A RECORD OF SUCCESS

The Results of the Great-West Life Insurance Co Regarded as Phenomenal.

Extract from Annual Report, 1906. At the annual meeting of the Great West Life Assurance Company, Sir Daniel H. McMillan, K. C. M. G. Lieut. Governor of Manitoba, in supporting the motion for the adoption of the Directors' Report, spoke as follows:

"I notice that this year the Report is similar to the Reports of preceding years in that it again sets forth the story of another successful and prosperous year. We have become so accustomed to this unbroken record of success, advancement and growth that we have come with confidence to regard the continuance of it year by year as a matter of course, but having become accustomed to it does not in any way lessen the satisfaction we feel."

"We are familiar now in Western Canada with the rapid up-building of large business and financial institutions, but even at this time of rapid development I regard the record of The Great West Life as being phenomenal. "Now there are two features in connection with the Life Insurance business common to all Companies in which the pre-eminently satisfactory showing of The Great-West Life is highly gratifying to all concerned, but more especially to the Policyholders. I refer to the stable character of our investments and to the large profits earned for the Policyholders. These are most important matters. Reference has already been made to one feature of this by Mr. Riley who has pointed out the importance of being able to make our investments at a high rate of interest. "So much attention has been paid to the reduced dividends to Policyholders of some of the so-called "Giant" Companies of the United States, and to the fact that they had only succeeded in realizing about one-third of their estimates, that it is both gratifying and refreshing to learn that our Company has not only exceeded its estimated profits on the Five-Year Deferred Dividend Class, but that the surplus accumulated already guarantees the payment in full of dividends estimated in the case of the 15-Year Deferred Dividends class of 1892 maturing this year (1907). "I have in my hand the first list of Policies maturing in this class, and find in the case of those who are insured under 15-payment Life Policies that they will receive back all the premiums paid, with 40 to 45 per cent, added in cash, and have had their insurance absolutely without cost. "If the case of the 15-payment Life Policyholders is gratifying, what must be said as to the case of these lucky Policyholders who took 15-year Endowment Policies, who receive back all their premiums with 60 per cent, to 65 per cent, added in cash, and have had their insurance for the 15 years 'free-gratis-for nothing!' "Because some millionaire financiers have misapprehended the funds entrusted to them in such a manner as to enrich themselves instead of their trust, it must not be assumed that honesty has ceased to exist, and refuse to give credit where it is due. "It does make a vast difference where we invest our insurance premiums, and we must take the trouble to find out where the best results can be secured; and

remember that even the President of one of the Giant Companies admitted under oath that their size made them "beyond the capacity of human supervision."

"Those who want Great-West dividends must have Great-West Policies, and these may still be obtained at the same low premiums and with the same liberal conditions. "I will only add that I regard the business of last year with a great deal of satisfaction and look forward to a still more prosperous period during the coming year. The Managing Director referred to the fact that great credit was due to the Agency and Staff of the Company for the results achieved and also to the deep interest taken by the Board of Directors in the affairs of the Company showing their appreciation of their responsibility. The motion to adopt the Report was unanimously passed. Dr. Chowan submitted the Report of the Medical Board, showing that the mortality experienced by the Company during 1906 was again extremely favorable. A full copy of the annual report can be obtained on application to the Branch Office of the Great West Life, Charlottetown. Hyndman & Co are Provincial Managers.

MINARD'S LINIMENT is the only Liniment asked for at my store and the only one we keep for sale. All the people use. HARLIN GULTON. Pleasant Bay, C. B.

WORSHIP OF FIRE IN MODERN LIFE

LONDON, June 26.--Only yesterday did I make the strange discovery that there exists in London a mysterious sect of fire worshippers, not foreigners, either, but well educated and apparently intelligent people of good social position.

I was out at Balham, a suburb of South London, when a friend, pointing to a big house with windows heavily shuttered inside, said, "Do you know what place that is?" "According to the calendar" he proceeded, "this is the longest day. Inside that house there have been assembled since sunrise about two hundred people who call themselves the 'Faithful Community' and there, with all the light of day shut out, they are bowing low or kneeling before a little oil lamp, worshipping the sun."

Their ordinary days of worship are Sundays and Mondays. Their rites are said to follow closely the lines of worship of the Parsees, a race which some sixteen or seventeen hundred years ago was driven from Persia to seek a home on the western shores of India. They worship fire and light and are directing their praise naturally to the sun as the greatest emblem of fire and light. Their shrine in that big, dismal, deserted looking house is the little oil lamp referred to, which is carefully watched and never allowed to go out.

New York, June 26.--With every stitch of canvas drawing in a good southwest breeze, J. Rogers Maxwell's schooner yacht Queen, with her owner at the wheel swept across the finish line of the Oyster Bay at 4:52.28 yesterday afternoon, the winner in her class in the annual regatta of the Sewanhaka-Corinthian Yacht Club. It was one of the best races the Queen has ever sailed. Her opponent was M. E. Plant's schooner foghorn, which was sailed by Captain Charles Barr, and after sailing twice around a fifteen and a quarter mile triangular course, fighting for every foot of the way, the Queen won by 24 minutes, 41 seconds.

LONDON, June 25.--Sir Charles Tupper has been suffering of late from a return of his old internal complaint. Acting under the advice of the eminent King's physician, Sir Douglas Powell, he is going into a nursing home for a week to undergo an operation. His excellent constitution promises success.

BIG SCHOONERS IN THIRTY MILE RACE

New York, June 26.--With every stitch of canvas drawing in a good southwest breeze, J. Rogers Maxwell's schooner yacht Queen, with her owner at the wheel swept across the finish line of the Oyster Bay at 4:52.28 yesterday afternoon, the winner in her class in the annual regatta of the Sewanhaka-Corinthian Yacht Club. It was one of the best races the Queen has ever sailed. Her opponent was M. E. Plant's schooner foghorn, which was sailed by Captain Charles Barr, and after sailing twice around a fifteen and a quarter mile triangular course, fighting for every foot of the way, the Queen won by 24 minutes, 41 seconds.
