

Messrs. WRIGHT Bros. are buying large quantities of produce this fall at Victoria. They are busy this week loading three large schooners the fourth having sailed a few days ago. They purchased on Thursday last 2300; Friday 2000 and on Saturday 16,000 bushels produce besides a quantity of hay, fowl and butter. During the fall they have loaded, in all sixteen vessels, and could have shipped more if they could have got vessels. Such large shipments is certainly a good thing for the farmers of that section.

Mr. J. A. JOHNSON of Halifax, in speaking to a St. John Gazette Representative says:—"Having made such a stupendous success of the coal business, Mr. Whitney and Mr. Pearson organized the Dominion Iron and Steel company, making their headquarters at Sydney. When the works are completed and get into running shape, Prince Edward Island will be able to find a ready market at Sydney and vicinity for much of its farm products. It is more than a dream with persons interested in the coal and iron and steel companies that another great industry shall be started in the lower provinces. I refer to that of the building of iron and steel steamers, and while most that a few suitable locations in Nova Scotia are mentioned, I have heard much talk of Courtney Bay, St. John, being a site for the erection of such steamers."

SELF PRESERVATION.

AN INTERESTING CASE.

Mr. W. S. Pynch, proprietor of the Hotel, 36 Wellington Street East, Toronto, says:—"While living in Chicago I was in a terrible shape with itching and bleeding piles, I tried several of the best physicians and was burnt and tortured in various ways by their treatment to no avail, besides spending a mint of money to no purpose. Since coming to Toronto I learned of Dr. Chase's Ointment. I used but one box and have not been troubled with piles in any shape or form since."
