## A SUSPENSION BRIDGE OF ROOTS AND VINES

PERU, Oct. 5.—The natives of the more uncivilized regions of the globe display considerable ingenuity in making use of such things as are to be found in the immediate neighborhood of their homes. A remarkable suspension bridge spans the River Rpuamac in Central Peru. The "ropes" of this bridge are composed of pliable roots and vines, while the planks are made of branches. In the humid climate of Peru it would be by no means extraordinary if this "vegetable bridge" were to take it into its head one day to start growing.

## BULLET FAILED HER: SHE TRIED THE RIVER

The exact cause of her deed is not known. She was 49 years old and leaves a husband and six children.
