to one side and the train enabled to continue its journey without further delay.
