FATAL HEAD-ON I.C.R. COLLISION

Two Trains Running Swiftly Dash Together

Four Trainmen Killed—The Line Cleared—Copeland Who Disobeyed Orders Will Recover in Ten Days.

FATAL HEAD ON COLLISION. HALIFAX, April 13—Five men were killed in a head-on collision on the Intercolonial Railway near Windsor Junction, Saturday night.

The Atlantic Express from Montreal and the fast freight from Halifax both running at a high speed, dashed together on a sharp curve two miles and a half beyond Windsor Junction.

TRAINMEN KILLED AND INJURED. The driver, Wm. Wall and fireman John Oakley, of the express, and fireman Edward Hill, of the freight, were instantly killed. Brakeman Albert Thorpe, of the freight, was horribly and fatally injured.

He lived fifty minutes after the accident, suffering terrible agony. Driver Melville Copeland, of the freight was seriously injured, but it is believed he will recover.

Disregard of crossing orders by Copeland was the cause.

LATER.

THE LINE AGAIN CLEAR. HALIFAX, April 13—(Special)—The wreckage caused by the collision near Windsor Junction on Saturday night has been all cleared.

Nelson Copeland who disobeyed orders to stop at Windsor Junction is out of danger.

COPELAND CONSCIOUS BUT RETICENT. He has fully recovered consciousness and will be about in two weeks.

He is perfectly rational but has been requested to say nothing until asked to make a deposition before the proper authorities.

REMEMBERS THE STOP ORDER. It is understood he recalls having received the order to stop at Windsor Junction but when near that point lost his senses.

His mind is now clear as a bell. Copeland will be able to leave the hospital when the burns on his face heal, say in about ten days.

BONSHAW MOVED BY GHASTLY FIND

A Portion of the Body of an Infant, Taken

To the House of John McQuarrie by his Dog—Remainder Cannot be Found—Suspicion Points to one Person.

Another ghastly story reached the city yesterday forenoon from the village of Bonshaw, about fourteen miles on the road to Victoria. The story as telephoned The Guardian during the forenoon is as follows: On Sunday about noon two dogs belonging to John McQuarrie of that place were seen coming from the bush near his house. In the mouth of one was an object supposed at the time to be part of the body of some dead animal. Nothing was thought of the affair and during the afternoon the dogs were locked in the house while the family went to a neighbor's on a visit.

They returned home about half past eight o'clock and after entering the building let one of the dogs out.

He ran away and in about fifteen minutes returned with the head of an infant child in his mouth.

The lower portion of the head was gone but the remaining part intact. The infant was pronounced by the doctor to be anything from a day to a week old.

J. A. Robertson, the local Magistrate was informed of the affair and yesterday forenoon communicated with Dr. R. McNeill for the purpose of having an inquest held on the remains.

Coroner McNeill, however, did not think it his imperative duty to go to Bonshaw over almost impassable roads to conduct the inquest. The Attorney General was also informed of the facts by Mr. Robertson but as yet no action has been taken in the matter.

Yesterday morning after notifying the Coroner Mr. Robertson and Samuel Beaton made a search for the body but found no trace. They discovered an apron of peculiar pattern however which will give a clue.

The inhabitants of the village and surrounding country are much agitated and freely mention the name of a person in connection with the affair. Suspicion is directed strongly to this individual by circumstantial evidence and it is probable that action will be taken in the matter.

The Bonshaw people are desirous of an inquest at once in order that the affair may be thoroughly investigated.

CORN TAX REMISSION IMPROBABLE.

LONDON, April 9.—Right Hon. Mr. Ritchie, the chancellor of the British exchequer, in reply to the Co-operative Congress, indicate that no remission of the corn tax was probable. He also denied the protective character of the tax, and added that the British working classes could not share in the choosing of the government without contributing to its expenditure.

CITY COUNCIL MEET LAST NIGHT

Detectives' Work on Breaking of Trees

A Bill Will be Passed to Prevent Expectoration in Public Places—Market Plans and Other Matters Discussed.

The regular monthly meeting of the City Council was held last night. The Mayor, Recorder and all the Councillors were present.

While on routine business, Coun. Lyons took objection to \$300.61 for detective service in connection with trees broken on Prince Street.

