

Important Provincial News of the week for Saturday Subscribers

FRIDAY In the Highland games at Lynn, Mass., several days ago, D. Clark of E. Island took second prize for throwing the sixteen pound hammer.

Among the outward passengers yesterday was Mrs W. C. Mitchell, St. John, who is here in the interest of S. S. work. The meeting held in the basement of the First Methodist Church Wednesday night was not very largely attended but those who were present were more than delighted with the highly instructive address given by Mrs Matthews on Sunday School work.

The Farmers' Advocate gives the following crop report for P. E. I. for July. The weather has been ideal for crop growth in Prince Edward Island this year. As a consequence, most crops are reported very favorably. Hay in both quantity and quality has been excellent. The outlook for wheat is good, oats have seldom looked better at this time. There is a considerable increase in barley and, except on low lands, it is excellent. Corn is much below the average, but is improving. The potato crop has been quite a miss this year, and the beetles are much more in evidence than is usual, so that this crop will be shorter than usual. Root crops promise an abundant yield. The fruit crop is not promising. There will be few early apples, and about half a crop of fall and winter varieties. Better methods are being practiced in orcharding, more trees are being set out and more strawberries are being planted. The pastures have been splendid all season. There has been an increase of about twenty-three per cent. in the amount of milk received this year over last year, up to July 15th, while the increase in cows has been but five per cent.

A very pretty wedding took place at St. Joseph's Church, Kelly's Cross, August the ninth when Miss Annie Kelly, of Kelly's Cross and James J. McAlister of Hope River were united in marriage by the Rev. Thomas Curran. The bride was becomingly dressed in a suit of cream lustrous trimmed with silk net and ribbon to match and wore a black picture hat. The bridesmaid was Miss Alice Kelly, sister of the bride who wore a becoming suit to match. Alexis Murphy of Hope River performed the duties of groomsmen. After the ceremony breakfast was served at the bride's home which was tastefully decorated for the occasion. The wedding party drove to Charlottetown and had dinner at the groom's brother's home, 54 Elm Ave and in the evening they drove to their home in Hope River. The groom's gift to the bride was a gold locket and chain. The bride received many valuable and beautiful presents showing the high esteem in which she was held by her many friends. The Guardian joins with their many friends in wishing them a long and happy life.

The Provincial Rifle Meet of 1910 is over and nothing but pleasant recollections remain of what was probably one of the most successful shoots in the Associations history. Fine weather and 22 degrees of wind were the conditions of the marksmen's contest at the "Hodgson" match 10 rounds at 900 yards possible 50 points. It seemed as if some of the "shots" were saving themselves for this particular event the way the scores were rung on. Such shooting at 900 yards is rarely seen in Canada Ottawa where the "nickel of Canada" battle for bullets. Major C. Leigh put on 9 bulls and wound up with a mag. totalling 48 points thereby capturing first place. Several "almost wons" were on the boards, two 47's and three 46's being on score. The Ladies' Challenge Match was fired after the completion of the Hodgson. It was 10 rounds at 500 yards. Capt. E. Stewart, one of the most popular and respected riflemen of the province, was the winner with a possible 50 points or 10 bulls-eye's. He shot for Mrs (Lt. Col.) H. D. Johnson. The win was a popular one both because it demolished all previous records and was a demonstration of superb marksmanship. The gallant Captain was greeted with hearty applause. Tomorrow the Guardian hopes to publish the Ottawa Aggregate which is the total of all scores made during the meet. It was won by Br. J. Landrigan, J. A. Moore, P. W. Jones, second. Br. J. Landrigan also won the Governor General's medal. The Davison Cup, and the No. 7 Battery Cup and in a com. Cadet P. Landrigan won the Cadet cup so that the Landrigan duet captured pretty much all the silverware in sight. As the meet is over it is fitting that The Guardian should give credit to the caretaker of the range Thomas O'Brien for the excellent targets furnished and the splendid shape the range was in for competition. The competitors have also asked The Guardian to express their appreciation of the courtesies extended to them by the Secretary Major A.

A. Bartlett and the Chif Range officer Major C. Leigh and his assistant Lt. B. Garnham. Everything that could be done to make things so smoothly and agreeably was done by the above named gentlemen. The markers this year were "good" and the "butts" were in charge of one of the most capable men that ever presided over them, Sgt. James Leightner.

