About Patent Leather Invictus Shoes

The question is sometimes asked whether the patent leather in INVICTUS Shoes will crack.

In reply to this we say that it's impossible to guarantee any patent leather from cracking.

Some patent leathers crack more readily than others—depends upon the quality.

The Patent leather used in INVICTUS Shoes is manufactured from selected imported Russian Colt hides.

The result is a patent leather that is softer, more flexible and one that will wear longer, without cracking, than any other patent leather sold.

Success Magazine for April contains the inside story of the waterways movement in an article; The Man Who Boomed the Nation, by John L. Mathews, Walter Fritchard Eaton attacks the indecent drama of the day in The Trail of the Tenderloin. Charles Edward Russell discusses the political issues of the future under the title 1912. The junk industry is picturesquely described by Rufus H. Gilmore in an article, His Eminence the Junkman. There is an anonymous paper, The Frank Thoughts of a Second Wife, and an editorial by Orison Sweet Marden, Are You Superstitious. Among the stories of the month are, How does Your Garden Grow by Jeannette Marks; Beyond the Spectrum, by Morgan Robertson; Writing a Speech for Peter, by J. J. A seventy-two thousand dollar a year man—Hugh Chalmers—tells How to hire, train and supervise men in the April number of Busy Man's Magazine. It is a topic full of inspiration and narrated in a bright, snappy style by a salesman who, at twenty-nine years of age, capitalized himself at a million dollars annually and sold his services to a company employing five thousand persons, as well as a force of five hundred salesmen. Another article of timely interest is one on Canadian and Imperial Titles, by J. M. McConnell, who speaks of the change in sentiment and attitude with which decorations are now viewed in the Dominion as compared with the feeling that existed some years ago. Canadian Pleasure Parks, is also a seasonal contribution from the pen of G. W. Cooper. Splendid cuts are presented of several valuable spots in different cities. The contents of Busy Man's Magazine contains many other racy articles on political and commercial affairs, system and business, life stories of successful people and men and events in the public eye. It is artistically illustrated and makes an excellent travelling companion for Easter-tide or a welcome visitor to the home during the present holiday period.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acts on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