Coun. Whear explained that two detectives were brought from Montreal. The detectives boarded at the houses of the suspected ones and everything possible was done to obtain a clue. No evidence was obtained.

Coun. Paton concurred and said the committee composed of himself and Coun. Whear had done their best.

After explanations the action of the committee was endorsed.

Coun. Whear gave notice that at next regular meeting or special meeting he would introduce the assessment by laws.

A communication from the Local Council of Women called attention to the prevalence of the practice of expectoration in public places and asked a prohibitory by-law.

Coun. Clarke, Coun. Whear approved of the suggestion. The practice was a most filthy one especially in public buildings. Coun. Whear stated that he had often seen the sidewalks in front of doorways on Queen Street covered with filth. He moved that the Recorder be requested to prepare a by law in accordance with the resolution.

Coun. Lyons believed the law would be a dead letter. He would not oppose it however.

Coun. Paton in seconding the motion asserted that something must be done to allay the disgusting nuisance.

The Recorder was doubtful as to whether the law would apply to government buildings.

After discussion Coun. Whear's motion was carried unanimously.

Coun. Paton, Coun. Lyons, Coun. Clarke, condemned the delay in calling for tenders for the Market which, it was alleged, was inexcusable.

Coun. Whear thought there was too much delay and he would feel like calling a special meeting and cancelling the contract with Mr. Harris.

Coun. Hooper was disappointed at the delay as he had expected the plans to-night.

In answer to a question the Recorder said a special clause has been placed in the city bill now being prepared for the legislature giving power to issue debentures, instead of holding a public meeting.

After the question was further discussed the Council adjourned.

At the conclusion of the meeting the Council met in private session.

BORN.

In this city, April 11 to Simon and Mrs. Atkins, a daughter.

THE PRISONER IS STILL UNCHANGED

He Appears Undisturbed by the Awful Crime

Those Acquainted With the Prisoner Say that Revelations May be Made Before the Trial is Ended.

There are no developments in the murder case since the account of the tragedy given in The Guardian yesterday. The comprehensive story published included all the details of the sad affair which has caused a feeling of horror to overspread the entire province.

Those who are acquainted with parties implicated assert that before the preliminary investigation and trial in the Supreme Court are concluded there may be developments that will throw much light on other cases that have been before the Court within a recent date. However that may be, the public will await with great interest the trial and especially any clues that will bring the guilty to justice.

Yesterday afternoon the representative of The Guardian visited the prisoner at his cell in the jail. He still has the same half careless air that he assumed after the murder and appear indifferent to the consequences of the crime committed.

His story is that he was full of liquor at the time of the shooting and did not know the gun was loaded. He wanted to leave Stewart in order that he might hire with another man with whom he had worked previously.

Carver's quarters are in the same cell in which McLeod committed suicide over a year ago and where Millman, Gillis, Dowie and others charged with murder have been confined. He is being closely guarded day and night by Jailer Hamill and his assistants. He slept well on Sunday night and retired again last night at an early hour. During the day he sits most of the time with his head on his hands but does not seem to be brooding anxiously over the affair.

ARRANGEMENTS IN THE WEST. At Winnipeg the arrangements are complete for the reception of the Barr colonists.

It is not intended the party shall stop in Winnipeg but they will proceed direct to Saskatoon.

BARK WRECKED, CREW SAVED. ST. JOHN, April 13—(Special)—A light vessel is reported ashore at Sotarie Island. She is the Norwegian barque Amity, Capt. Olsen from Table Bay for the Gulf of St. Lawrence.

The crew were safely landed. The vessel is a total loss.

CLARY'S POPULARITY.

A wonderful and satisfactory fact in connection with the single Louise Clary this noted concert will be heard here May 7 is that a

appearance in a town or city, others are sure to follow in quick succession, owing to the tremendous success which she never fails to make. For instance this favorite artist has been heard in the following places oftener than ten times and in some instances more than twice that number. New York, Chicago, Washington, Philadelphia, Pittsburg, Montreal, Toronto, Boston, Ottawa, Louisville, Oberlin, St. John, N. B. and others too numerous to mention. It is altogether unlikely however that it will ever be possible to procure her again for Charlottetown however, and none who can possibly avoid making such a mistake should not miss the opportunity which is presenting itself May 7th. It is said, to hear Clary sing the "Lost Chord" is alone worth going many miles to hear.
