It is understood that J. H. Stanton, well known here, who for upwards of thirty-five years has been identified with the Massey-Harris Co. and for many years Manager for the Maritime Provinces, has decided to take advantage of an opportunity presented to him in the Canadian North West. Mr Stanton will probably leave in November for his new home in Calgary. During his residence in Moncton he has won general esteem and been especially active in public work along church and philanthropic lines. His departure will be a distinct loss to the welfare of the community.

There is more Catarth in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and presented local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven contrary to be a constitutional disease and therefore requires constitutional treatment.

Cherry & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Our New "Modern" A. A. Waterman Fountain Pens

we believe are equal in mechanical construction, to the best pen made.

In addition to this, they have the following undeniable advantages.

1 They are self-filling, filled in a twinkling.

2 As there is no joint they cannot leak and soil the fingers as many good pens do.

3 The act of filling also cleans the delicate ink channels and prevents clogging.

We have the best \$1.00 pen on the market.

A Profitable Proposition for Agents

We want Twelve of the best Local Agents on Prince Edward Island to sell the best proposition that has ever been offered to the farmers and fishermen—

It is a 5 to 8 Horse Power stationary Fraser Motor for 175 00. A motor that has power enough to do any kind of farm work, saw any kind of wood and by taking off the fly wheels and governor and adding a marine fly wheel, shaft and propeller it will suit your boat.

This motor is noted for its simplicity, its durability and economy. Every motor manufactured develops more power than rated, acquires less attention and works more satisfactory. The "Fraser Motors" is a standard by which other motors are judged, it is two motors in one, with all the advantages represented and disadvantages excluded.

This motor will fill a long felt want. It is one that can be used all the year around and we expect to sell a lot of them.

We will pay good commission but will only place the agency with good reliable men that can assure us they can make sales.

Call and see us at the exhibition and see the motor in operation and talk over the proposition.
