YES—IT IS POSSIBLE TO STOP RHEUMATISM Rheumatism is a tormenting and stubborn malady. In some cases it yields to treatment which is without avail in other cases. The darting pains, lame muscles or stiffened joints only disappear by gradually expelling the uric acid, and so many thousands have been relieved by the blood-enriching oil-food in Scott's Emulsion that you should give it a faithful trial. Scott's Emulsion acts as a powerful blood-purifier by increasing the red corpuscles and it strengthens the organs to carry off the acids which cause the trouble. Try Scott's Emulsion. It cannot harm. It has helped thousands and can be exactly what you need. No drugs. Scott & Bowne, Toronto, Ont.

SOLDIERS STORY OF THE BATTLE PARIS, March 6.—A wounded colonial infantryman who reached Paris gives the New York Times correspondent a picture of the taking and retaking of Douaumont. "The German" ransacked had levied the parapets and trenches until the position looked like a newly plowed field," he said. "It seemed as if every man in the world was concentrated upon that one point. The noise was far greater than in the battle of Champagne. "Some Roche infantry were creeping up a narrow ravine on the right front, others were crawling through the wood directly before the position. Suddenly they surged forward in a gray mist from both quarters at once. There must have been 5,000 in the ravine and perhaps 20,000 in the wood. As the former reached the plateau a single shell burst right among them, the flinging pieces fell in a storm of iron and steel, fragments of men, and limbs of earth. "Through the smoke one could see the other advancing heads down, as if sheltering themselves from the rain. Lo!

Whatever may be the cause, Dr. Chase's Ointment will cure, for it heals and dries up the sores, and leaves the skin soft and smooth. Soon the ravine head was choked with bodies. Others tried to clamber over and kept rolling down the hillside. The heaps of dead gave us a more effective barricade than our own reinforcements. They simply could not pass. Push on Despite Slaughter "But in front, where the slaughter was even greater, they came on incessantly. "Truly, they are brave, those Boches. I would never have believed that human beings could face such a terrific fire. Yet they knew it was certain death, for the wounded were stifled under corpses or torn in pieces by fresh shells. "Wave after wave advanced. At last they reached the spot where our fortifications had been on the spur of the hill, and began piling up bodies to protect them from our fire. Douaumont was theirs, but at ghastly cost. "Further back our hearts were burning. Were the Germans to be allowed to consolidate their victory? For three days they had kept us idle while the gunners did all the work. Since we retook Caures wood they held us, saying it was a useless sacrifice. "We watched our shells converge upon Douaumont, tearing the German defenses into fragments. Our hearts beat fast. Surely we should attack soon. At Last the Mad Charge "At last our turn came. I took part in the Champagne charge, but it was nothing like this. "We were mad. Nothing could have stopped us. Despite the Germans fire, which, perhaps, was hampered by the fear of hitting their own men on the spur, we hurried ourselves at them with the bayonet rammed on the shell holes and ruined emplacements. This was real war as I had never seen it. For a moment, it was furious and equal. Then came another blue-clad wave and another. We hurled them back, screaming over the hillside. It was a battle without quarter. "They had had enough. Fort Douaumont was French once more. "We were pretty well exhausted, and too exhausted to cheer. I suddenly found that my thigh was bleeding from a deep stab. My foot was already full of blood, but I had not noticed it."
