Look in the Glass

Look at your teeth in the glass. Then brush them in this new way for ten days and look again.

There is a film on your teeth—a slimy film. It clings to the teeth, enters crevices and stays. The tooth brush does not end it. The ordinary tooth paste does not dissolve it. So it stays between the teeth and elsewhere and may do a ceaseless damage.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film.

Dental science, after years of searching, has found a way to combat it. Able authorities have proved it by many careful tests. Now the method is embodied in a dentifrice called Pepsodent, and leading dentists everywhere are urging its daily use.

A 10-Day Tube is now supplied to everyone who asks. Test it and see what it means to you.

A Week Will Tell

The results of Pepsodent will be a revelation. A week will show you that there is a way to whiter and safer teeth. For your sake and your children's sake, make this test and see.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to pay by day combat it.

But pepsin must be activated. The usual method is an acid harmful to the teeth. So pepsin long seemed barred. Science has now overcome this trouble by discovering a harmless activating method. It is that method which makes possible this efficient film combatant.

You can prove the effects, and quickly. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten—how they glisten—as the fixed film disappears.

Compare the results with your old methods. Learn what clean teeth mean. Then let your own mirror tell you what is best. This test is most important to you. Make it at once. Cut out the coupon now.
