WHAT WOULD THEY GIVE?

It seems a waste of time to warn people against neglecting coughs and colds, but what would victims of consumption and pneumonia give if their disease were only in its beginning. If it were only a cough or cold. Deadly lung disease began with colds and could certainly be cured by Dr. Chase's Syrup of Linseed and Turpentine, the great prescription which no merely relieves but thoroughly cures cough and cold together.

DEATH AFTER APRIL 12.

CAPE TOWN April 8.—It is understood that the Gazette to-morrow will warn the colonists that acts of rebellion after April 12 will not be tried under the special law of last session but by old common law, under which rebels are punished with death or any terms of imprisonment the court decides to impose.

PLEASE TELL THE PEOPLE

Mr. Coderre wants Everybody to Know His Story—He Had a Very Bad Case of Dyspepsia, and Dodd's Dyspepsia Tablets Cured Him. After Everything else had Failed His Testimonial Letter.

Everybody in St. Jacques, Que., knows Adenard Coderre. He has given for publication the following letter:—

"I certify that for over 20 years, I suffered with Dyspepsia and inflammation of the stomach. I have taken several medicines, but have secured no relief. I was very discouraged.
"One day, I read an account of the cure of a similar case by the use of Dodd's Dyspepsia Tablets, so I determined to try again. I bought two boxes of them. From the very first, they relieved me, and now I am completely cured.
"I desired to make my case known to the public, so that all who suffer from that malady may find the only remedy that will cure it. Please tell all the people that Dodd's Dyspepsia Tablets cured me."

It is not often that any remedy receives such very high and unqualified commendation as Mr. Coderre gives to Dodd's Dyspepsia Tablets. There can be nothing plainer than his straightforward statement of the facts of his case and its cure.

No one in St. Jacques doubts Mr. Coderre's truthfulness, and no one who hears him speak of Dodd's Dyspepsia Tablets can doubt his sincerity.

The earnestness of the statements made by the friends of Dodd's Dyspepsia Tablets, is the distinguishing feature of their testimonials.

Almost everyone refers to the fact that they have tried other treatments without success and all manifest a desire to impress upon other sufferers, the fact that Dodd's Dyspepsia Tablets are not as other medicines are, but will instantly relieve and permanently cure all stomach trouble.

Dodd's Dyspepsia Tablets is an honest remedy, endorsed heartily by honest people.

They are no experiment, but a tried and proven remedy. Thousands have used them, and everyone tells the same story of restoration to health.

Better not delay longer. Try them. You'll not be disappointed.

RUGGING WILL NOT CURE CATARRH.

Doctors say so. Victims of snuffs, ointment and tablets tell the same story. Catarrh is a germ disease. The germs excite disease in the lungs, throat, nasal passages and bronchial tubes, germs are hard to get at but destroy them and you cure the disease. How can it be done? By carrying powerful medication with you know everything about Catarrh. You must be sure, also, that the medication will kill the disease germs. Catarrhazone is guaranteed to do this, that's why it has created such a sensation in the medical world. You simply breathe Catarrhazone; it destroys the germ—it heals—in a word it cures. Now you know everything about Catarrhazone except what you can learn by using it. Catarrhazone never disappoints and is guaranteed to cure Catarrh.
