Mrs. Wm. Fletcher of 28 Cherry St., Stratford, Ont., says, "Dr. Pierce's Favorite Prescription is a tonic and nerve that I would recommend to every woman nearing middle life. I found it not only quieted my nerves, but it also relieved me of hot flashes, dizziness and headaches. Before I took the 'Prescription' I had the strangest sort of pain, like a knife cutting thru my back. I took four bottles of the 'Prescription' and can truthfully say every particle of pain has disappeared and I am feeling as well as any person could."
Go to your neighborhood drug store at once and obtain this Favorite Prescription in tablets or liquid, or send 10 cents to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package.

BUYS ISLAND POTATOES.—Mr. Fred C. Monaghan of Vondaville, in sending along his subscription to the Guardian says it is the only way he has of keeping in touch with P. E. I., as many of his old friends have gone dry. Mr. Monaghan bought a few bushels of potatoes two weeks ago from dealers in Saskatoon that were grown and shipped by Mr. Melvor of Kinkora. The price paid being \$1.55 per bushel. Payment in the West are through seedling their wheat which is showing well above ground. The weather has been ideal for growth for the past week. You very well know that wheat is the principal crop of Sask. Other grains are side lines. If wheat fails the farmer is down and out. Should he have a bumper crop he handles a huge sum of money. But from the time he seeds his wheat until harvest time arrives his days and nights are full of anxiety. Hail, frost, drought, grasshoppers rust, are his enemies. A section of wheat may be destroyed in half an hour by hail, one night by frost, a few days by rust a week by grasshoppers and in a few weeks by hot winds and drought. Its a game he plays with the odds greatly against him most of the time. Its more exciting than a game of stud poker, and I presume that is one reason the farmer of the West laughs at fate, and is no quitter or squealer so long as he has money enough to go into the game. This is the spirit of the west. Win or lose. At the time of writing the people of the west are walking in the air as prospects for a bumper crop were never brighter, warmer weather; lots of moisture; and an occasional shower or rain. I do hope that they will not strike terra firma too suddenly as many a guy's back will be broken by the fall."
