DEATHS

ROBINSON—At Glenwood, Iowa, Wednesday, Feb. 5, 1930, Sinclair Robinson, son of Mr. and Mrs. L. Scott Robinson, (nee Ella Sutherland)

In Memoriam

In loving memory of MRS. ANNIE GARRICK Who died February 7, 1924 A loving Mother true and kind, No friend on earth like her we find; For all of us she did her best, But God gave her eternal rest. Inserted by her Family.

IN MEMORIAM

In memory of our dear daughter and sister, Mrs. Walter Garman, who departed from this life on February 1th, 1929.

There is someone who misses you sadly, And finds time long since you went, There is someone who thinks of you always, And tries to be brave and content. In the home you are fondly remembered, Sweet memories cling round your dear name. True hearts that loved you in life, Still love you in death just the same. Inserted by Parents, Sisters and Brothers.

PERSONALS

Mrs. Rufus Strickland, Covehead Road, is reported better today.

Mr. Dewar Swan is spending a few days at York, the guest of Mr. and Mrs. Ab. Vessey.

Mr. Ivan Vessey, city, is at home at York, after an operation for appendicitis.

Miss Helen A. Lawson has returned to her home in Stanhope after a week's visit in the city.

The Guardian regrets to learn of the serious illness of Mr. James Hughes, West Covehead.

Mr. Anthony A. Francis left yesterday morning for Halifax, to resume his theological studies at Holy Heart Seminary.

Propose Heavy Expenditure To Develop Radio

OTTAWA, Ont., Feb. 6.—The government's bill with regard to radio broadcasting has been printed and will be introduced into the House of Commons early in the session. The bill, which follows closely the recommendations of the Aird Commission's report will be sent to a special commission.

Petitions from radio broadcasting stations, radio equipment firms, or organizations of a public and private nature and the general public will be invited when the House committee meets to discuss the bill.

It is understood the government proposes to expend \$6,000,000 in connection with the nationalization of radio. It is proposed to establish seven broadcasting stations across Canada each with an input of 50,000 watts. The initial cost will be about \$3,000,000. The annual operating cost will be \$2,500,000.

There will be one station for the three Maritime provinces and one in each of the other provinces. Smaller stations may later be established to cover areas not reached by the big ones.

The new system will provide two complete programmes being broadcast simultaneously on two different wave-lengths. Stations will be located outside of cities so as not to blanket incoming programmes.

Provided for Television

Chain broadcasting will be established when desirable with coast to coast programmes. Developments in television will be closely watched and the system provided for it.

The first step will be the acquisition of one private broadcasting station until the new government stations are built; all the other private stations will be closed down. The revenue will be derived from licenses, advertising, the time rental, government subsidies.

The cost of a license will be \$3 instead of \$1 and the estimated revenue from this will be \$300,000 annually. The advertising revenue is estimated to be \$900,000 annually also.

There will also be a subsidy from the Dominion government for \$1,000,000 for the first five years, then subject to revision up or down.

All the private stations will be closed except the biggest in each province, which will be utilized until the new stations are built. All stations will be compensated on basis of physical assets.

Wool prices in 1929 were the lowest since 1923. The market opened with considerable demand for Eastern Domestic wools and the early portion of the clip was easily moved into the trade. As the season advanced, buying orders slackened off. There was little activity among local buyers with the result that a considerable increased volume of wool was consigned for co-operative sale. Local prices paid to farmers in Eastern Canada ranged from 18 cents to 20 cents and graded wools brought from 20 cents to 23 cents net to producers. Canadian wools in 1929 were of very good quality. This applied to both Domestic and Range wools. Farmers are viewing with considerable concern what appears to be a steadily narrowing market outlet for Canadian wools to Canadian mills. Improvement in sheep breeding is making definite progress and this year hundreds of new flocks have been established through the Sheep Club policy on farms where sheep were not previously being kept. Few lambs selected for these new flocks are all the progeny of purebred sires and these flocks are being headed by purebred rams.

Paquette 91, E. Hughes 91.

