

LEARNING WITHOUT LABOUR.
Learning without thought is labour lost; thought without labour is perilous.—Confucius.

Bent Nearly Double With Bright's Disease.

A Severe and Fortifying Case of Bright's Disease—A Justice of the Peace Certifies to the Cure by Dr. Chase's Kidney-Liver Pills.

Mr. James Dellihunt, a much respected resident of Concession, Ont., states:—"I was a sufferer from Bright's Disease for several years, and at times the tortures of mind and body were almost beyond endurance. The pains were in my head, between the shoulders and down the whole spine, concentrating across the kidneys, where I was never entirely free from pain. When I got up in the morning I went about bent over nearly double. It gave me great pain to urinate, and at times the water was very scanty. Medicines seemed to have little or no effect in my case, until I began the use of Dr. Chase's Kidney-Liver Pills. The first dose relieved me, and five boxes entirely cured me. I have no pains in my kidneys, and can do as good a day's work as I ever did."

Mr. J. J. Ward, J.P., of Concession, certifies that he knows Mr. Dellihunt's statement of his cure to be correct and true and without exaggeration. It seems foolish to trifle with new-fangled medicines when you can get the tested and proven kind. Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmanston, Bates & Co., Toronto. Agents wanted for Dr. Chase's 1st and complete Receipt Book.

THE FOOD PRODUCTS

Of Canada Considered one of the Features

EXHIBIT AT GLASGOW

A First Class Opportunity of Studying What Canada can Produce.

In these days of Imperial ideas, when on all sides efforts are being made toward the various portions of the Empire closer together, one of the most interesting problems is how trade between the colonies and the Mother Country can be increased. The question is often asked "Can Greater Britain if necessary, supply Great Britain with sufficient supplies of food so as to render her present dependence on other countries unnecessary?" Whether this is or is not the case will probably be amply proven some day when international complications will again place the Empire on its mettle, and another practical test be given to the links in its chain. Meanwhile however, one fact remains patent, and that is that the United Kingdom could at the present time be drawing more on the colonies for her food supply than at present the case. For a practical example of this it is only necessary to go into any grocery store in the United Kingdom and inspect the varied food products imported from foreign lands, nearly all of which might be supplied by people living under our own flag in other parts of the Empire. Therefore any efforts made to change this unsatisfactory state of affairs, and to explain to British importers what the resources of Greater Britain in this line really are, cannot but be productive of immense benefit, and as such is the case the special efforts being made in this line at the Glasgow Exhibition are worthy of more than passing notice.

CANADA FIRST.

Of all the colonies represented at Glasgow, Canada ranks first, not only as regards population and political importance but also as to the extent and variety of her exhibits, and it is pleasing to note that the Dominion Government is making a special effort to show the capability of Canada to meet the demands of the British consumer. Of course, the fact that Canada has for years back been supplying the British market with steady increasing quantities of farm produce is fairly well known; still one has only to visit the Canadian Food Products Section in the Industrial Hall to realize how this trade could be increased, and to study the system of cold storage arranged for by the Ottawa Government, to feel satisfied that it will be increased.

The exhibit of Canadian food products occupies a space of 2,000 square feet, and the manner in which the exhibits are arranged immediately attracts the eye. Large pyramids of flour, oatmeal, cheese honey, wine, etc., very attractively displayed, are surrounded by upright cases containing an immense variety of canned and preserved foods. Near by is a large stand of bacon, hams and cured meats, while the most important part of the exhibit, the cold storage plant and refrigerating chamber, is placed alongside, so as to afford a practical demonstration of the transportation facilities now at the disposal of the Canadian producer. Inside the refrigerating chamber (which contains some 600 square feet of space) are shown a large

