Mrs. Lockwood was taken [unclear] completely by surprise which made [unclear] the occasion all the merrier. She [unclear] was presented with a collection of [unclear] beautiful gifts for use in her new [unclear] home. Bridge was enjoyed and [unclear] games and singing also. Mrs. Clark [unclear] served a dainty luncheon.

**CITES RECENT PROGRESS**—Dr. [unclear] J. L. Biggar, National Commis- [unclear] sioner, Canadian Red Cross Society, [unclear] arrived in the city last evening from [unclear] St. John. Dr. Biggar came here to [unclear] attend the annual meeting of the [unclear] local Red Cross Society to be held [unclear] this evening. From here he intends [unclear] proceeding to Halifax. In a short [unclear] interview last evening, Dr. Biggar [unclear] told a Guardian representative that [unclear] at no time since the war has the [unclear] Red Cross been as active as it has [unclear] been of late. They have extended [unclear] their branches and increased the [unclear] number of their members. The wil- [unclear] lingness of the public to make use [unclear] of the Red Cross Society is very [unclear] marked.

**SUCCESSFUL SUB-CONTRACTOR**—A [unclear] welcome visitor to Char- [unclear] lottetown yesterday was Mr. J. J. [unclear] Campbell of Halifax, formerly of [unclear] Cardigan, New Province. During the [unclear] past few years Mr. Campbell has [unclear] undertaken the stucco and plaster- [unclear] ing work on a number of the most [unclear] important new buildings in [unclear] Nova Scotia. Among these have [unclear] been the Bank of Nova Scotia build- [unclear] ing, the King's University, the Am- [unclear] herst Hospital, the Indian School at [unclear] Shubenacadie, the Nurses Home, [unclear] Amherst, the new addition to the [unclear] Pines, Digby, and several other [unclear] structures. He has just completed [unclear] the work on the King's Collegiate [unclear] School. Mr. Campbell has had con- [unclear] siderable experience in the United [unclear] States on special stucco work, spend- [unclear] ing some time in both Florida and [unclear] California, where this form of [unclear] building construction has become [unclear] very popular. His work on the [unclear] Bank of Nova Scotia building at [unclear] Halifax was particularly difficult and [unclear] intricate and the architect for that [unclear] construction paid Mr. Campbell [unclear] special tribute for the excellence of [unclear] his work. It is gratifying to record [unclear] this success of a Prince Edward Is- [unclear] lander, who, despite the general [unclear] economic depression, has experienc- [unclear] ed a very busy year in his trade.

The Maritime delegation to Eng- [unclear] land to urge the removal of the Brit- [unclear] ish embargo against Canadian po- [unclear] tatoes will not be accompanied by a [unclear] Dominion representative, it was [unclear] learned last night. A communica- [unclear] tion to this effect was received by [unclear] the Provincial Department of Agri- [unclear] culture in reply to requests from [unclear] the New Brunswick and Prince Ed- [unclear] ward Island Governments asking [unclear] that Hon. J. A. MacDonald, min- [unclear] ister without portfolio in the Do- [unclear] minion Cabinet, be appointed to [unclear] head the delegation.

The attitude of the Dominion [unclear] Government is that the matter is [unclear] being fully presented to the British [unclear] authorities by the Canadian High [unclear] Commissioner, Hon. G. Howard Fer- [unclear] guson, who will shortly be joined by [unclear] Mr. Gibson, chief entomologist of [unclear] the Dominion Department of Agri- [unclear] culture. Mr. Gibson is expected to [unclear] arrive in London on January 24, [unclear] armed with full data to show that [unclear] the embargo against Canadian tub- [unclear] ers for Colorado beetle is uneces- [unclear]