SHOOTING FOR LORD ROBERTS' TROPHY. For the encouragement of rifle shooting among school boys Lord Roberts has instituted a competition among cadets for a trophy called the Lord Robert's trophy. Following are the scores of the team that shot for P. E. Island at the P. R. A. this year. Only boys under 16 on July 1 are eligible. Ranges 200, 500 and 600 yards. P. Landrigan ..... Q 82 W. Allan ..... Q 79 C. McQuaid ..... Q 67 E. Auld ..... W 50 K. Martin ..... W 49 R. Stewart ..... W 45 F. Clark ..... W 40 F. McCarey ..... W 34

Leading Editorials, Notes and Comments for Saturday Subscribers

TUESDAY Advice to our young men to stay at home is coming from many quarters these days, and it is surely worth considering. It comes from public men, from our local newspapers, from the pulpit sometimes, from young men who have gone to the west and returned and from other natives of this Province who are now resident in the west.

Prof. Robertson, as Dr. J. W. Robertson is commonly spoken of, is held in very high regard by the people of this Province, for his helpful and widely beneficial counsels in past years. It will be a genuine treat to all who can attend at Prince of Wales College tonight and listen to his address on "The Call of the Land."

SIR WILFRID'S NARROW ESCAPE. A collision between trains running at high speed in opposite directions is a fearsome thing at any time. Selkirk has such an accident occurred in Canada which threatened grave loss than that which occurred beyond Regina, as told in our despatches, for on one of the fast-speeding trains was the Premier of Canada and several of his colleagues who are now touring in the Northwest.

Very fortunately, perhaps we should say Providentially, no fatalities occurred. Sir Wilfrid Laurier, Hon. Mr. Graham and others were thrown to the floor by the shock of the collision, but neither of them was seriously hurt. Still it was a narrow escape from loss of limb or life. In such an accident those high in station are no more immune against serious injury than is the humblest passenger. The general feeling throughout Canada will be one of gratitude and congratulation that the Premier and his party, along with the other passengers on both trains, were saved from death. It was apparently a very narrow escape.

WEDNESDAY A published report of cold storage of apples last year shows that there are in Canada 133 frost-proof warehouses for this purpose, of which 56 are in Ontario, 70 in Nova Scotia and 7 in New Brunswick. In these 260,000 barrels of apples were stored, of which 386,000 barrels were the product of Nova Scotia. To these figures must be added the very large quantity stored in cellars and odd places all over the country.

FRIDAY PROHIBITION IN CAMPBELLTON When Campbellton was burned it was a license town. After the fire the Provincial Government cancelled the license. Almost everybody who considers the case concludes that this was the right thing to do. But why? Who has not heard that liquor selling is a good thing for trade in general, and that it helps to build up a town and make it prosperous? Some way the authorities did not think the liquor trade would help to build up Campbellton. They felt that if liquor selling were allowed it would add to the misery of the stricken people. And we all know they were right.

But these men who had paid for their license might object, and did object. They were forced to stop selling, however. It was felt that neither life property nor means would be quite so safe if liquor selling were allowed as if it were stopped. Some one might have risen up to say that prohibition does not prohibit, and that more whiskey would be sold without license than under license. That state falsehood, and so they cancelled all the licenses.

And the Dominion Government forbids the sale of liquor all along the line of the Transcontinental Railway construction, and employs police magistrates and peace officers to enforce the prohibition. Why is this done? For the better security of life and limb and property, and the preservation of peace and order.

But if prohibition is no good, why this prohibition? The navies surely have as much right to drink and get drunk as have the people of any other calling or station in life. Yet the Dominion authorities, which license distillers and brewers, enforce prohibition against liquor selling along the railway line. All the Provinces have laws forbidding the sale of liquors to Indians. So we have a consensus of all the Governments in Canada that liquor selling is bad for Indians, bad for railway builders and bad for a town that has suffered from fire.

Here in Prince Edward Island we have reached the conclusion that if selling liquor to Indians is bad it is also bad to have it sold to white men; that if the trade is dangerous to men who build railways it cannot be good for workers in other industries and that if it is bad for a town that has suffered from fire, it can hardly be good for a town that has not been thus afflicted. Moreover we know, as the Dominion Government and the New Brunswick Government seem to know, that prohibition does prohibit.

IN LOVING MEMORY. It is with deepest feelings that the death of Mrs. Elizabeth Simpson, widow of the late William J. Simpson, which occurred at her home at Baltic, Lot 18, on July 27th, is recorded, after a brief illness of only a few hours of peritonitis. She was a great sufferer and all that medical skill and kind friends could do, could not save her, for on Wednesday evening at eight o'clock she was relieved from all her suffering, called to that home above where pain and suffering is unknown. She was a woman of high Christian character, and was much beloved by a large circle of acquaintances. She leaves to mourn the irreparable loss of a kind and faithful mother, two sons and one daughter, Rev. A. N. Simpson, now of Winnipeg, minister of the Christian Church there; Chester, on the old homestead, and Mrs. Henry L. Crozier of Bedouque, besides a large circle of friends and relatives.—Com. Beloved mother thou art gone, No more to meet or greet us here, But yet again we hope to meet In yonder bright celestial spheres.

