Build Up the Soil

A Common Sense Method of Producing Large Crops

Many farmers on Prince Edward Island are up against the problem of depleted soil. The excessive use of lime or Mussel Mud has not produced results that Farmers have expected, and this is natural enough as neither of these fertilizing materials contain sufficient Plant food to properly nourish the Soil.

It is only common sense to consider just exactly the kind of Plant food the crop remove from the Soil, any Agricultural expert will tell you that this Plant food consists of a proper proportion of Nitrogen, Phosphoric acid and Potash.

For instance a crop of Potatoes averaging 200 bushels to the Acre removes from each acre of soil 46 pounds of Nitrogen, 21 pounds of Phosphoric acid, 74 pounds of Potash. A 60 bushel per acre crop of Oats removes from the soil, 55 pounds of Nitrogen, 22 pounds Phosphoric acid and 62 pounds of Potash. Surely it is easy to deduce from this that the best way to make farms produce maximum crops each year is to put back into the Soil the amount of Nitrogen, Phosphoric acid and Potash that the previous crop has taken out. This can readily be done by the use of fertilizers that contain 8 per cent. to 10 per cent. of Potash. As a matter of fact all crops grown in Canada remove from the Soil twice as much Potash as Phosphoric acid.

These fertilizer materials can be easily mixed at home by any Farmer, and as these materials come to the Island by Railway freight very reasonable prices can be obtained. Build up your Farm by restoring to the Soil the Plant food that your crops really take from it, Mussel mud nor lime will not do this. You must have a complete Nitrogen, Phosphoric acid, Potash fertilizer. If you wish to find out more about this common sense way of building up your Farm and producing a maximum crop of highest quality at the greatest profit, get in touch immediately with John H. Gill, Charlottetown, P. E. I.

Clip Your Horses

With Stewart's

Horse Clipping Machine

It Is Ball Bearing

One of the greatest improvements ever introduced into the stable management according to the opinion of leading veterinarians, is the custom of clipping Horses in the Spring, which has now become so common.

A CLIPPED HORSE will not only do a greater amount of work on the same food, than a horse with his natural coat will do; but will also be fresh and full of vigor, while the animal with the heavy coat on will be dull, out of condition, and seldom or never dry or clean. A Horse is a reliable asset, and should receive the best care possible. He should be well fed, comfortably stabled carefully groomed, and clipped in the early spring.

Buy a "Stewart" Clipper to-day. Price each \$8.

Extra parts for this machine always kept in stock.

Other styles ranging in prices from 1.25 to \$3.

ORWELL CIRCUIT.—The Rev. W. D. Wilson, Ph. B., Field Secretary Temperance alliance, will conduct services at Orwell Head and Orwell Churches Sabbath day, March 22nd, at the usual hours.

A COMPLAINT.—Complaints are being made that there are none of the latest time tables of the P. E. I. R. obtainable. This ought to be attended to and remedied by the Railway Authorities.

HEAVY ROADS.—The heavy thaw of the last few days has taken the snow away to a considerable extent stripping the fields and making travelling very heavy where the road are not broken in the lanes.—S.

THANKS.—The ladies of St. Vincent de Paul Sewing Circle wish to thank all the people who donated candy to be sold at the St. Patrick's concert. The proceeds which were in aid of the poor, amounted to \$50.

HEAVY LOSS.—The many friends of George Myers, Peakes Station, will be sorry to learn of the loss of his valuable Royal Parkland carriage mare for which he was offered a handsome sum a few days previous. The loss, to Mr. Myers is quite a heavy one.

PREMIER ON HIS WAY.—The Premier, Hon. J. A. Mathieson, was expected to leave Ottawa last night on his return to Prince Edward Island. As Mr. Mathieson, however, will make a stop at Montreal for a day he is not expected to reach Charlottetown until either Saturday or Monday.

BEER SEIZURE.—With regard to the seizure of beer made by the police on Monday on the premises of Augustus Aylward, Queen street, it has been ascertained that the stuff on analysis has been found to be below three per cent. in strength, and therefore within the limit set by the law. Consequently, no prosecution is likely to be instituted.

MILITARY TRAINING.—Sergeant Instructor B.H. Hawkins was a passenger by train on Tuesday morning, to take charge of the Provincial School in Charlottetown. For the past month the Sergeant has been giving military training in York, Pownal and Tracadie. While in York he made himself most agreeable and genial in his classes, as well as with all who had the pleasure of meeting him.

GROWING IN INTEREST.—Mr. F. W. Steele returned yesterday from a trip to various points in Kings County where he reports a growing interest in the Boys' Work Conference to be held in Charlottetown the last of next week. Among the places visited were Orwell, Montague, Cardigan and Georgetown. Representations of delegates are now coming in from all parts of the province and there is good assurance of a large representation from the country places. The committee desires to have every delegate registered at the earliest possible date so that their entertainment may be provided for. Any boys between about 16 and 21 years of age may attend this conference by making proper application in time. Only a limited number will be received from each place. The men of country wide fame, who will be the speakers are row on their way here. They will speak at several points in New Brunswick and Nova Scotia en route.