DRUNKENNESS IS A DISEASE AND CAN BE CURED

IS YOUR HUSBAND, BROTHER, FATHER, or any of your relatives afflicted with the Disease of Drunkenness? We have a sure cure which can be given with or without the knowledge of the patient. Read the following which speaks for itself:—
SAN FRANCISCO, CAL., Dec. 1, 1900
DR. W. H. SAUNDERS & CO., Chicago Ill.
Dear Sirs—Kindly accept my thanks for the wonderful and permanent cures you have wrought on many members of my congregation. I have organized a society among my members to promote and advertise this most safe and speedy cure for this dreaded and disease which so many are afflicted with. You will learn in the very near future of the result of their labors. I sincerely hope that God will bless you and allow you to still continue in this great and good work in saving our fellow mortals from the scene of destruction, and place them on the road to live a sober and righteous life. Only wishing I could do more to assist you in this noble and worthy work, I am,
Yours truly,
Rev. J. M. B.

We have and are curing thousands, and we have hundreds of testimonials and are speaking of these wonderful cures. Send for particulars, enclosing 2 cent stamp. Reply to address: DR. W. H. SAUNDERS & CO., Sta. C, Chicago, Ill., U.S.A. 19d&w

number of perishable products—meat eggs butter, cheese, condensed milk, apples and other fresh fruits, and canned meats, vegetables and fruits, of all kinds. The system of cold storage adopted is known as the "Linde system of refrigeration," and is that adopted by the Canadian Government. It is simple, economical and easily explained by Savigny, the official in charge of the large crowds daily visiting the exhibition.

That Canada can produce large quantities of food products for export is, of course, an established fact, and the continually increasing value of farm products exported (last year amounting to no less than \$77,810,532) is ample evidence that they only need to become better known to secure an even larger consumption in the United Kingdom. Transportation facilities, however, cannot but play the most important part in continuing the good start already made, and the Dominion Government is not only doing an immense service to Canada by advertising her products at Glasgow, but is also largely solving the problem of transportation of perishable articles by aiding to establish a chain of cold storage between all the principal shipping points in Canada and the centres of population in Great Britain. In fact, the recent large increases in Canadian exports can be safely attributed to the fact that exportable food products can be kept in cold storage in all large towns in the Dominion, shipped in refrigerated cars on any of the Canadian railways, and carried across the Atlantic by the Donaldson, Allan, Dominion or Elder-Dempster lines, in cold storage, and be placed in refrigerating chambers on their arrival in Liverpool, Manchester, Glasgow, London or any of the chief British ports.

At the Glasgow Exhibition merchants of all kinds are having a first-class opportunity of studying what Canada can produce, and the benefit already derived by exhibiting firms is very gratifying. One alone (the Wm. Davies Company, Limited of Toronto) finds that their business in hams and bacon has more than trebled in Scotland since the opening of the exhibition, while their sales in England are increasing by leaps and bounds. Over 200 retailers in Scotland are now selling all the Canadian cured meats they can get, and Mr. J. D. Stewart, the well-known commercial traveller, and superintendent of food products at the exhibition, reports that the exhibit is leading to an immense increase of trade in almost all lines, and especially in flour, eggs, is bacon and canned meats; in fact, that the benefits of advertising Canada in Glasgow are already being felt, and that the efforts of the Canadian commissioner, Mr. W. D. Scott, to have Canada well represented are meeting with wellmerited success.

A QUEBEC LADY SATISFIED.

Her trial of Dodd's Kidney Pills was a Grand Success.

BOIVIN, Que., July 15—(Special)—It is becoming more and more certain every day that a trial of Dodd's Kidney Pills is sufficient to convince anybody of their worth. They are such an excellent remedy, so well calculated to relieve promptly and cure permanently in the end, that people once they try them cannot help but admit their wonderful power.

Mrs. Famsle, of Boivin, only had to take one box, but she is a well woman today. Here is her own letter about it:—"I am well satisfied with Dodd's Kidney Pills. They cured my backache. I suffered with kidney disease, which compelled me to take to bed; I suffered misery if I tried to get up."
"I thought I'd try Dodd's Kidney Pills and did so. I have only had to take one box, but I am cured."

