**Still Pressing  
Investigation**

(By The Canadian Press)  
HALIFAX, Oct. 23—Stranded in Halifax since Oct. 13, a grief-stricken English war bride and her two children today were still without explanation of the disappearance of her Canadian veteran husband, Albert Martin of Montreal.

The Yorkshire girl, the former Eliza Cashmore, and her three children, aged seven and six years and an eight-months-old baby, arrived in Halifax aboard the liner Aquitania. Shortly after her arrival the infant, taken ill aboard ship, died in hospital.

When no word was received from her husband Mrs. Martin was offered shelter by the Salvation Army.

The last time Dominion officials heard from Martin was in September. Since that time even the military directorate of repatriation has been unable to find him.

Today Salvation Army officials said Mrs. Martin had received no information as to her husband's whereabouts but added that military officials still were pursuing their investigation.

**Squatters Make  
Second Move  
In Montreal**

(By The Canadian Press)  
MONTREAL, Oct. 28—Families of three war veterans, 12 persons in all, today took possession of a vacant house on St. Denis Street said to have been used formerly as a gambling house.

Two convictions within a year in connection with babbo and barbotte games in which cards and dice are used, brought the padlock law into effect. The padlock order was said to have been lifted only five days ago.

It was the second squatter occupation in Montreal within a week. Last Wednesday five families of veterans took over a house on McGill College Avenue. A sixth family has moved in since then.

Today's squatters claimed to have found playing cards and gambling paraphernalia in the house. City police said they planned convictions unless a complaint were made by the building owners, listed as Building Trades Inc.

Late in the day a representative of the owners appeared and asked the squatters to move out. They told him, "We won't move out; we're staying here." He said he would take further action.

Henri Gagnon, vice-president of the newly formed Homeless Veterans League, who led the first squatter movement, was again the leader of today's group.

The squatter families are those of Roland Duneille, Amedeo McGraw and Camille Prevost.

Newspapermen who went inside the premises were told by the squatters to leave.

**Announce  
New Post War  
Army Setup**

(By The Canadian Press)  
OTTAWA, Oct. 28—Defence headquarters today announced a new post-war Canadian army set-up in the United Kingdom which replaces the position of chief of staff at Canadian military headquarters, London, with a Canadian joint liaison staff.

Brig. Howard Douglas Graham, 48 of Trenton, Ont., will become head of the army section of the liaison staff under an arrangement announced recently by Prime Minister Attlee. Under the new arrangement, liaison officers will be posted in London and the capitals of each dominion.

Brig. Graham also will be army advisor to the Canadian high commissioner.

Retiring chief of staff is Lt.-Gen. J. C. Murchie, 51, C.B., C.E., a native of Edmundston, N.B., who has held the post since September, 1945. He also will retire from the Canadian Army on his return to Canada shortly.

Brig. Graham will be succeeded as deputy adjutant-general at army headquarters here by Brig. A. B. Connelly, 37, of Calgary, now deputy chief of the general staff and deputy adjutant-general at C.M.H.Q. overseas.

Gen. Murchie served in England during 1941 and 1942 as brigadier, general staff, and came back to Canada in February, 1942, to become vice chief of the general staff. He was appointed chief of the general staff in May, 1944, and returned to London in September, 1945, as chief of staff. He is a veteran of the first Great War, in which he was seriously wounded.

Brig. Connelly, a native of England, was educated in Calgary, Halifax and Montreal and at Royal Military College, Kingston, Ont. He went overseas in 1939 as adjutant, Royal Canadian Engineers, of the 1st Division.

**Named In Report**

American military government officially confirmed today that it had conducted a widespread secret investigation during the last four months of alleged black market and "other questionable" activities by its American personnel in Berlin.

A reliable informant told the Associated Press Saturday that 40 army officers, including a former general, had been named in an inspector general's report and that a general housecleaning by institution of court martial proceedings had been started.

Workers (C.I.O.), balloted 74 per cent yesterday in favor of acceptance of company wage proposals providing increases of 12 cents an hour. The wage boost was negotiated between the union and company and becomes effective today.

A proposal allowing employees with over five years seniority an additional week's vacation pay this year was accepted by union members. They already have received pay for one week's vacation.

In a second ballot the Ford work-

ers voted 82 per cent to accept an insurance plan under the provisions of the Rand Union security formula which was established during the Ford motor strike of last year.

Both votes were taken by secret ballot. There were 4,000 of the bargaining unit of 11,000 in attendance.

**Order-In-Council  
Is Condemned By  
United Mine Workers**

By Mel Sufrin  
TRURO, N. S., Oct. 28—(CP)—The United Mine Workers district 25 convention today passed a resolution condemning order-in-council P.C. 3689 which allows the federal labor minister to call a vote of union membership before or during a strike.

The union's resolution, describing the order-in-council as an attempt by the government "to weaken and divide labor" came at the end of a debate in which Clarie Gillis, C.C.F. member of parliament for Cape Breton South, charged that C.B. Wade, U.M.W. research director, had "grossly misrepresented" a clause in a report of the parliamentary committee on industrial relations.

The question in dispute was: Whether order-in-council P.C. 3689 implemented the recommendations of the parliamentary committee, of which Mr. Gillis was a member.

Mr. Gillis contended the research director had misrepresented a clause in the committee report by saying in a statement to a union body that the order-in-council implemented the committee's recommendations.
