FROZEN BODY HAD BULLET IN HEAD

(Canadian Press)
LETHBRIDGE, Alb., March 12—The likelihood that a murder was perpetrated at Charlestown, near here, is based on a ghastly find made Saturday in a field on the farm of J. O. GOVERNMENT WON'T TAKE ANY CHANCES ON A QUEBECER BEAT.

(Canadian Press)
OTTAWA, March 12—The Government is apparently afraid to open a constituency in Quebec, Mr. Lesperance wants to be appointed harbor commissioner for Quebec, and the Government wants to appoint him to the post. However, the appointment would create a vacancy in the constituency of Montagny, which Mr. Lesperance represents. This would necessitate a by-election.
Ammand Lavergne has served notice on the Government that if there is a vacancy created for the Federal House he will be a candidate. He would be the French riding, but in any of the French ridings, but in Montagny, which he represents in the Local House and previously represented in the Federal House, he would be certain of success. He has intimated that he would run there in opposition to the Government candidate. That would mean a defeat for the Government and after the Senate Renewal experience there is a feeling that too much of that sort of thing will do for the administration party no good.

Behind the Attempt to Murder King Victor. Wounded Officers Recovering.

(Canadian Press)
ROME, Mar. 15—Major Giovanni Lang, who was wounded in the head yesterday near Dalba, an anarchist, attempted to assassinate King Victor Emmanuel, is considered almost out of danger.
Suspicion begins to increase that the outrages committed by Dalba were either in consequence of a plot or due to the instigation of some persons who, remaining in secret themselves, armed the hand of weak-minded Dalba, who for the past few days was shooting at a target.
Exactly the same thing was done by the anarchist Bresci, before murdering King Humbert, the present King's father.

TROOPS AND STRIKERS FIGHT IN GERMANY, SABRES ARE DRAWN.

(Canadian Press)
BERLIN, March 12—Collisions between the strikers, the police and the non-strikers are reported to have occurred today in six or eight localities in the coal regions. The most serious conflict was near Hamburg, in the district of Dusseldorf, where according to despatches, a mob of 2,800 strikers, who were waiting for the police, threw stones and bottles and fired revolvers at the detachment of forty policemen who were on guard, injuring five of them. The police then charged with drawn sabres injuring many of the strikers.
The workers were stoned and the police used their sabres in dispersing the crowds of strikers at many other points, but the number of casualties is not reported. Owing to these disturbances the Christian Trades Union and the mine owners have telegraphed to the Minister of the Interior to send troops or to reinforce the police in the coal district as the protection afforded to the workers is inadequate. The police authorities assert that the police protection is quite sufficient and minimize the disorders that have taken place.
The strike is making considerable progress in all districts, many of the mines today working with only one of the three shifts that are ordinarily employed. A small union of the hoisters joined the strike today.
The owners have invited a committee representing the miners from the individual miners to meet in conference tomorrow, but there is no prospect of these reaching a successful issue, owing to the present attitude of the owners. Figures issued today show that the increases of wages demanded by the miners cannot be granted owing to the financial position of the mining companies.

MINTO FAILS TO REACH CH'TOWN

(Canadian Press)
The ice barrier at Point Prim which successfully resisted the efforts of the Earl Grey to reach Charlottetown last December once more demonstrated the fact that it was to be reckoned with in connection with the opening of that port when it prevented the Minto from reaching Charlottetown yesterday.

"The Minto off Pt. Prim will leave for Georgetown in the morning. Would not have tried had I known of the miles of ice barrier. No chance till barrier moves out. Minto got stuck at 4 o'clock and only got free at 6:15. No possibility of teams reaching us."