THE AIRSHIP.

It may be prophesied that the airship will be the chief spectacle of the next World's Fair.

Baddek, June 11, 1907.
C. C. RICHARDS & CO.
Dear Sirs,—MINARD'S LINIMENT is my remedy for NEURALGIA. It relieves at once.
A. S. McDONALD.

WHERE DID THE BOER LEAFEN?

When it was reported that a Boer had escaped from captivity at Bermuda by swimming to an outgoing vessel, the thought at once suggested itself as to where he learned to swim. There are not many opportunities for practising the art in South Africa.

KUMFORT Headache Powders are safe, pleasant, and effectual. They contain no opiates or any harmful drug. They create no habit from continued use.

BISHOP OF LONDON AND BOYS.

The Bishop of London says that there is nobody in this world so shy as confiding his hopes and doubts and wishes as the boy of sixteen or eighteen, but there is one person who is always his readiest confidant and that is his sister if she understood his work. If her education is equal to his her opportunities for being a good influence in his life at this point are boundless and in the same sense a mother's influence on a young man when he comes from college would be enhanced tenfold if that son felt that the problem which interested him were not a closed book to her.

When you ask for Headache Powders be sure you get KUMFORT. Never accept a substitute. It is better to be safe than sorry and you may be sure that KUMFORT are the best. All Druggists in 10

AN IMMENSE LOSS ON THE TURF.

According to tables made by sporting men, over \$50,000,000 is lost on the turf every year. Of this, \$10,000,000 is lost on English race-courses. The remainder is chiefly distributed between France, the United States and British colonies.

PHILIPPINES TRADE RETURNS.

Trade returns from the Philippines do not indicate the destruction of British iron industries. In iron and steel manufactures the islands imported from Britain \$800,000 worth during 1900, from Germany \$249,000, from France \$181,000, and from the United States \$138,000.

Croupy Coughs of Children.

The tendency to croup is a foe that all parents have to fight. Croup comes in the night, when the help must be right at hand. It is to be helped at all. Adamson's Botanic Cough Balsam is a blessing to all families where there are children subject to attacks of croup or any mean cough. It has a wonderful reputation for its efficacy and fully deserves it.

You cannot tell what night your child may wake up choking to death with croup in such a case what do you do? Send for a doctor and wait an hour or perhaps two hours, while the child is gasping for breath. How much simpler where the true specific for croupy coughs and all throat troubles is right at hand. Indeed no other way is safe with young children in the house. Adamson's Cough Balsam is a most delicate medicine for children relieving the little throats at once. Its action is soothing and certain. It clears out the phlegm which produces the croupy condition and is a safeguard which no mother who knows about it will dispense with. All coughs and inflammation of the throat or bronchial tubes are cured by Balsam with promptness that surprises. All druggists sell it, 25 cents. The genuine has "F. W. Kinsman & Co." blow in the bottle.

CHOOSE THE BEST WAY.

Choose always the way that seems the best, however rough it may be. Custom will render it easy and agreeable.—Pythagoras.

IT STRIKES THE HEART.

Not only is the victim of Rheumatism a constant sufferer, but he lives in continual dread that the disease will reach the heart, which means sudden and unexpected death. Rheumatism can only be cured when the uric acid is removed from the blood by the healthy action of the kidneys. Dr. Chase's Kidney Liver Pills make the kidneys healthy and vigorous, and so gradually and thoroughly cure Rheumatism by removing the cause. One pill a dose 25 cents a box.

MAN'S BEST SECURITY.

A man's good breeding is the best security against another man's bad manners.—Lord Chesterfield.

For the masses not the classes, BENTLEY'S Liniment is the family medicine chest. Price 10 and 25c.

A NEW OBSERVATORY.

King Charles of Portugal has formerly inaugurated in the Azores a new meteorological observatory, which will be placed in cable communication with the Agricultural Department in Washington.

To cure Headache in ten minutes use KUMFORT Headache Powders
