NEWS.

Passion and suffering and wild despair, The many dying and the many dead— How long shall man on such as these be fed? Rather would I make glad the summer air With beauty, song, flower-growth, the gardener's care. The burxom breath along the violet-bed Of the sweet winds, the priestly bees that wed Bloom unto bloom, and home the honey bear. A golden fee. Must I, because the wire Lies prone to speed the lightning, spend my days, Ear down to gather all men's pain and woe? Nay, let the heavenly messenger of fire Tell when the antipodal red roses blow, Or Finland bells sing on the frozen bays! JAMES HERBERT MORSE.

Theories About Catarrh.

Peculiar Ideas Regarding a Common Disease.

Mark Twain's cure for a cold in the head was simple, but his claims very effective in this own case; his plan was to eat nothing whatever for twenty four hours or presumably until the trouble had disappeared.

Although not able to speak from personal experience as to the effectiveness of this treatment, it certainly has the merit of extreme economy, but it occurs to us that the application of it to a case of nasal catarrh might be attended with difficulties.

Catarrh, as everyone knows, is a chronic cold in the head and Mr. Twain's treatment, if it should become a fad, would make of us a nation of fasters: an arm emulating the example of the immortal Tanner who achieved would wide fame by fasting forty days.

Catarrh is certainly becoming a national disease and there is little doubt but that errors in diet, particularly over eating is a very common cause.

Most people however are more interested in the cure of the trouble than in the cause, and modern medical science has produced more effective and less heroic remedies than Mr. Twain's.

Hydrastin is a new remedy, very effective in some forms of Catarrh, Red Gum in another which on account of its antiseptic properties is very valuable, while many severe cases of Chronic Catarrh have been entirely cured by the sanguinaria or extract of Blood root alone.

Within a year an enterprising chemist has combined all of these remedies in tablet form, palatable and convenient and the superiority of this tablet over other catarrh remedies is so apparent that all druggists now carry them in stock to supply the popular demand.

They are called Stuart's Catarrh Tablets and it is doubtful if any medicine has achieved a national popularity in so short a time as this.

Stuart's Catarrh Tablets are used by thousands of traveling men because they can be carried in the pocket and used any time and in any quantity being free from Cocaine, opiate or any poisonous drug. They clear the head and throat from the disgusting secretions of catarrh, very often in a few hours time.

For nasal Catarrh they are far superior to any wash, lotion or ointment the use of which is often as inconvenient and annoying as the disease itself.

For coughs, colds, bronchial catarrh and catarrh of stomach these tablets give immediate relief and a permanent cure where lotions, douches and inhalers make no impression whatever.

This preparation is a boon to catarrh sufferers and any druggist will tell you that Stuart's Catarrh Tablets is a remedy that has come to stay.

The new market house to be erected next summer will, no doubt, be modern and up-to-date and it is to be hoped that the City will consider the requirements of those who will occupy it. We think that stall-holders should be consulted regarding how it is to be laid off and sufficient space given them to meet their individual requirements and if they are willing to pay for it, why not give it to them? We are now established in a new market shack, east end, next to Sanders & Newson's meat market. Farmers and others when in town should call and take advantage of our cut-on-onions, 10 lbs for 25c and by the barrel low. The Americans have thousands of acres of glass devoted to the culture of lettuce. We are the only firm on the Island that have lettuce in the market at present, but our sale is so limited here that we are compelled to ship it to other towns. Such as Sydney, when this place should consume all we raise. For winter vegetables we have parsnips, carrot, beets, turnips, cabbage, potatoes, onions, etc. In canned goods tomatoes, peas, corn, (sundries) beans, peas for soup, herbs, savory, sage. Cash paid for fresh killed rabbits.—J. J. Gay & Son. 23 Fri and Tues and w 2 wks
