

There's Strength in Malt

There's great strengthening properties in malted grains. They contain elements that build flesh, bone and muscle, make blood and strengthen the nervous system. We keep and recommend the following.

Pabst Malt Extract
Wyeth's Extract Malt
Hoffbrau and
Keplers' Solution

These are especially rich in these elements. It will give you an appetite, make your sleep more refreshing, aid digestion and help your food to assimilate. Their use will greatly benefit you this spring.

Tenders

Tenders for the purchase of the Ornamental Iron Railing surrounding the house at 20 Brighton Road. Address tenders to 20 Brighton Road. 4415-4-26-m2l.

Synopsis of Canadian Northwest Land Regulations.

THE sole head of a family or any male over eighteen years of age, who has owned a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency but not Sub-Agency on certain conditions.
Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 20 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.
In certain districts a homesteader in good standing may pre-empt a quarter-section on along side his homestead. Price \$1.00 per acre.
Duties—Six months residence upon and cultivation of the land in each of three years after settling homestead patent; also 30 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, or certain conditions.
A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$1.00 per acre. Duties—Six months residence upon and cultivation of the land in each of three years after settling homestead patent; also 30 acres extra cultivation and erect a house worth \$2.00.
The area of cultivation is subject to reduction in case of rough scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

TO SAVE EYES

In the Object of This Free Prescription—Try It if your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician for the five and ten-cent store, and oftentimes get glasses that they do not need, or which, after being used a few months, do their eyes more injury than good.
Here is a simple prescription that every one should use: 5 grains Ben-Opto dissolved in 1/2 glass of water. Use three or four times a day to bathe the eyes. This prescription and the simple Ben-Opto system keeps the eyes clean, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, ever-worked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many opticians show that wearers of glasses have discarded them after a few weeks' use.
It is good for the eyes and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Four own druggists can fill this prescription or Valmas Drug Co. of Toronto will fill it for you by mail. Try it, and know for once what real eye comfort is.
Investment City Pharmacy, when the above was submitted, said: "Ben-Opto is a very remarkable eye preparation and widely prescribed by them. It can be obtained from any good druggist and is one of the very few preparations that should be kept on hand for regular use in almost every family."

STILL ON THE HUNT FOR DOROTHY ARNOLD.

NEW YORK, April 22.—Detectives visited West Point yesterday and investigated the story told by Octave Charles Clements, a convict in a Rhode Island prison, that he aided in the burial there of a young woman resembling in description the missing Dorothy Arnold, of New York. Inspector Faurot, in charge of the detectives, who returned at a late hour last night, was reticent as to the result of the trip. "We have furthered our investigation and are satisfied with the result," was all he would say.
From others it was learned that the inspector and the detectives after a talk with the West Point authorities, went to a deserted house several miles from the town. It corresponded with the description of a house which Glennoris gave to the Rhode Island officials and the detectives went at once to the cellar. They found that the concrete bottom in a part of the cellar had been removed and they worked there for sometime.

INDEPENDENT ORDER OF ODDFELLOWS

THE 97TH ANNIVERSARY.
(By G. S. Ryan, Grand Warden.)

In times of stress and trouble with dark war clouds hanging around in all directions, threatening to destroy the peace so long enjoyed on earth; it is not a time when we should look for much in the line of a joyous celebration for any auspicious event.
Today, the members of the Independent Order of Oddfellows on the continent of North America, are celebrating the 97th Anniversary of the Founding of the Order. In former years this was looked forward to as a gala day, but during the present unsettled affairs due to war conditions, it must assume more the nature of a memorial than anything else with which it can be compared. With so many of its members serving on the field, and others in training and with a know-

