THE OLD WAY.

Of Treating Stomach Trouble and Indigestion, a Barbarous and Useless One.

We say the old way but really it is the common and usual one at the present time and many dyspeptics, and physicians as well, consider the first step in attempting to cure indigestion is to diet either by selecting certain food and rejecting others or to greatly diminish the quantity of food usually taken.

In other words the starvation plan, is by many, supposed to be the first essential in the cure of weak digestion.

The almost certain failure of the starvation cure for stomach trouble has been proven time and again but still the usual advice, when dyspepsia makes its appearance, is a course of dieting.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a person suffering from dyspepsia because indigestion itself starves every organ and every nerve and fibre in the body.

What is needed is abundant nutrition, not less, and this means plenty of good, wholesome, well cooked food and some natural digestive, to assist the weak stomach to digest it.

This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted and this is the way they cure the worst cases of stomach trouble.

The patient eats plenty of wholesome food, and Stuart's Dyspepsia Tablets digests it for him.

And this is in accordance with nature and common sense because in this way the whole system is nourished and the overworked stomach rested, because the tablets will digest the food, whether the stomach works or not. One of Stuart's Dyspepsia Tablets will digest 1800 grains of meat, eggs and similar food.

Any druggist will tell you that Stuart's Dyspepsia Tablets is a remedy of extraordinary value and probably is the purest and safest remedy for stomach troubles. No person suffering from poor digestion and lack of appetite can fail to be immediately and permanently benefited if they would make it a practice to take one or two of Stuart's Dyspepsia Tablets after each meal.

THE INVENTOR OF THE GATLING.

Boston Advertiser: Dr. Richard J. Gatling recently entered upon his eighty-fourth year. For his birthday thoughts he might have had the pleasant recollection that the famous guns of his invention had killed about 250,000 men since 1862.
