FINE CUT GLASS

Purchasers of cut glass need to make sure that they are getting the genuine article. We know that there is being marketed by manufacturers who are considered reliable a line of so called cut glass in which the pattern is really pressed, and afterwards touched up and polished on a wheel.

Our Cut Glass is fully cut. When the cutter takes a piece in hand it is perfectly plain on both sides and every line is cut and polished by hand.

We control for Charlottetown, the product of the oldest and largest Canadian factory, and feel that we have the very best in cut glass to offer our patrons.

HAVE A PERFECT COMPLEXION

Those unsightly skin eruptions that destroy the appearance of the face and arms are sure signals of an impure and impoverished supply and as long as there is impure blood, in your body you are not healthy. The blood is the great vital fluid of life and you should keep it pure, strong and rich. What you think, what you are, is in a great measure determined by the quality of your blood. It is pure and strong you have the essential factor to a healthy body—active brain and strong physical and nervous system, but, once the blood is weakened your system is open to the attack of hundreds of disorders that are primarily caused by the presence of impure, watery and impoverished blood in the system. Don't take chances, Use Nulle's (Red Blood Tablets) which has shown by results attained by actual surgery thorough tests—that it is the best blood and nerve tonic that has ever been offered suffering humanity.
