I desire to express my sincere thanks, to my many friends and re-

PRIZE WINNERS OF ST. DUNSTONS

Received Well Earned Rewards Yesterday. Splendid Program and Able Addresses by Prominent Citizens.

The commencement exercises of St. Dunstan's College were held yesterday afternoon. The attendance was large and the program was greatly enjoyed throughout. After the opening exercises had taken place, an essay, worthy of the highest praise, on "The History of the Atlantic," was read by H. MacDonnell, of Souris. Following this a song was rendered in a pleasing manner by F. McDonald of Tracadie. The special prizes were then distributed. The delivery of the valedictory by P. Hughes of Emerald proved to be one of the most interesting events of the afternoon. Mr. Hughes' matter was admirable, his delivery of the best possible nature, and those who had the pleasure of hearing him, are perfectly sure that this young man has an enviable future before him. After Mr. Bolduc of Quebec had delighted the audience with a song, an address to the graduates was given by Judge Fitzgerald. His words were listened to with rapt attention from start to finish. After His Lordship Bishop MacDonald, had spoken, His Honour Governor McKinnon addressed the students following him, His Worship Mayor Prowse spoke in a capable manner. A review of the year's work was given by Dr. Curran, after which a most enjoyable afternoon was brought to a close. There were about fifteen clergymen present, besides a splendid representation of all branches of city life. Following is the prize list.

President Corey Denies Reported Agreement With Germany About Steel Trade.

PARIS, June 7—(Special)—Wm. E. Corey, President of the United States Steel Corporation, has authorized a denial of the report that he is conducting negotiations with the German Steel Federation with view to arranging an agreement on behalf of the United States Steel Corporation regarding steel imports and exports in the two countries.

CONDITIONS IN FAR FROM SETTLED

BEIRUT, June 7—The conditions everywhere in Asia Minor are far from settled, and will take time and a Government much stronger than the present one to make it possible for people to resume their labors and go about with any degree of safety. The crops in the Adana regions are ripe, and, unless they are gathered, a famine will inevitably strike the people in the face the coming year. The guards to protect people who have dared to venture out to gather the crops have time and again proved the treachery of the Turk. Farmers have either been stabbed or shot down like dogs as soon as they came outside of the city limits. Arrangements will be made for additional holidays as provided for by the regulations of the Board of Education for Teachers who will attend the Summer School of Science to be held in the City in the month of July. The Secretary was instructed to call for tenders for coal and the kalsominia of Prince Street School. After passing several bills the meeting adjourned.

IMPERIAL PRESS CONGRESS MET

And Discussed Cheaper Cable Rates. Editor Ross of Ottawa Hopes For the Five Cent Rate.

LONDON, June 7—(Special)—The question of cheaper cable rates between the Colonies and the Motherland was debated with enthusiasm at the meeting today of the Imperial Press Congress. The delegates were welcomed by Lord Crowe, who declared that the Empire would not really be united until the average citizen of the western Canada Provinces could understand quickly the problems of India. T. D. Ross of Ottawa, urged that there should be Government cable lines between Britain and Canada and beyond Canada under the Pacific. He expressed his conviction that state owned cables would mean that the rate on commercial messages could be reduced without loss to five cents per word.

MRS. TAFT WINS ON MERCY PLEA

She Proves Herself the Power Behind the President at White House.

WASHINGTON, June 7—(Special)—Through the intervention of Mrs. Taft, a Russian named Perovich, convicted of murder at Fairbanks, Alaska, and sentenced to die, has been saved from the gallows. Actuated by his wife's pleas that mercy be shown the condemned man, the President has commuted the sentence to life imprisonment.

THE REPORT OF S. O. T. GRAND WORTHY PATRIARCH

Charlottetown, May 6, 1909. Worthy Representatives: I assure you it gives me great pleasure to meet you and address you on this the occasion of our second Quarterly Session, in the capital city of our province. It is highly fitting that we should recognize and sincerely appreciate the goodness of God in the manifold bestowals of His mercy upon us during the past quarter, may we, now, and in future, find the best inspirations of our lives in Him and in His Son Jesus Christ, and as we lend ourselves to the discussions and transactions of this day, may the spirit of true charity find encouragement in our hearts, may magnanimity rule in our deliberations, and may each one of us be deeply conscious of the integrity of our cause, the nobility of its aims and the elevating character of its accomplishments. To this end, therefore, may selfishness be abandoned, and may the spirit of the master inhabit our efforts and control our lives. Then, shall our work in behalf of our race, become immortal and, impartial history shall bless our day, and our achievements shall be engraven upon the tablets of enduring memory. A glance at the array of the fighting forces in the temperance world, gives no cause for the slightest alarm, but rather the largest encouragement, and good reason to conclude that our cause occupies a prominent place in the discussions of moral issues, and in the adjustment of economic problems. The world is fast learning the lesson that intemperance always means physical destruction and moral degradation, while the product of the traffic is a serious menace to commercial, industrial and social life. The Christian church is more aggressive against this destroyer of millions, than ever before, and the Kings of Commerce are rethinking with this "Monster" as the stubborn foe. In England, although temperance legislation is not as advanced as the friends of temperance might desire, it is very gratifying to learn that, during the year 1908, a very considerable reduction was read in the consumption of alcoholic liquors. Comparing the year 1907 with 1908 the decrease in the expenditure for intoxicants makes manifest the fact, and in the course of a few years we may expect to hear from affecting the spending power of the Nova Scotia again in the same direction. Social reform.

view with satisfaction any reduction of Great Britain's drink bill. Absolute prohibition of the importation and sale of intoxicants, in any shape or form, is the objective point the temperance forces of the Iceland have in view! A bill has been framed in accordance with the wishes of the people, and introduced into Parliament of that country. And it is said the bill is very likely to become law. In Australia temperance reform is adding to its strength continually and is a live question among the people. The condition in the United States is most hopeful, most encouraging and most significant. I will not stop to name the different states of the union where splendid progress is seen. Let it be said that the allies of our common cause over there are very much alive, and in almost every state Legislature, as well as in Congress itself, temperance legislation is more than ever a prominent issue. In Ontario the good work goes on. The advocates of temperance are energetic in a somewhat new direction in some sections. They are convinced that hotels can be successfully managed and made profitable to owners without the sale of intoxicating liquors on the premises. They are accordingly buying up many of the hotels and conducting them on a strictly temperance basis. Local Option is fast gaining ground. A few weeks ago a prohibition resolution was introduced into the legislature of Nova Scotia. It was somewhat drastic in its requirements, for it asked for local prohibitions with the enactment of the necessary machinery for enforcement, and, also, that the Federal Government be memorialized to amend its legislation to prevent the importation of liquor into the province. This resolution was the subject of lengthy and animated debates. But voting there turned it down to the discouragement and dissatisfaction of the temperance people of Nova Scotia. But we are enabled to learn that there must be a lively interest taken in the question of Temperance reform in that province. When even the attempt was made to have such advanced legislation enacted, we may feel assured that the issue will not be a lively interest taken in the question of Temperance reform in that province. When even the attempt was made to have such advanced legislation enacted, we may feel assured that the issue will not be a lively interest taken in the question of Temperance reform in that province. When even the attempt was made to have such advanced legislation enacted, we may feel assured that the issue will not be a lively interest taken in the question of Temperance reform in that province.
