Disease Germs Doomed

Many have lost terrors for the Scientist

The progress of recent years in medical research is little short of marvellous. Daily, science kills germs by the million. Daily, new ones are being discovered, isolated and exterminated by the march of medicine. Science is winning. What were once regarded as serious diseases are now laughed out of countenance by the doctors. Fearlessly they plunge naked hands into swarms of them, their only precaution being to rinse their hands afterwards with a reliable germicidal preparation. We are witnessing the birth of an era when the world will have little to fear from microbes. Absorbine Jr., besides being the all-purpose liniment that removes pain and soreness, and hastens healing, is a powerful antiseptic that is death to the microbe world. Absorbine Jr. is just what is needed in the house in case of accidents and to correct the many little household hurts that constantly occur. \$1.25, at your drugstore.

And yet — they have something about them that suggests the pure wholesomeness, the fresh piquancy, of home made confections. So we call them Neilson's "Home Made" Chocolates. RED ROSE ORANGE PEKOE TEA is sold only in sealed packages. Be sure when ordering it, to ask for it by the full name, for there are many so called Orange Pekoes. Your grocer sells and recommends it.

Soaking takes the place of rubbing—

JUST by soaking the clothes in the suds of this new soap, dirt is gently loosened and dissolved.

Even the dirt that is ground in at neck-bands and cuff-edges yields to a light rubbing with dry Rinso. Not a thread is weakened. The mild Rinso suds work thoroughly through and through the clothes without injury to a single fabric.

Rinso is made by the makers of Lux. For the family wash it is as wonderful as Lux is for fine things.

All grocers and department stores sell Rinso.
