Shamrock From Old Land is Under Ban

BOSTON, Mass., March 13.—More than 1000 sprigs of shamrock fresh from Ireland and intended to grace the celebration of St. Patrick's Day in and around Greater Boston have been seized by the government under the plant quarantine act, together with a three-ounce bottle of a liquid "to make the shamrock grow" found tucked away in one box.

Unless special permission is secured from the government for their importation Boston will be without a lot of genuine Irish shamrock with which to celebrate Ireland's great day.

Although quarantine against the importation of plants and shrubs from foreign countries has been in effect in the United States for several years, this is the first time that it has been extended to shamrock.

Just why it was extended to shamrock this year, H. I. Smith, in charge of the federal horticultural board that is enforcing the quarantine act here, could not say. That was a matter, he said, for Washington to decide. The ban, he said, is in force at every port in the country.

Parsons Ocean Wave Motor Works

HALIFAX, Mar. 13.—A meeting of the directors of the Parsons Ocean Power Company, Ltd., was held at the office of the company in the Roy Building recently after a visit to the demonstration plant at Herrins Cove.

While this plant is not fully completed it is sufficiently far advanced to prove the principle of the invention, namely, that electrical energy can be furnished from and by the action of the swell or wave of the sea, when properly harnessed. The power house is now lighted, when the device is in operation, with electricity generated by the invention, which is protected by patents in the principal industrial countries in the world. Several tests have been made, resulting to the entire satisfaction of the officers of the company and such shareholders and others as were present.

A shareholders meeting will be held next week at the works so that all may see the plan in operation, and public demonstration will be made later.

Palestine Enjoys Era of Prosperity

LONDON, Mar. 13.—Palestine is enjoying a period of great prosperity, declares Sir Alfred Mond, who has just returned from a tour of the Holy Land. The developments since he was last there in 1921 have been so rapid that it is difficult to convey a picture of it to other people, he says.

Agriculture and industry equally have progressed, and there is no unemployment but, on the contrary, a shortage of labor.

Reports Exaggerated

Sir Alfred asserts that the hostility of the Arabs to the Jewish development has been much exaggerated, as "the economic bond is stronger than the political animosity."

Concurrently with Sir Alfred's statement, the Daily Express today prints a fresh report of an energetic hostile movement by Moslems and Arab Christians against the proposed visit of the Earl of Balfour, who as British Foreign Secretary, issued the famous declaration giving British support to the establishment of the Jewish homeland.

Musical At St. Joseph's Convent

The hall in St. Joseph's Convent was crowded Thursday night with parents and friends of the pupils of the music classes, who presented a most enjoyable program.

Among those present were His Worship Mayor McKenna, Rev. Maurice McDonald, Rev. P. D. McGuigan, Mr. Henry Smith, chairman of the City School Board, Mr. H. H. Shaw, Superintendent of Education, and Mr. R. H. Rogers, Principal of Prince Street School.

That the efforts of the pupils were much appreciated was evidenced by the hearty applause and many complimentary comments were heard regarding the work of the performers, which showed the careful instruction imparted by the Sisters and the evident assiduous practice by the students.

A notable feature of the entertainment was the piano selections, even the most difficult which were all memorized.

Here also was shown perfect training—the tempo, expression and technique being all that could be desired, this was noticeable even among the junior pupils.

In the program in which all performed so admirably it would be unfair to particularize; the following is the program:

LOOK IN A MIRROR!

Are there any lines between your eyes? If so, ask yourself the question, "Why?"

Many people have a constant scowl caused solely by eyestrain. This is often so disfiguring that it doesn't matter how attractive the person otherwise appears—the scowl spoils it all. In most cases scowls can be smoothed out by relieving the eyestrain.

If you have any symptoms of eyestrain you should let us examine your eyes at once. Don't wait until ugly lines appear between the eyes.

Church Union Debate Is On In Winnipeg

WINNIPEG, March 13.—A challenge to Unionist leaders to challenge the air with reference to one of the most vital aspects of Church Union legislation was issued Wednesday night when Hon. R. W. Craig, K. C., Attorney General, continued the debate on second reading of the bill to amend the United Church of Canada Act passed by the House last year.

It had been suggested, said Mr. Craig, that when the dust of the conflict had blown over the Unionists would make some proper and adequate provision for those who did not see eye-to-eye with them in this matter. If that were the intention, and it was certainly the desire of at least 95 per cent. of those in favor of union, then he wanted some responsible leaders of the Union movement to make some authoritative pronouncement to that effect if not in their representative capacity, then in their personal capacity.

Declaring he was speaking, not as a member of the Government or Attorney General of Manitoba, but as a private member of the Legislature, a Presbyterian who had always favored Union, Mr. Craig asserted that while he was supporting the bill for the second reading, he did not consider it perfect and thought it might be modified in some respects.

It was not fair, continued Mr. Craig, to throw the minority out with nothing, when many had been supporting the Presbyterian Church all their lives. He did not think there would be a non-concurring congregation in Winnipeg, but the minority against Union and he felt some steps should be taken against a situation such as existed in Halifax and Regina, where the minority were without a church. He thought in such cases it would be to the best interest of all to give them one church.

The time will come," said a speaker, "when women will men's wares."

"Yes," piped a little man in the audience, "next Saturday night!"

The petitioners of the bill are Thomas McMillan, Toronto; Rev. J. A. McGillivray, Quebec; John F. Michie, Toronto, and Rev. J. W. Macnamara, Toronto.

It sets out that the United Church of Canada act does not in any way affect or vary the civil rights within Ontario, of any person as a minister or member of the incorporated religious community commonly called the Presbyterian Church in Canada—nor does the said act affect the interest of any such person in any property within Ontario held by or for such Church in any manner however. No person after June 10, next is to exercise any of the rights, powers or privileges of a minister or member of the Presbyterian Church in Canada, unless he is a member of the Presbyterian Congregation not in communion with the United Church of Canada.

All ministers, elders, professors and all officials of the Presbyterian Church in Canada, who are members of the United Church shall be disqualified from acting in Ontario, as members of the general assembly of the Presbyterian Church.

Dies For Love Of 10-Year Old

NEW YORK, Mar 13—A strange case of the infatuation of a grown man for a 10-year-old school girl resulted yesterday in the suicide of the man, after having vainly attempted to kidnap and then to murder the girl. Wm. Cortallera, 25, of Brooklyn for weeks had met little Kate Papino on her way to the school. He asked the girl to run away with him, and when she refused, Cortallera fired four shots at her, all of which went wide, and the girl blew out his brains.