THE FORMULA OF "FRUIT-A-TIVES" Is On The Outside Of Every Box For All The World To See

Every user of "Fruit-a-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics. Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true. Fruit juice consists of about 91% water, 8% of sweet principle, and 1% of a bitter substance. The quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities. The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-tives." "Fruit-a-tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public. "Fruit-a-tives" is nature's stimulant for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails. "Fruit-a-tives" is sold everywhere at 50c. a box, 6 for \$2.50, or trial box, 25c., or will be sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

"A LIFE SAVER FOR WEAK MEN" Give me a man broken down from dissipation, hard work, or worry from any cause which has sapped his vitality. Let him follow my advice for three months, and I will make him vigorous in every respect as any man of his age.

I will not promise to make a Hercules of a man who was never intended by Nature to be strong and sturdy. Even that man I can make better than he is; but the man who has been strong and has lost his strength I can make as good as ever he was. I can give back to any man what he has lost by abuse of the laws of Nature. You Run No Risk in Using My Belt. I Take All Chances

PAY WHEN CURED Dr. McLaughlin: Dear Sir: I am very thankful to say that I feel much better, both in strength and health. My back is not like it was, for I can do a day's work now much easier than I could before using your Belt. I now wake up in the morning feeling fresh, not like before, when I had that languid feeling. I have more life in me now. I am well satisfied with the Belt. I only wish I had obtained it before. Yours truly, A. RICKARDS. Peterboro, Ont.

Every man should understand that physical power, large muscles and strength of endurance come from animal electricity. My treatment will pump every part of the body full of that and perfection will result. It not only restores vigor and increases nerve power, but it cures rheumatism, pains in the back and kidneys, indigestion and constipation, and all troubles which result from weakness of any vital organs. FREE BOOK—Cut out this coupon now and mail it. I'll send this book without delay, absolutely free. Call if you can. M. H. McLaughlin, 214 St. James St. Montreal CAN. Dear Sir: Please forward me one of your Books, as advertised. NAME ADDRESS Office Hours—9 a.m. to 6 p.m. Wednesday and Saturday until 8.30 p.m. Write plainly.

A call into the shop of one of our merchant tailors the other day brought to view a table on which were boxes of neat and attractive caps for men and boys. "Made in Truro," remarked the proprietor. Now what in the world is the reason that Truro can make caps for us and Yarmouth make cotton duck, and Orillia make ear-traps, and Berlin make buttons and suspenders, and Sackville make stoves, all of which we are buying, instead of making these things for ourselves? The Patriot: "Such a reduction of the Conservative majority at a bye-election proves that the strength of the Government has not diminished, but on the contrary has been augmented in the Province." The Examiner: "Magnificent victory for Dewar and the Opposition. Hurrah for Dewar. Three cheers for Cardigan! And a tiger for J. A. Mathieson."

Manitoba had a drought in the growing season and now has too much rain in the harvest.

The Edison is the King of Entertainers In the parlor, on the porch or lawn, in your summer home, tent, row-boat, yacht or launch the Edison phonograph will prove the greatest musical instrument and entertainer you ever possessed. No sound is half so sweet as music near or on the water and through the Edison you can have the greatest singers and musicians in the world ready to sing or play for you whenever and wherever you want them to. Drop in and hear the Edison play the latest song hits and composition—then let us tell you of our easy payment system. Phonographs ..... \$19.50 up. A. E. Toombs 177 Queen St.

NA-DRU-CO Headache Wafers stop the meanest, nastiest, most persistent headaches in half an hour or less. We guarantee that they contain no opium, morphine or other poisonous drugs. 25c. a box at your druggists, or by mail from National Drug and Chemical Co. of Canada, Limited, Montreal.

The men who uphold the standard of sport to-day are clean men—clean of action and clean of face. Your baseball star takes thought of his personal appearance—he starts the day with a clean shave—and, like all self-reliant men, he shaves himself. Wagner, Jennings, Kling, Donovan, Chance—each of the headliners—your local "South Paw"—your home-run hitter—owns a Gillette Safety Razor AND USES IT. The Gillette wins the pennant in the Razor League every year and undoubtedly is the World's Champion. The Gillette is typical of the Canadian spirit. It is used by capitalists, professional men, business men—by men of action all over this country. Its use starts habits of energy—of initiative. And men who DO for themselves, think for themselves. Be master of your time. Buy a GILLETTE. Standard Set, \$5. Pocket Editions, \$5 to \$6. Sold everywhere. The new Gillette Sign is the thing to look for. It denotes the dealer who handles both Gillette Razors and Blades. Look for the Sign. GILLETTE SAFETY RAZOR CO. OF CANADA, LIMITED, MONTREAL.
