## I. O. FORESTERS PRESENTATION

### Address Presented by Leading Foresters to Past High Chief Ranger McCready, Now A Jubilee Member. Several Initiations.

Castle Hall was well filled with members of the Independent Order of Foresters last night. John H. Bell filled the office of Chief Ranger.

the undersigned, representing the members of the Independent Order of Foresters hereby tender you, on this auspicious occasion, our hearty congratulations upon your having reached the three score and ten years allotted by the Psalmist, and your twenty-sixth year of continuous membership in our beloved Order.

We congratulate you, my brother not only upon your wealth of years and your ripened experience, but especially desire to congratulate you upon having had the wisdom and the foresight to become a member of this great Fraternity whose well designed laws not only throw the mantle of protection around our homes, but bring tangible comfort and consolation to the aged as well.

## ASSAULTED LADY IN CHARLOTTETOWN

One of the most contemptible acts committed in the city for a long time, took place last night at the comparatively early hour of 9.25.

friend, along Richmond St., past Paton & Co.'s. She reached the 'B. N. S. corner, then proceeded down Great George St. when she noticed that someone was following her.

As the assaulter recoiled from the unexpected blow, the lady called to a young man whom she saw at some distance away, but by the time he had responded to the call, the coward had taken to his heels and disappeared.

The lady described the man as one of medium height, with a light mustache, aged between thirty-five and forty years of age. He wore a long dark overcoat.

As she was carrying a pocket book in her hand, it is clearly evident that the man's intention was robbery. Fortunately the police of Charlottetown are not of the order whose eyes are forever shut, and if it is in any way possible the criminal will be captured.

It is earnestly to be hoped that he will, for this class of men deserve nothing out but a punishment severe enough to serve as a lasting warning to any others in the country of the same nature.

## MANY OF THE SIGHTS IN THE EDEN MUSEE

New York City, the Guardian's happy party will have the privilege of seeing several interesting figures, one of them being a stalwart policeman in blue coat costume. The form and countenance of the officer are so lifelike and expressive that no one would dare to pass the turnstile without paying his admission while the keen eye of the guardian of the peace is upon him.

After the eight jolly ladies and their escorts pass inside they will see scores of the most brilliant figures, including those of Marie De Medicis, at one time queen of France, the Eagle's nest, eve of the coronation of Josephine whose dress cost \$3,000 francs.

Even without entering the Eden Musee on 23rd street near Broadway,

## TEXTBOOKS THAT ARE DANGEROUS

### Dr. Harris Says Are Used in Toronto Ladies' Colleges at the Present.

TORONTO, April 27—(Special)—"I can point out text books in Toronto young ladies' Colleges which if you parents read them and your daughters were in those schools, you could scarcely sleep in your beds."

We now say to you, well done, good and faithful member. All those years you have helped to carry untold blessings to others; you shall now enter into the Forester's rest. For the future you are free from making any payment of any kind whatsoever. Financial rest shall be yours; and in behalf of our Supreme Court we herewith tender you their official cheque as your first annuity and trust that you shall have abundant health to continue your usefulness in this community and in the brotherhood as well.

## MOTHERLAND DOES NOT NEED CANADA'S AID

MONTREAL, April 26—J. Allen Baker, M. P., for Finsbury in the House of Commons and one of the Canadians holding seats in the Imperial Parliament arrived here today and at once put himself on record as being strongly opposed to any excessive naval expenditure. He has no faith in the German scare and says that his views are stronger than ever on this point since he visited Berlin a month ago.

Mr. Baker says that the Germans now that they have the Kaiser well in hand are simply amazed at the panic which has seized hold of England. He also regrets to see that Canada is being stampeded into similar policy. Of course he says it is very pretty to see Australia and Canada coming up one after the other and offering assistance to the Motherland in case of war, but practically speaking, he says that England is in

no need of such aid. In fact he considers that while Canada is perfectly justified in being liberal in her aid of public works, any policy of extravagant expenditure for military or naval matters would be national folly. Mr. Baker is a supporter of the Asquith administration.

The position of the General Manager of the Government railways has been abolished by the new system which took effect on the first of May. Brady the latter leaving the city this afternoon. As commissioners they all appear to possess equal power and authority. Mr. Butler and Mr. Tiffin retain their positions of Deputy and Chief Engineer of Government Railways and General Traffic respectively.

## THE INTEREST INCREASING IN THE GUARDIAN OF MAY 22

Everybody both in town and country will want The Guardian of Saturday May 22, for it will be the first paper of its kind in Eastern Canada. In one way at least it will be three times as valuable and three times as much sought after as any issue since January last. In other ways it will be very many times more valuable than any issue ever published in the East. In fact it will in some respects be different to any paper that has ever been published in any part of the world. The ladies of that commendable society, The Daughters of the Empire, will give their opinions on the topics of the day, and treat them in a different manner to what

they have ever been treated before. It will be an issue in three sections, with a very much larger circulation, and thus most valuable to advertisers. There will be a slight increase in the price of all sale papers of that issue, and the net receipts from same will be for the benefit of the "Anti-Tuberculosis" movement. There will also be the opportunity of special advertising from business men everywhere, and some will appear on special pages with special reading matter supplied by the ladies, all the net returns from same being for the "Anti-Tuberculosis" movement. But tomorrow's issue will tell more, and about what the ladies will do.
