Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

IN THE CITY.—Mr. Fred Clark, of the firm of Lea and Clark, via in Charlottetown yesterday. His firm did particularly well in the wilking tests at the Amherst Winter Fair. Their cows are milking very well this winter and they have a number of black and white calves that anyone might be proud of. Mr. Lea is a firm believer in Holsteins. He states that one of their calves 15 months old was sold last spring for beef for \$60 and he challenges competition from any far breeder including the boosted short-horn.

P. E. I. HOSPITAL.—The lady superintendent and nursing staff of the Prince Edward Island Hospital intend having a Christmas tree for the patients, today, and a present given to each and all within the building. Also in the evening at seven o'clock in the same hall under the auspices of the Farmers' Institute. Subject, Preparing the Soil. Any persons interested are welcome at both meetings. There is no admission fee.—D.

"PRINCE CHAP."—One of the most comical scenes in the comedy drama, "Prince Chap" is the "Jolly-go-bang" Christmas Eve scene, in which Billy McNeill as Fritz, a German, teaches the making of a "bowl of hot punch." This is unpeppably funny. D. Edgar Shaw as Ballington, Stephen Hessian as Yadder, Harold Morris as Earl of Huntingdon, and Wm. Whitlock as Rungton, render valuable assistance in this roof-raising scene. Do not miss this whatever else you miss.

ST. JOHN'S DAY.—Sunday, Dec. 27, will be observed in due and ancient form. Priests, Albert coats, silk hats, white shirts, white ties and gloves will be very much in evidence on Sunday. A full stock of dress parade requisites will always be found at The National Clothing Store. 8039

Fortune Telling in Germany Forbidden

Fortune tellers now are forbidden to practice in any part of the German Empire. Soon after the war broke out they began to do an enormous business with relatives of soldiers in the field, who wanted to know how things were going with them.

Visits to the fortune tellers often had tragic consequences, as many of the callers were in a high state of nervous tension.

The uncertainty of relatives regarding their menfolk at the front has been aggravated by the complete middle of the field postal organization which is being severely criticized by the newspapers.

High Quality Foxes---Low Capitalization

Are two determining factors that distinguish an attractive proposition. Silver Foxes and Furs Limited have the very best foxes in Prince Edward Island—they have good prolific breeding strains---the progeny of the stock has established world's records for pelt value. This should certainly be good enough---better foxes cannot be secured regardless of price.

The capitalization of \$14,000 per pair for the 25 p. c. preferred stock, is the lowest offered by any company with the same high quality stock.

Silver Foxes and Furs Limited is an investment proposition that merits the appreciation of all who understand the immense earning possibilities of fifteen pair of highest quality "Class A" foxes, capitalized at \$14,000 per pair.

The Directors of Silver Foxes and Furs Limited are retaining large holdings in the company, and it is only reasonable to surmise that on this account they will exert every effort to make the earnings of the Company as large as possible.

The foxes are ranched on a percentage basis, the greater the production the larger are the earnings of the ranchers—and you can rest assured that they will do their utmost to make their earnings as large as possible, but, will at the same time be increasing yours too.

You can readily see that it is in the interests of all concerned to make the earnings of Silver Foxes and Furs Limited as large as possible—with high quality foxes and low capitalization the dividend paying possibilities of this Company are unlimited.

Under a special ranching arrangement that will not exceed 10 p. c., the foxes are housed, fed and cared for by ranchers of long experience and exceptional ability in the well equipped and ideally located ranch of the Hillsboro Ranching Company. The ranch manager and the advisory superintendent are men that can be depended upon to place this Company among the highest producers.

We shall be glad to send you a copy of the prospectus—we will be pleased to explain every phase of the proposition to your entire satisfaction, and this without any obligation on your part. We are anxious to go into all details of the proposition with you—explain everything—tell you all about the prospectus—the ranch, and everything that will interest the man or woman that wishes to invest their money to the best possible advantage.
