MILEAGE OF NEW G3
EQUAL TO 40,000 TIMES
AROUND THE WORLD

G3 is new—but so many have been sold that based on a conservative annual mileage we can safely say—"G3 tires already have travelled more than a billion miles on Canadian cars." This takes G3 definitely out of the experimental stage. It is proven!

Goodyear engineers produced G3 to meet the strains and jars of modern traffic conditions. It maintained its tread pattern after the severest driving tests ever given a tire. Its performance resulted in the greatest sale in Goodyear's history. **GOODYEAR MEANS GOOD WEAR**

Car makers—always careful in the selection of materials and parts—prefer G3 to any other tire as equipment on their latest models. It is a worthy running mate for the modern car—a tread that withstands the fierce grinding wear of today's faster starts, higher speeds, quicker stops.

G3 has extra-deep grooves—close-set diamonds—wider riding ribs. Go to a Goodyear dealer and compare G3 with the tires you are now using. . . . You'll understand at once why it far outsells any other tire.

Bears No Ill Will Towards Prison Guards

(C. P. By Guardian's Special Wire) WINNIPEG, April 30—The white-haired mother of George Forsythe, Skory Mountain Penitentiary convict, shot by a guard during Saturday's riot, today termed the shooting a "blessing in disguise." Mrs. Mabel Forsythe expressed gladness the prison guard had been freed of blame by a coroner's jury, adding "it was not his fault." She added her appreciation of the kind treatment she always received on visiting her son at the penitentiary and spoke kindly of former Warden William Meighan and the recently-appointed warden, Col. G. W. MacLeod.

time when George would come out." (Forsythe was serving a 12 years and 10 lashes sentence for robbery with violence and had previously served a five year term for robbery.) "He was not bad at heart," continued Mrs. Forsythe, "but a man without a will who as a child was led astray by bad companions. As a child he had a mania for stealing things and when mine was sent to a juvenile home to be corrected. But when he came out he made bad associations."

DOMINION LOAN FOR MANITOBA

(C. P. By Guardian's Special Wire) OTTAWA, May 1—Finance Minister E. N. Rhodes has been authorized by cabinet council to advance a loan of \$120,000 to the government of Manitoba for the purpose of meeting various relief costs, and assist farmers in securing fodder and seed. The loan will be secured by a Manitoba government treasury bill, issued for one year and bearing interest at 4-1/2 per cent paid semi-annually.

Scarcity Of Hippocampus Hudsonius

(C. P. By Guardian's Special Wire) NEW YORK, April 30—The fish experts at the aquarium are worried about hippocampus hudsonius (seahorse as you). The seahorse population hereabouts has fallen off considerably in recent years, they said, because a mysterious blight killed eel grass, which means everything to a seahorse. Not only do they like to swing by their tails on the grass stalks, but their favorite food is the gammarus, a small crustacean which thrives in eel grass. The aquarium has only one hippocampus hudsonius and isn't very optimistic about getting another one. Other seahorses are on display, but they are a smaller species found in southern waters.

New Cure For Economic Depression

VANCOUVER, May 1—(C.P.)—A five-year legislation holiday in Canada would be one cure for the economic ills of the country, Charles L. Burton, President of Robert Simpson Co., Ltd., and former President of the Toronto Board of Trade, declared here today.

Mr. Burton said there is a general feeling the government can improve conditions by legislation but, if so, he asked why "they don't go to the basis of the depression and then decide if legislation can do anything about it." "In the blind experiments by legislation we are not only doing no good but we are spoiling the prospects for younger people in Canada with obligations of administration and impost," he continued. "Some of this is proposed with good intentions but is about the most stupid thing the country could do at present."

BOILS DISAPPEAR WHEN YOU TAKE Burdock Blood Bitters FOR THE STOMACH, BLOOD AND SKIN

There's no earthly reason why you should suffer the maddening pain of boils. They're a sign of bad blood and until the blood stream is purified boils and skin disorders will bother you. Burdock Blood Bitters will help you get rid of them by vitalizing the blood, making the skin clear, smooth and free from eruptions.

Vermilyea Re-signed To Fate

BELLEVILLE, Ont., April 30—"So it's all up gentlemen—the answer is—," said Harold W. Vermilyea, condemned to hang Thursday for the murder of his mother, as he heard the final official pronouncement of the death sentence delivered by Governor G. H. French. A plea for clemency had been rejected.

Before the Governor spoke, Vermilyea knew he was doomed. In a voice slightly choked with emotion, he said, "I expected something better—I had heard hundreds of letters and telegrams had been sent to the office of the Minister of Justice—I believed they might have had a different answer."

Adjutant W. A. Martin of the local salvation army corps, the condemned man's chief confidant since the death sentence was passed last February, said Vermilyea remarked he didn't mind so much for himself but he did for others of the family.

Obstacles Facing Women To Great

TORONTO, May 1—(C.P.)—Obstacles that confront women who wish to be elected to Parliament were described as "insurmountable" by Miss A. D. Robinson of East Essex today who told the Ontario's Women's Liberal Association that a woman stands no more chance of sitting in the Federal House than "a snowball in the River Stix." "I threw my tall silk hat into the convention at East Essex," Miss Robinson related. "There were seven men against me. To paraphrase, it was 'seven men took hold of one woman.' We have not advanced far enough yet, and because I know it I'm accused of being an advanced Liberal."

The Association decided to hold bridge parties in all parts of the province on Dec. 17 to celebrate the birthday of Rt. Hon. W. L. Mackenzie King, Federal Liberal Leader, and to swell Association treasures.

IMPERIAL PUPPY FOOD

It is extremely important to give puppy foxes a right start by early supplying nourishing food. This start can be given by feeding **IMPERIAL PUPPY FOOD**, which is especially high in food values as it is made from carefully selected ingredients universally recognized for high standard nutritional content.

IMPERIAL PUPPY FOOD formula is prepared with a view to the development of pups into active, sturdy foxes with pelts of highest sheen and faultless color.

To accomplish these results "Imperials" must be fed early and regularly throughout the whole season.

Secure from your local dealers or direct from factory.
