IT PAYS to buy in this Province... LORNE VALLEY NOTES.—The firm of Chaudoin and Bell of Charlottetown placed two fine tombstones in Lorne Valley Cemetery on Thursday for Messrs Allan McSwain and John McPhee.—Mr. Daniel Brehaut, former Hill, was in Lorne Valley on Wednesday on a business trip.—Mr. J. A. Dewar, M. L. A., was in Lorne Valley on Thursday on business.—Messrs Malcolm MacDonald and Reuben McCampbell left on Thursday for High Bank on a fishing excursion.—The Lorne Valley School meeting was well attended by the ratepayers. Thirty dollars supplement was voted an increase of ten dollars over last year. It was also unanimously decided to change the midsummer vacation to spring and fall, this being the most suitable vacation for a country district. Mr. Neil McConnell was appointed trustee in place of Mr. Alex H. McDonald retired. Mr. Angus McLeod has been trustee in this district continuously for a period of twenty years. A record probably unequalled by any other school trustee in the province. The adjacent school districts have so far as heard from increased their supplements. Cardigan Head voted twenty dollars and retained midsummer vacation. Peake's Station did likewise in the matter of vacation, and increased the supplement to forty-five dollars. The teachers in the schools have resigned. Automobiles are a familiar sight in this part of the country at present quite a number being seen daily on the Pisiquid Road.—Mr. and Mrs. Roderick McSwain and Miss Jessie McAnnel were visitors to Charlottetown on Thursday.—Mr. Gardis Bambrick, trader of Dun dee, Lot 40, was to Lorne Valley on Friday on a business trip.—&

TREASURE ISLAND.—A new Edition. Belief in the existences of money and other treasures buried by the early French settlers of the Island at the time of the conquest, is very prevalent and deep rooted in certain sections of the province especially along the coasts where most of the French settlements were located. Among these places Greenwich on the East side of St. Peter's Bay where traces of a French settlement are to be seen, and many articles belonging to the early settlers have been found including a small cannon has attained a wide celebrity and is a favorite haunt of treasure seekers, concerning whose adventure many tales are related. The treasure is believed to be located on the farm of Mr. Gardner Sanderson which occupies the eastern side of St. Peter's Bay, but the exact spot is known only to certain of the "Natives." On Wednesday night, the 14th instant a number of men from one of the nearby lobster factories at Cable Head, fired by the tales of wealth to be won and headed by a "quarrel" individual from the Head of Hillsboro, who feared neither ghost nor goblin, determined to make an attempt to unearth the long sought treasure and having provided them selves with a mineral rod and other necessary appliances they set forth "burning with high hopes" in search of this new El Dorado. But alas; their fervent expectations were doomed to disappointment for having neglected to take a guide with them and being strangers to the locality, they spent the night in fruitless endeavors to locate the place where the money is supposed to be buried, and returned weary and dispirited and cursing their ill luck with serious emphasis. Their secret though well kept leaked out through some remark let fall by the leader of the expedition who it is claimed was responsible for their failure to take along a guide as he trusted in "luck" and the virtues of the mineral rod to make the discovery. It is said that since the "denouement" his beliefs in "luck" mineral rods and buried French treasures have vanquished simultaneously.—&

THE LADIES' AID SOCIETY OF THE METHODIST CHURCH, ST. JOHNS will hold their annual strawberry festival on Wednesday, July 25th. 1232.—&

NAUFRAGE HARBOR.—Regarding Naufrage Harbor recently mentioned in the Guardian, it ought to be said that a movement is on foot to that locality to have the harbor dredged, as the depth of water at the entrance is hardly sufficient for ordinary purposes. It is claimed that the breakwater on the west side of the harbor which extends out considerably farther than that on the east side cause the sand to accumulate in the entrance making ingress at low tide almost impossible and this could be remedied by dredging the harbor, and making the eastern breakwater of equal length with the western one. Naufrage (which is the French word for shipwreck) is a place of some historical interest, being the site of a French settlement traces of which may still be seen and many relics of the settlers have been found such as French coins, household utensils etc. Here the first Roman Catholic Chapel in this part of the country was built by Bishop McEachern in 1830 in the farm now occupied by Angus J. McDonald where the site of the chapel and cemetery are still pointed out. Here dwelt Hon. John McIntosh member of the Colonial Legislature and one of the pioneers of Responsible Government. The late Lieutenant Governor McIntyre was a native of Naufrage as well as his brother Rev. A. J. McIntyre of Kinkora. A Naufrage boy Daniel O'Hanley was one of the first to enlist for overseas service and has been in the trenches in France for the past two years having escaped so far without being wounded. It is confidently expected that with the growth of the fisheries, as the years go by, Naufrage will become the trading centre for a large part of the surrounding country.—&

FINANCIAL SHIRKERS

Government War Savings Certificates are Looking for Purchasers. Financial shirkers should be condemned in every community. People who indulge in extravagances, who are guilty of wastefulness, who persist in living in luxury are unworthy of the Dominion and deliberately betraying the men who are fighting for them at the front. Canada has a glorious war record. Those who are not in the firing trenches should be in the financial trenches. Study your expenditures. Be sure that you are not spending unnecessarily before you buy. There never was greater national need for thrift and economy. Some new things must be bought but be certain first that the old things will not do for another month. Do not spend a cent needlessly. Save your dollars to help the army fight its battles. Money provides the supplies of war. Are you doing anything to supply the Canadian divisions? Do not be extreme. There is a false economy which wastes instead of saving. But practise the true economy and put every possible dollar into War Savings Certificates which can be purchased at your nearest Money Order Post Office or Bank. 1215-6-26M11.

LETTER OF SYMPATHY.

Mrs. Marshall, Covehead, has received the following letter: June 6, 1917.

Dear Mrs. Marshall— I am writing these few lines to sympathize with you over the loss of Merrile who was with me for a short while prior to being hit. We all lost a real good boy when we have lost him, as I assure you he was always cheerful no matter whether we had good work or rotten work to do. I was not able to be near him when he died, as he was taken off my strength about two weeks before the attack, and you may be sure I was sorry to lose such a cheerful kind-hearted boy. From what I heard from some of the boys, he died quite peacefully being conscious about 15 minutes before the end. I cannot explain how shocked I was to hear of it, but we must all cheer up and remember that he has only gone before us, and that we shall all meet again in a happier land.

So I want you to try and be brave. Mrs. Marshall, remember he died a perfect hero, I myself was wounded shortly afterwards, but am pleased to say am getting better nicely. So closing with the deepest sympathy. Believe me, Yours sincerely, FRED. WILD, Lance Corporal F. Wild, 158200 21st Canadians Special Hospital, Ramsgate, Kent, Eng.
