

THE ONLY MEDICINE THAT HELPED HER

"Fruit-a-tives Again Proves Its Extraordinary Powers"

ROCKNES, Que., March 2nd, 1915.
 "I have received the most wonderful benefit from taking 'Fruit-a-tives'. I suffered for years from Rheumatism and change of life, and I took every remedy obtainable without results. I tried 'Fruit-a-tives' and it was the only medicine that really did me good. Now I am entirely well—the Rheumatism has disappeared, and the terrible pains in my body are all gone. I hope that others, who suffer from such distressing diseases, will try 'Fruit-a-tives'.

OBEYING INSTRUCTIONS.

Mrs. Longsham, giving instructions to her new servant, said, "Before removing the soup-plates, Ellen, always ask each person if he or she would like any more." "Very good, madam!" The next day Ellen, respectfully bowing to one of the guests, inquired, "Would the gentlemen like some more soup?" "Yes, please," was the reply. "Well," said Ellen, "there ain't any left!"

A PATRIOTIC SUCCESS.—The tea and ice-cream festival, held under the auspices of the Red Cross Workers of Stanhope, was in every way a decided success. The proceeds were equally divided between Stanhope Presbyterian Church, and Red Cross, the handsome sum of \$174.61 was realized. The committee hereby wish to convey their thanks to those who so generously assisted in providing the necessaries for the tea tables, and also to all who contributed to its financial success. A fancy cushion donated by Mrs. David Lawson, was disposed of by lottery in aid of Stanhope Red Cross, the proceeds amounting to \$31.50. The lucky ticket was No. 178, held by Allan McEwen, Grand Tracadie.

COMMISSION OF CONSERVATION.—The Guardian has received the eighth annual report of the Commission of Conservation, for the year ending March 31, 1917. As usual the report is replete with valuable information relative to the resources of Canada. The addresses by leading Canadians at the annual meeting in January last, make excellent and informative reading covering as they do the resources, developed and undeveloped, of each of the provinces. A number of excellent illustrations in farming, fishing, lumbering, mining, etc. The volume, neatly bound in cloth boards and containing about 350 pages makes an excellent book of reference as to the resources of the different provinces, the possibilities of development etc.
