HOLMAN'S CATALOG.— Holman's Economical Fall and Winter Catalog is again in the mails, replete with the season's most needed goods at the lowest possible market prices. The Guardian is informed that the only way that Holman's present prices are maintained is by contracting for goods many months in advance. Their immense financial resources are quite apparent in their present prices. Holman's catalog is a valuable shopping guide—it tends to stabilize market values, and creates merchandising competition that is so essential to the progress and prosperity of any community. Holman's catalog required months of persistent planning, months of analysing, eliminating, buying, a small army of men labored energetically and untiringly in their persistent efforts to gather together the greatest accumulation of real good values offered by any concern in Canada. A comparison of their catalog will convince readers that they have been successful in no small measure. Holman's guarantee every article listed in their catalog to be exactly as illustrated and described to the smallest detail. Goods can be ordered from Holman's on the distinct understanding that they will be promptly returned if not as good or even better than represented. Nowhere can one shop with greater convenience— with greater assurance of satisfaction. Any reader who has not yet received Holman's catalog can have one by mailing request on a post card to R. T. Holman, Limited, Summerside.

::COMFORT FOR THE DYSPEPTIC.— There is no ailment so harassing and exhausting as dyspepsia, which arises from defective action of the stomach and liver, and the victim of it is to be pitied. Yet he can find ready relief in Parmelee's Vegetable Pills, a preparation that has established itself by years of effective use. There are pills that are widely advertisement as the greatest ever compounded, but not one of them can rank in value with Parmelee's.

::If one be troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely relieve suffering.

How it Happens

It isn't moral delinquency that causes many druggists to put into prescriptions preparations that are too weak to be effective or too strong to be safe. It is carelessness. Time is required to do laboratory work carefully, and extra caution and cost to get important materials. So the making of many important preparations is done in a haphaszard manner.

CANADIANS DO BRILLIANT WORK

OTTAWA, Sept. 28.—The militia department today gave out the following account of the brilliant work of the Canadian corps in the fighting around Lens, including the capture of Hill 70:

Since the last report was written, the Canadian Army has added a new and very remarkable success to its long list of brilliant achievements. The fomidable position known as Hill 70, covering the approaches to Lens from the northwest has been carried.

Despite the enemy's assertions to the contrary, the casualties incurred by our troops were light, largely as a result of measures taken to induce the enemy to distribute the fire of his artillery over areas out side the limits of our attack.

During the early part of August continual rain and wind made operations on a large scale impossible, but preparations for the attack were carried on steadily so far as conditions permitted.

Brilliant Achievement.

On the night of the eighth-ninth August, a small party consisting of an officer and twenty men, surprised one of the enemy's outposts in Lens, and, without loss to themselves, accounted for the whole garrison.

The somewhat elastic state of the front in this area during the period produced a situation of great interest in which the troops holding the line fully shared. They readily adapted themselves to the somewhat abnormal condition, and as a result of their individual skill and enterprise, gained important ground at small cost. Meanwhile preparation for the attack had been completed, and at 4.25 a.m., August 15, two Canadian divisions attacked the enemy's trench system on a front of 4,000 yards from the Lens-Bethune road northwards to Bois Hugo.

Covered With Ruins.

Our final object consisted of a line of German trenches which ran east of Cite St. Elizabeth and Cite St. Emile, then just west of the defences of Cite St. August and east of Boise Rase.

The greatest depth of our objects from the old German front line was 1,500 yards. The southern half of the ground attacked was covered with the ruins of a group of mining suburbs of Lens, Cite St. Elizabeth, Cite Edouard, Cite St. Emile and Cite St. Laurent. The northern half included the rising ground known as Hill 70, together with Bois Rase, and the western portion of Bois Hugo. The whole was defended by an elaborate network of trenches and barbed wire, and studded with strong points and machine guns emplacements.

Infantry Attacks.

Our infantry attacked, supported by our artillery, and was immediately successful. By 6.40 a. m. both divisions had captured the whole of the German front line system to a depth of some five hundred yards, and were established on the line of their first objectives. After a short halt to enable the assaulting troops for the remainder of our objectives to pass through, the attack was resumed. Hill 70 was carried by assault, and less than an hour later the whole of our objectives were in our hands, except for a short length of trench at the apex of our attack opposite Cite St. August. Here our troops were held up within a short distance of the enemy's trench line by heavy machine gun fire from Cite St. August and the brick fields at this southern end. The attack on this position was delayed until the German machine gun emplacements should have been located and dealt with by our artillery.

Hun Attack Collapsed.

Between 8 and 9 a. m. a series of counter-attacks were delivered by the enemy's local reserves east of Cite St. Emile. These were all driven off by rifle, machine gun and artillery fire. At mid-day a counter-attack developed north against the left flank of our attack. The enemy advanced across the open under intense fire, and the attack collapsed with very heavy losses. An hour later, two other counter-attacks in the neighborhood of Boise Hugo and opposite Cite St. August were similarly broken up.

KERENSKY IS IN DEFIANT MOOD, SCOURGES FOES

PETROGRAD, Sept. 28.—Premier Kerensky addressed the Democratic Congress at its first session today in the Municipal Theatre, receiving applause, which came principally from the less radical groups of delegates He spoke in forceful style, with the air of challenging his opponents.

The address was largely a defence of the acts of the Government under his Premiership.

M. Kerensky was interrupted frequently by shouts from one group and another, which led at times to altercations lasting several minutes. At one point when the Premier spoke of the refusal of the Soldiers' and Workmen's Delegates of Helsingfors to oppose the re-opening of the Finnish Diet, although the Government had forbidden it, the Bolsheviki burst into loud cheers.

"Cheer, my friends, if you will," said M. Kerensky, when he was able to make himself heard. "But bear in mind that a German fleet is moving up the Baltic."

The delegate of the Right jeered the Bolsheviki asking them why they did not cheer the Premier's remark inasmuch as the Germans were their friends.

A CHILD'S TONGUE SHOWS IF LIVER OR BOWELS ARE ACTIVE

If cross, feverish, sick, bilious, give fruit laxative at once

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, Mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today save a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."
