Price 50c. a box.

CITY AND COUNTRY

Guardian Correspondents Everywhere.

READ Webster & MacKay's "ad" in this issue.

Mr. W. W. Clarke has received word from Halifax that the steamship Dalton Hall will probably arrive tomorrow morning.

CUSTOMERS of the Charlottetown Light & Power Co. are reminded that tomorrow, (Tuesday) will be the last day for the payment of bills.

Miss TEMPLE will hold her annual Christmas sale of Art Novelties on Friday, December 13th in the W. C. T. U. rooms, 49, 11, 13.

Miss Georgina Pope, who has been such a popular visitor to Ottawa, left on Monday for New York, where she intends doing private nursing through the winter and in the spring probably she will go to England to enter the Military Nursing Corps which has recently been formed, and in which Her Majesty Queen Alexandra is taking a deep interest. It is not likely that any nurses will accompany the third Canadian Contingent to South Africa, so when pain and anguish wring the brow of the gallant men who start in January, they will have to seek a ministering angel in one of the English sisters now in South Africa, and they will have to do entirely without one during the long month's voyage over the ocean. There is no doubt that the soldiers will miss the nurses in many ways.—Ottawa Free Press.

EASTERN NOTES.—A few showers of snow have whitened the ground but not enough for sleighing. There is always snow earlier and more abundantly in the middle and western parts of the island than here. This is owing to our geographical position.—There are some cod fish to be caught on the south side at present did weather permit. We have escaped the violent storms of the usual fall time so far, but had a remarkably high tide a few days ago when a mighty storm was raging in the Atlantic to the south and east of us.—Ira Kennedy picked up a porpoise on the shore a few days ago, and considers this island where you can procure such specimens of the animal kingdom, and see so many varieties of marine life far ahead of the rolling prairies of Manitoba whence he has lately returned, "where no fish are to be found, where no ocean rolls in majestic splendor, where no white winged vessels are to be seen, where the hoot of the owl and the croak of the raven are unknown, and but little animal life save the coyote and the prairie dog dispute with man the possession of the soil."—Willie Robertson and Peter Mellick, the last of the harvest ex-curionists who left here arrived home a few days ago. They are well pleased with their trip.—Miss Margaret Molnis of Red Point is modernising and renovating the exterior of her residence on plans prepared by Alfred Fraser, who is superintending the work and rushing it to completion ere cold weather arrives; his workmen are George and Stephen La Pierre and John D. McEllan.—William Young with his usual energy is hatching again this fall.—Messrs. Quigley and Walker have refitted and repaired the old Anderson grist mill at Black Pond at considerable expense, and are now ready to grind. Their mill is quite an accommodation to a large section of country.—John J. Smith of New Perth has been paying a visit east recently.

Laxative Bromo-Quinine Tablets cure a cold in one day. No cure No pay. Price 25c. 10-7 m w f aw 2m then Wed & Sat a ew May 3

A plain Gold Locket engraved with initials would make a valued present for Xmas.—G. H. Taylor, Jeweler. 62f

Why wear clothes that fit as though they were made by your mother-in-law when you can improve your appearance at so little cost at Gordon & McLellan's Merchant Tailors. 10-2 ff.

THE GUARDIAN has received from Mr. J. K. Ross, Provincial Manager of the North American Life, one of those handy memo books for 1902.

In conversation with Mr. W. W. Clarke, the agent for the S.S. Dalton Hall THE GUARDIAN learns that a very large amount of freight is offering and indications are certainly very encouraging. Mr. E. Wheatley will be a large shipper and already has seven carloads of sheep ready for exporting.

THE remains of the late Dr. Beer were interred on Saturday afternoon in Sherwood Cemetery, the attendance being very large. The services were conducted by Revs. G. M. Young and T. F. Fallerton. The pall bearers were: Wm. A. Weeks, Col. Moore, George E. Hughes, George A. Sharpe, F. L. Hazard, C. C. Gardiner.

WHAT GOES UP.

Must Come Down.

Nothing is more certain than the use of so called tonics, stimulants and medicines which depend upon alcohol for their effect, is injurious to health in the long run.

What goes up must come down and the elevation of spirits, the temporary exhilaration resulting from a dose of Medicine containing alcohol, will certainly be followed in a few hours by a corresponding depression to relieve which another dose must be taken.

In other words, many liquid patent Medicines derive their effect entirely from the alcohol they contain.

Alcohol and medicines containing it, are temporary stimulants and not in any sense a true tonic. In fact it is doubtful if any medicine or drug is a real tonic.

A true tonic is something which will renew, replenish, build up the exhausted nervous system and wasted tissues of the body; something that will enrich the blood and endow it with the proper proportions of red and white corpuscles, which prevent or destroy disease germs. This is what a real tonic should do and no drug or alcoholic stimulant will do it.

The only true tonic in nature is wholesome food, thoroughly digested. Every particle of nervous energy, every minute muscle, fibre and drop of blood is created daily from the food we digest.

The mere eating of food has little to do with the repair of waste tissue but the perfect digestion of the food eaten has everything to do with it.

The reason so few people have perfect digestion is because from wrong habits of living the stomach has gradually lost the power to secrete the gastric juice, peptones acids in sufficient quantity.

To cure indigestion and stomach troubles it is necessary to take after meals some harmless preparation which will supply the natural peptone and diastase which every weak stomach lacks, and probably the best preparation of this character is Stewart's Dyspepsia Tablets which may be found in every drug store and which contain in pleasant palatable form the wholesome peptone and diastase which nature requires for prompt digestion.

One or two of these excellent tablets taken after meals will prevent souring, fermentation and acidity and insure complete digestion and assimilation.

Stewart's Dyspepsia Tablets are equally valued for little children as for adults, as they contain nothing harmful or stimulating but only the natural digestives.

One of Stewart's Dyspepsia Tablets will digest 1,800 grains of meat, egg or other wholesome food, and they are in every sense a genuine tonic because they bring about in the only natural way a restorative of nerve powder, a building up of lost tissue and appetite, in the only way it can be done by the digestion and assimilation of wholesome food.

ANOTHER NEW MACHINE GUN.

A London despatch states the invention of a new machine gun, which, it is stated, is capable of firing bullets at the same rate as the Maxim gun, with a range of 6,000 yards, is interesting military circles. The bullet is one of five inch calibre. The cartridge is very lengthy.

ANY CHILD WILL TAKE McLean's Vegetable Worm Syrup. It is always the same safe, pleasant and effective remedy; but be sure to get McLean's Vegetable Worm Syrup.