ledge of the hard uncertain road before them to face a most merciless foe, it cannot be expected that they will enter into the celebration with the joyous earnestness of other years. We are proud of our boys in uniform, and those of us who are left behind must do our part to the best advantage to maintain in proper form their existence at the firing line. This sad indeed to see so many men, the cream of our manhood, compelled to undertake this duty, but the sacrifice they are making is the greatest that is possible on earth, there is none more brave or more noble than, "he who gives his life for his friend." We are under an immense debt of gratitude to those boys who are ready and willing to lay down their lives in defense of the British freedom and justice that has always been ours. We must use every effort to protect and assist the loved ones they leave behind, and to provide as far as possible for their happiness and comfort.
In gathering together for a fitting celebration of our Anniversary Day, we always look forward to the general summing up of our conditions, so as to ascertain the position of our Order and the prosperity we have enjoyed during the past year. We are pleased to note, that notwithstanding the unsettled state of business in all spheres of life, our Order has had almost its usual amount of prosperity, and has been able to other years in furnishing relief to the unfortunate of its members who were in line for same. This is true of all the branches wherewith it undertakes to be of assistance to humanity. Its receipts have been up to expectation and the usual investments made with a profitable dealing.
The number of brothers applying for relief has not been excessive, no decrease the number show any marked increase over other years. Generous provision has been made for widows, orphans, and the indigent members. The Homes erected and maintained for their benefit are in a very satisfactory condition, and reflect much credit on the Rebekah Branch, for their loving forethought and untiring devotion to this part of the work. It has been plainly evident for some time, that the success of the Homes is entirely due to the ability and management of the Rebekah Sisters. To care for the widow and orphan and to be a protector to the fatherless is a work of the most noble character, and will elicit the best wishes of our Order in general as well as the general public.
Let us glance at some of the figures relative to the strength of the Order, both as to its finances and membership. The total receipts for the year 1915 were \$13,850,250 of this amount \$4,150,000 was paid out for the relief of 8,250 widowed families and 142,011 brothers. The total amount of invested funds is \$68,284,512. The membership was 2,519,176 made up as follows: Subordinate Lodge members, 1,775,000; Rebekah Sisters 744,176. There were 18,179 Subordinate lodges, 3,604 Encampments, 9,740 Rebekah Lodges, 759 Cantons. There are 54 Homes purchased at \$3,490,215, valued today at \$5,291,776. The annual cost of maintenance is \$845,652. The number of residents at present under care is 3,678, and the number admitted since date of opening is 7,803. In the Maritime Provinces the membership is about 17,000 made up of 11,500 brothers and 5,500 sisters of the Rebekah Branch. This is a very fine showing and was brought about as a result of a great amount of work by the officers as well as for the amount of assistance by the members.
The principles of Friendship, Love, and Truth have remained from the beginning to the core stones. They have withstood the battering of adversity for the past 97 years, and have emerged from the struggle as impragable, and have received the imprimatur of time. In Oddfellowship, the strength of those has been augmented by the additional virtues of Faith, Hope, and Charity, which make a strong foundation for the structure of a fraternal society to rest upon. To perform what Oddfellowship claims to do for the interest of humanity it is none too strong. Our claim is, to lead to the highest cultivation it is possible for

Women Know

that they cannot afford to be ill. They must keep themselves in the best of health at all times. Most of all, the digestive system must be kept in good working order. Knowing the importance of this, many women have derived help from **Beecham's Pills**. These safe, sure, vegetable pills quickly right the conditions that cause headache, languor, constipation and biliousness. They are free from habit-forming drugs. They do not irritate or weaken the bowels. Women find that relieving the small ills promptly, prevents the development of big ones. They depend on Beecham's Pills to tone, strengthen and **Keep Them Well**.
Directions with Every Box of Special Value to Women Sold Everywhere. In boxes, 25 cents.

BELGIANS IN NEED OF INSTANT RELIEF.

Present conditions in Belgium are vividly described by a member of the commission for relief in Belgium, who states:—
"One cannot conceive of a whole nation, outwardly so tranquil, living with so many superficial indications of their old prosperity, and yet all the time threatened by hunger. Every day it is truer that this population of 7,000,000 is absolutely dependent upon the commission for its sustenance. Do not let the wave of enthusiasm which has passed over Canada spend itself. Start another wave. Keep starting them. Belgium cannot shout to you in return, but she knows what you are doing. She is dependent, grimly dependent, upon us in order to sustain life. It is we in the Provinces of Belgium who really know how easily, how suddenly Belgium would meet starvation if the supplies from Canada and America ceased coming for even a short time."
That the commission is aware of the fact that Belgium's supplies can hold out for only a short while is evidenced by the chartering of new ships and the hastening of cargoes of food to Rotterdam.

CONSTIPATIENS

It must be remembered that the bowels should move freely once a day to ensure perfect health. When such is not the case the poisonous waste material is absorbed into the system, thus producing a self blood poisoning.
The causes of Constipation are many and varied. Among the more common may be mentioned poor stomach digestion, a deficiency of bile in the intestines, a lack of secretion in the bowels, and a want of the natural muscular contraction of the intestines from above downward.
Abbe's Effervescent Salt, sold everywhere at 25c and 60c, stimulates and restores the stomach digestion, increases the flow of bile into the intestine, causes a flow from the intestinal glands, and restores the natural downward action of the intestines, rendering it easy to secure a free action of the bowels, which is one of the most important requisites to health.
Sold by Geo. E. Hughes.
