- Sizes 8 to 14... **89c**

MOORE & McLEOD Limited

MOORELL C. W. L.
The October meeting of the Little Flower sub-division of the C. W. L. of Moorell was held in the church vestry with an attendance of twenty members. Mrs. Joseph Rooney, Vice-President presided. The meeting opened with prayer followed by roll call and reading of the minutes of the last monthly meeting. The roll call was answered by each member making a cash donation in aid of European children. It was decided that Mrs. Patrick Murphy and Mrs. Frank McCarthy take charge of linen supply for altar. The catechetical classes are to be re-organized in the near future. Card parties are to be resumed and will be held in the "Memorial Hall" every Thursday evening. The first one will take place on Nov. 3rd, sponsored by Mrs. Ernest Kossiter and Mrs. Ambrose Steele, the second on Nov. 10th sponsored by Mrs. James B. Jay and Mrs. Gordon Bonnell. The meeting closed with prayer.

Teachers' Organization Work Reviewed

(Concluded)

During the past year, the C.T.F. General Secretary, Crookery, with the aid of provincial organizations, has prepared a voluminous report on "Working and Living Conditions of Teachers." This report was presented, along with those prepared by others, at the Canadian Education Association, during their annual convention recently held in Fredericton, New Brunswick. This whole report will be available later in the year.

Education Week this year, and in the future, will be held during the month of March. (This year March 5th. to 11th.) This change was made, as it is felt that provincial organizations cannot so well prepare for a fall Education Week, so few months after school opening. During the past year, the usual type program was carried out by the Island Federation.

An alert committee, headed by Miss Estelle Bonness, directs the Public Relations program for the Federation. Various members of the Federation have spoken to School and Home Associations on such subjects as Federal Aid to Education, and the Status of the Teaching Profession.

Dealing with the Status of the Teaching Profession, eight radio broadcasts were given on the report prepared by Dr. M. E. LaZerte, and revised to suit our Island conditions.

Much material relative to federal aid has been distributed to every farm organization, Legion group, and Women's Institute on Prince Edward Island. Several hundred were thus distributed.

The Federation newsletter is distributed to all newspapers and radio stations, and to Presidents of various organizations. This year, as a new publicity feature, our organization plans to conduct educational forums with such influential organizations as Farmers' Federations, Women's Institutes, the Legion, et cetera. Last year, our Board of Governors passed a resolution by which any one who has taught 30 years might retire on part pension irrespective of age. Our office was advised that since there is to be a consolidation of various acts at the coming Legislature, we should wait until that more opportune time for our contemplated change.

Just here, we should like to present tribute to one of our City teacher members, now retired from his duties on the Superannuation Commission. Mr. Herbert Yeo, for many years Principal of West Kent School, has long been a faithful servant of all our Island teachers, having always given the best of his ability in upholding on the Pension Commission the rights of our Federation members. I am sure that we are all greatly appreciative of Mr. Yeo's efforts on our behalf, and extend him our best wishes for many years of happy retirement from his duties as teacher, principal, and pension commissioner.

In addition to Mr. Yeo, one other, Dr. G. D. Steel, has recently laid down his pedagogical responsibilities. Dr. Steel has served many years of faithful duty not only in Prince of Wales College, but also throughout the Province, where he has ever been a devoted supporter of all worthy educational projects. I am sure that teachers appreciate the work of Dr. Steel, and wish him the best that fortune may have to offer her faithful servants.

Unfortunately as we may be losing Dr. Steel as Principal of P. W. C., yet we feel proud that one of our own Charlottetown citizens, Mr. Frank MacKinnon, lately of Carleton College, Ottawa, has been appointed his successor. On behalf of the Island Federation, we extend a sincere welcome to Mr. MacKinnon and wish him every success as Principal of Prince of Wales College.

Now, coming to the subject of curriculum. The Teachers' Federation has a large curriculum committee, who meet with the Department of Education to discuss curricular changes and study suggested textbooks. It is worthy of note here that not every province of Canada has had until very recently representation on such a committee with its Department of Education. As most of you are acquainted with what beneficial changes have occurred in this regard, we shall not repeat them at this time. During the present year the committee contemplates to continue its study until our whole curricular content is generally satisfactory. We should be all most grateful to Chief Supervisor, Malcolm MacKenzie, Director of Curriculum, for his untiringly painstaking efforts in this field of activity.

During the past year, the Federation was represented at various educational conferences outside the Province. Mr. Ralph MacLean attended the Maritime School Broadsides, and Mr. Elmer Pincat represented us on the Maritime Common Examining Board. Also, our President, Mr. J. R. Murphy, sat in at the Canadian Education Conference recently held in Fredericton, N. B., and the usual number of teachers attended the C. T. F. annual convention at Ottawa in August.

Since our C. T. F. has not been host to the conference of C. T. F. delegates for some twenty years, the four Western provinces have held such meetings, and sometime before our meeting in Ottawa in August, they had made full plans for this year's gathering of secretaries and presidents. The Eastern conference, modelled on the Western one, will include all provinces east of Ontario, and including, we hope, Newfoundland. Following this year's regional conference in two different groups, it is hoped to meet as a national body rather than regional ones.

On behalf of the P.E.I. Teachers' Federation, we should like to commend the efforts of the School Board of this City for their improvement in the financial status of urban teachers. Though not yet by a considerable deficiency, has it reached the level of salary scales of urban centres of similar size in this Dominion, we realize that the Board's action is moving in the right financial direction, and we trust that in the not-too-distant future, Charlottetown will show the way to the rest of the Island by bringing the City schedule up to a plane in which we may all take justifiable pride.