WOOL CLIP OF CANADA, 1929

The total production of wool in Canada is estimated by the Dominion Bureau of Statistics at 21,234,000 lbs. as compared with 19,611,430 lb in 1928. The value of the wool clip of 1929 is estimated provisionally at \$4,247,000 as compared with \$5,099,000 in 1928. By provinces, the wool clip for 1929 as follows: Prince Edward Island, 553,000; Nova Scotia 1,584,000; New Brunswick 866,000; Quebec 5,498,000; Ontario 6,300,000; Manitoba 1,018,000; Saskatchewan 1,192,000; Alberta, 3,054,000; British Columbia 1,186,000; Indian Reserves 16,000.

Wool prices in 1929 were the lowest since 1923. The market opened with considerable demand for Eastern Domestic wools and the early portion of the clip was easily moved into the trade. As the season advanced, buying orders slackened off. There was little activity among local buyers with the result that a considerable increased volume of wool was consigned for co-operative sale. Local prices paid to farmers in Eastern Canada ranged from 18 cents to 20 cents and graded wools brought from 20 cents to 23 cents net to producers. Canadian wools in 1929 were of very good quality. Improvement in sheep breeding is making definite progress and this year hundreds of new flocks have been established through the Sheep Club policy on farms where sheep were not previously being kept. Few lambs selected for these new flocks are all the progeny of purebred sires and these flocks are being headed by purebred rams.

Spain produced more than 7,000,000 tons of coal in the last 12 months. The island of Frisco, off the west coast of Scotland, was recently sold.

Concert In St. Paul's Parish Hall

A very enjoyable entertainment was given in St. Paul's Parish Hall last evening under the auspices of the Young Womens Bible Class and the Chancel Guild. Mrs. Fred Houle, Miss McCollum and Miss Lillian Earle directing. The young ladies presented a pretty little one act play entitled "Six American Beauties" and in very pretty tableau a Japanese Love Song as well as several excellent vocal numbers. Solos by Mrs. F. M. Nash, a vocal quartette by Messrs Quigley, Dingwell, Sterns and Calder, a duet by M's. McKinnon and Mr. Percy Williams, besides instrumental music by Mr. Robert Hyndman and Mr. Walter McNutt, and charming recitations by Miss Mary Sinclair recited out a very pleasant programme. There was a sale of candy during intermission. In spite of the extremely cold evening there was a good audience, several Summerside friends being present.

LATEST DOINGS

LONDON, Feb. 6.—The Five Power Naval Conference sitting as a committee of the whole this afternoon agreed provisionally on the general outlines of the French plan for limiting naval tonnage, a conference spokesman announced.

The Italians still entered reservations on all points. A subcommittee of two experts and one advisor from each delegation will be named to adjust certain technical differences between the two groups, namely, the British and United States delegates on one hand and the French and Japanese on the other. The subcommittee also will draft resolutions, summarizing the progress which has been made. In the original French proposal, blank spaces were left for the global or total tonnage figures of each nation. The meeting decided this afternoon that these figures should be inserted before the plan is finally accepted. It was understood the French proposed that light cruisers and destroyers should be placed in one single category. Japan supported this but the United States and Great Britain opposed it. It finally was decided to leave this for further discussion by the experts.

LONDON, Feb. 6.—Agreement to unmanize submarine warfa lies in the offing in the naval conference. An agreement to abolish the underwater weapon is regarded as practically out of the question, so far as the present conference is concerned.

Great Britain and America want a limitation of France and Japan are opposed, regarding it as the poor man's ship. As a half way course the British, Americans and French now seem to be drawing together an agreement that submarines will not be used for such campaigns against merchant ships, as was carried out by Germany in the world war.

Callow told the police that he was born in England, but was taken to Halifax when two years old and placed in an orphanage there. Later he was taken to St. Georges, P. E. Island, where he lived ten years, later working at Blooming Point, Scotchfort and Southport. He had worked on the farm of Mr. Harry Muttart since Oct. 1 last. He is unmarried, about twenty-three years of age, short, thickset and of dark complexion. Gauthier is eighteen years of age and is a native of the city.

Great credit is due to Officer Jay for his initiative in hunting down the suspect.

SENTENCE

(Continued from Page 1)

law Mr. Harry Muttart on Sunday and returning to his place of business on Monday morning. He noticed two tracks of men in the snow. On being asked if he suspected any person Mr. Ferguson furnished the police with a description of William Callow, a man who had left the employ of his son-in-law a short time before, who might well know Mr. Ferguson's habits, and about whom he had suspicions.
