

### The Natural Cure For Rheumatism.

"Fruit-a-tives" remove from the blood the poison which causes Rheumatism.

Rheumatism means poisoned blood. The kidneys, bowels and skin should rid the system of waste matter. If either of these vital organs become weakened or diseased, the body cannot throw off this waste fast enough.

One of these body poisons is URIC ACID, which is eliminated both by the kidneys and skin. If the skin action is poor—if the kidneys are inflamed—urea stays in the system—is changed into uric acid—carried by the blood to the nerves and joints—and causes Rheumatism.

"Fruit-a-tives" cure Rheumatism because they eliminate urea, by increasing the action of bowels, kidneys and skin. This is the only possible way in which Rheumatism can be cured to stay cured. And "Fruit-a-tives" is the only remedy in the world that completely eradicates the disease from the system.

"Fruit-a-tives" are fruit juices in which the natural medicinal action of fruit is many times increased by the process of combining them.

Then tonics and antiseptics are added and the whole made into tablets. 50c. a box—\$4 for \$2.50. At all dealers or from Fruit-a-tives Limited, Ottawa. 111

## It's Time to Think of Bicycle Riding

Nothing ever happened the bicycle. Nothing ever came along to fill its place. Nothing ever turned up to make the bicycle less useful than it always has been. Nothing in the final outcome of the wide and general use of the bicycle ever tended to show that it is not a most handy vehicle for speedy and direct locomotion, as well as for healthy, pleasant exercise.

It is a good guess to say that the falling off in the once surprising enthusiasm for the bicycle was owing to its having reached a fixed standard of construction and equipment. Every year used to bring around a new feature of improvement for the bicycle. When invention along this line ceased the buying of bicycles lost its novelty.

Once all bicycles were hard tired. If invention had stayed there the bicycle fever would have cooled off in 1888. But in that year Dunlop Pneumatic Tires were introduced and interest in the bicycle took a fresh new start.

And in this season of 1907 Dunlops once more put out a new style of tire as an improvement to the bicycle. In general features it is the same "these are the only tools you need" tire, but it is made by the Doughty Process—a valuable patent controlled exclusively by the Dunlop Company.

Do you remember the pleasant surprise of your first ride over the cobble stones on Dunlop Tires? No jolting, no bone shaking. Smooth, noiseless riding over rough spots you could not take on your hard tires. Well, renew that pleasure and try these Doughty-made tires. There's more in them than has been seen on the surface, although the durable slipless tread is a winning feature. But they have an improved natural shape also. There is no strain on the fabric when the tire carries the weight of the rider. They are more resilient, ride more smoothly, hold the ground firmer, and are even less liable to puncture.

If you want to renew all the pleasure wheeling once had for you, try these new Doughty Dunlop tires.

# GOOD ADVICE TO INVESTORS

Put some of your money into the new gold fields of Larder Lake, Northern Ontario.

It is going to make more money for investors than any gold district ever before known in the history of gold mining. Don't wait or put it off another day. **DO IT NOW.** Every dollar you invest at the present time will return to you a hundredfold, buy and hold, follow our advice, buy shares of the **HIGHLAND MARY GOLD MINES, LIMITED**, of Larder Lake, at the present price, 10c per share. If you buy now at this price you can never be called upon to pay anything more, as the shares are fully paid and are forever non-assessable. The shares of Highland Mary will never sell for less than the present price, but every share you buy now will, we believe, eventually be worth a hundred times more.

Our previous advertisements have stated that the Highland Mary Gold Mines were situated at Larder Lake, the new gold fields of Northern Ontario, and consist of thirty well-located, forty-acre gold claims, 1,200 acres in all, located on the north-east arm of the Lake, in the same locality as the Dr. Reddick properties—The Proprietaries Gold Fields Company, the Lucky Boys and the Blue Bell Companies—and that there were no indebtedness or encumbrances; that many great gold-bearing veins were found on the property; that engineers and miners estimated that there were many thousands of tons of ore that would produce millions of dollars in gold available, and only waiting for the installation of the stamp mills that are to be installed.

We have also stated that when we advise investments in Highland Mary, and make the statements regarding that Company and the Larder Lake district, that we know what we are doing. We have been all Summer with our engineers and assayers in the Larder Lake Gold Fields, making thorough examinations; we have spent thousands of dollars in the last three months in this manner for the purpose of satisfying ourselves, beyond any doubt or question, that the Larder Lake district is what is claimed for it; and, further, we have spent this money and satisfied ourselves in order that we might not mislead our clients, who rely upon us and make investments through our advice.

We have done everything in the way of ascertaining facts that could be done or that could be desired of us by our clients. Our business is to select good, profitable investments that we can recommend without reservation. Thousands of letters from satisfied clients testify that our efforts are successful. That has been the principle and policy of the house of Law and Company for the past seventeen years. "Be sure you are right, then go ahead," has been our motto, and the results from the investments made by thousands of clients is a standing recommendation as to whether having followed this policy and motto has proven profitable to the investors.

We have heretofore made this statement, and we now make it again: Any investor who has invested money through Law and Company, since their house was established in 1890, through any misrepresentations or misstatements, can, by making such fact known to us, receive the return of the amount invested, together with interest thereon. We have never been called upon to return a single dollar, and have never had such a claim made, and we do not believe there-

will be regarding any representation or statement made by us up to the present time. We know that we have always adhered to the truth and proclaimed the facts as we have found them.

We probably do as large a business as any financial brokerage house in Canada. It is growing rapidly. Our responsibility and integrity in the business world is beyond reproach. Investors who have done business with us in the past have learned to rely absolutely upon our advice regarding investments in mining shares.

We were the first to offer shares in companies owning properties of established values in the Larder Lake district. At the very outset we placed our engineers and assayers in the field. We obtained exhaustive and reliable reports. We then came out boldly over our signatures and told the world what was there. Our advertisements told the world of the golden north, and predicted the great stampede which followed. World-famed mining engineers and mining experts of Europe and America have since visited the Larder Lake camp, and have not only confirmed the reports sent out by our own trustworthy engineers, but have endorsed all that we have claimed for Larder Lake, as to its present and future.

Take our advice and act quickly. Place all the money you can in shares of the Highland Mary. It is the best stock at the present time to buy. Do you ever consider that one hundred, five hundred, or one thousand dollars placed in a bank, at three to four per cent. interest per annum, must stay there something like twenty years to double itself, and even then would you have had any pleasure, enjoyment or luxury from it, or through its benefits? Certainly not, but perhaps someone else would. It might be invested over and over again by someone who would make many thousands of dollars through investing it in profitable undertakings. You certainly understand that no concern could afford to pay you interest unless they have the legitimate privilege of using it in order to make a profit over and above what would have to be paid to you for the use of it. If you have not thought of this, you should understand it now, and you should understand further that you could take your own money and make investments with it, in this the greatest of countries for profitable investments, and make as much money with it as anyone else could, and receive the pleasures, enjoyments and luxuries from the great profits therefrom, instead of the other fellow.

Put some money in the Highland Mary. You won't lose, you will make big money, and you won't be long doing it. One eminent engineer from London, who ought to know what he is talking about, says that Larder Lake mining shares will advance to a higher level than did the shares of gold companies in the Rand of South Africa, where some of them advanced to over \$500.00 per share.

It has been estimated by engineers and mining experts who have visited Larder Lake, and have made conservative calculations that there is already ore that can be counted upon as available in the Larder Lake District, containing more value than the total capitalization of all the Larder Lake companies.

We say again, buy **HIGHLAND MARY**, and buy it quick, before the big advance that is sure to come.
