But now that Victory has been won, we have the additional satisfaction of knowing that our investment in Victory Bonds goes on working and earning 3% interest in peacetime, and will continue to do so until the principal amount becomes due . . . and Canada pays it back. There is no better investment than Victory Bonds because—

- of the safety of principal.
-of the regularity of the payment of 3% interest in half-yearly instalments.
-Victory Bonds are readily saleable.

Canada's national wealth and resources are security for the principal and interest.

This will be the only Victory Loan for a year. NEW YORK, Oct. 21 (AP) - Sir Gerald Campbell, G.C.M.G., explained the deonator, 65-year-old diplomat who came to the United States in 1920 as the youngest consul-general in the British service and has held various high posts here and in Canada ever since.

He was United Kingdom High Commissioner in Canada from 1938 to 1941. Since 1942 he has filled the dual offices of British Minister in Washington and special assistant to the British ambassador, the Earl of Halifax.

Renowned for his wit as a public speaker, Sir Gerald confesses he has delivered some 2,000 addresses throughout the continent, which he regards as "a high tribute to the digestive capacity of his audience."

Somewhat ruefully, he admits he hasn't decided how to spend the leisure of his retirement after such an active life. "Perhaps I shall get a microscope and peer into it," he says. "But

I don't know whether it will be bees or botany."

A substitute for cream for your coffee may be had by beating the yolk of an egg with a teaspoonful of sugar and a very little water.

Put it in the coffee cup before the coffee is poured into them. It is very easy to get a knot of a thin gold chain. Take the pins, hold with one and take the knot out with the other.