Tenure in our urban centres, Charlottetown and Summerside, is at the 17-year mark; while that of the rural teacher is at 6.6, and the Island average of all teachers stands at 8.3. Unquestionably, the tenure is high because of the many married women in the profession.

In the field of certification, your executive and Board of Governors

Awarded Degree

C. A. R. SHAW, O. L. U.
The Institute of Chartered Life Underwriters of Canada has recently conferred the degree of Chartered Life Underwriter (C. L. U.) on C. A. R. Shaw of Montague. The three year course of study and examinations leading to the degree is conducted under the supervision of the University of Toronto. The degree is the highest educational award in life insurance underwriting. Mr. Shaw is manager of the Montague Office of Hyndman and Company, manager for The Great West Life Assurance Company on Prince Edward Island.

appointed his successor. On behalf of the Island Federation, we extend a sincere welcome to Mr. MacKinnon and wish him every success as Principal of Prince of Wales College.

Now, coming to the subject of curriculum. The Teachers' Federation has a large curriculum committee, who meet with the Department of Education to discuss curricular changes and study suggested textbooks. It is worthy of note here that not every province of Canada has had until very recently representation on such a committee with its Department of Education.

As most of you are acquainted with what beneficial changes have occurred in this regard, we shall not repeat them at this time. During the present year the committee contemplates to continue its study until our whole curricular content is generally satisfactory. We should be all most grateful to Chief Supervisor, Malcolm MacKenzie, Director of Curriculum, for his untiringly painstaking efforts in this field of activity.

have gathered data from the various provinces in the hope of getting set up in this province a Certification Board on which our Federation may have worthy representation.

Two more matters remain to be disposed of, viz., new proposed teacher-trustees contract, and an Island summer school for teachers. During the past year, a committee, consisting of three P.W.C. teachers, and convened by Miss Vera Simpson, studied all provincial contracts, in order to try to improve our present one, particularly relating to tenure, a matter for which the C.T.F. has been working in the past. Our present contract, as you know, does not offer continuity of contract, but automatically expires at the end of the year, or at three months' notice. General speaking, other provinces have security of tenure, and in some, teachers may be dismissed only for a justifiable cause. Even then, teachers may appeal to a Board of Reference, another desirable feature that we should try to secure, for our own protection against unfair practices.

The only suggested noteworthy change is in Clause Number 8, giving continuity of contract. We may say here that Dr. Shaw has stated to the executive that he is completely in agreement with the principle of change, and at his request the attitude of teachers at the various conventions was to be noted.

This suggestion has been carried out at all convention centres, but in some instances was turned down. Just what future action will be taken, we do not know; nevertheless, we should be able to hold on to their positions longer than a year at a time. Or is it that our Island people are too conservative, except at election times?

Should this meeting have suggestions, we should like them embodied in a resolution for the guidance of your Board of Governors. A resolution favouring this new type of contract will be brought in, and we are present to consider carefully before registering his or her vote. We sincerely trust that soon Prince Edward Island teachers will follow in line other progressive provinces, in the matter of adding security of tenure to its contract. (I.B.C. by the way, the most progressive in education, has no contract at all.)

Lastly, the matter of summer school. During past years, many teachers have been urging the Federation to approach the Department of Education concerning the matter of holding our own summer school for teachers on the Island. At our last meeting of the Board of Governors, the question was thoroughly discussed. The Board felt that before approaching the Department, the attitude of teachers at convention should be obtained. Before our annual meeting of the Board of Governors in November, we hope to have received all reports (which, according to the Press and otherwise, have been quite favourable). The idea is to enable teachers to improve their professional status and class of licence by receiving credits towards such, by attending a provincial summer school for teachers. Many teachers, who now positively hesitate to endure the rigors of summer heat, etc., outside the province or because of home responsibilities, desire to be able to attend school right here at home.

If you so desire, a resolution may be introduced, supporting a school. At each convention, in addition to a supporting resolution, we have had a showing of hands by those who will attend such a school. Having such approval and support from the teaching body of this province, we shall then be able to go to the Department of Education with a positive proposition.

Your presiding officer, Miss Matheson, has urged that your Island secretary give a full and comprehensive report for your careful deliberation.

We sincerely trust, nevertheless, that we have not too badly overstepped the official request. May your meeting reverberate its successful conclusions throughout the current school year.

In conclusion, let me appeal to each teacher present, for the hearty and active support on behalf of the whole Federation, of all and every worthwhile project that may be set down in our future program of action. Without this all-important support, our Federation executive and Board of Governors are more or less ineffective.

May you all individually have a most successful and professionally happy school year.

AIRLIFT'S RECORD
In the 321 days of the Berlin blockade, the western airlift delivered 1,588,283 tons of cargo into the city in 196,031 flights.

MASQUERADE DANCE
A very successful masquerade dance was held in Stella Marie Hall, North Ruston on Wednesday night, with a large crowd of masqueraders joining in the fun. The many and varied costumes creating plenty of laughs. The most comical one and a prize winner was Mr. George A. Pippas who presented himself as a cow. Frankenstein was the most original

and won by Mrs. Emile Gauthier. The best couple won by Mr. Alan Gauthier and Mrs. Harold Doucette. First prizes also went to Mrs. J. Vincent Gallant and Mrs. Andy Gallant. The judges were Rev. Fr. Pitre, Miss Alice McLooney and Constable Fred Curran. The dance was sponsored by the Home and School Association of Stella Marie.
