THOSE who purpose exportin fish from the Island this season will read with interest the advertisement of Joseph Conley, wholesale commission merchant 176 Atlantic Avenue, Boston, Mass., which appears in another column of this issue. Mr. Conley who handles all kinds of fresh and salt fish and makes a specialty of Canadian mackerel, smelts and eels and having had much experience in this line is prepared to make careful sales with prompt daily returns.

J. A. MORRISON & Co., Commission dealers, 176 Atlantic Avenue Boston, Mass. are soliciting large consignments of Island fresh fish and lobsters, this season and are prepared to dispose of the cargoes with promptness making daily returns. The large amount of business handled by this firm in past seasons keeps its business well before the public, thus ensuring every safety in the handling and disposal of the consignments. When requested prices are quoted by telegraph, thus keeping the exporter in the closest possible touch with the rise or fall of the markets.

The School Concert in Cape Wolfe Hall, on the night of the 18th ult was a grand success. The night was fine and the hall was packed to the door. A program consisting of vocal and instrumental music, readings, recitations, etc. was ably rendered. While it would be invidious to particularize we might say that the recitations by the Misses Read, Crossman and Costain were particularly well rendered. The musical part of the program was skillfully executed by Miss Hetty Fish. The pies were auctioned by Messrs Cahill and Doyle. A goodly sum was realized. The teacher takes this opportunity of thanking all who attended, and particularly those who took part in the program and helped to make it a success.

MESSES. C. C. RICHARDS & Co. Gentlemen,—My three children were dangerously ill with diphtheria. On the advice of our priest my wife began the use of MINARD'S LINIMENT. In two hours they were greatly relieved, and in five days were completely well, and firmly believe your valuable Liniment saved the lives of my children. Gratefully yours, ADELBERT LEFEBVRE. Mair's Mills, June 10th, 1899.

On account of the storm there was not a large meeting at the Reunion of Victoria Division on Monday night. In consequence of this it will be continued on Monday evening next. A very pleasant time, however, was spent in song and speech. The G. M. Patriarch and Grand Scribe gave cheering and hopeful addresses. Two new members were admitted and more additions are expected at next meeting. Ivan P. Tanton read a very interesting paper from the early records of the Division which was organized on the 28th day of October, 1848, which would make the Division a little more than 54 years old. The original staff of officers were installed by the Hon. Phillip S. White of New York, as follows: W. F.—William B. Dawson. W. A.—John Godkin. R. S.—George H. Owen. A. R. S.—Richard Smith. F. S.—John LaPage. T.—Benjamin Chappell. C.—John Scott. A. C.—William Douglass. I. S.—James Handcock. O. S.—Charles Drew. P. W. P.—John Arbuckle. So far as is known the only surviving members is Mr. Owen now living in New Zealand.

IS A SERIOUS MATTER. The Most Serious and Fatal Diseases Arise From Indigestion.

Chronic indigestion or Dyspepsia, while a very common trouble, has for some time been looked upon by able physicians as a serious thing, and that no time should be lost in treating it properly at the start, because recent researches have shown that the most serious, fatal and incurable diseases have their origin in simple dyspepsia or indigestion. Diabetes is simply one form of indigestion, the sugar and starchy food not being assimilated by the digestive organs. In Bright's disease the albumen is not properly assimilated. While consumption and dyspepsia are twin diseases, and it is beyond question that dyspepsia makes a fertile soil for the seeds of consumption. But the trouble has been to find a remedy that could be depended upon to cure dyspepsia, as it is notoriously obstinate and difficult to cure. This has been the question which has puzzled physicians and dyspeptics alike, until the question was solved three years ago by the appearance of a new discovery in the medicinal world known as Stuart's Dyspepsia Tablets, which it was claimed was a certain, reliable cure for every form of stomach trouble. Physicians, however, would not accept such statements without first giving the new remedy many tests and carefully observing results. For three years the remedy has been thoroughly tested in every section of the country and with surprising and satisfactory results. Stuart's Dyspepsia Tablets can be honestly claimed to be a specific, a radical lasting cure for indigestion in the various forms of acid dyspepsia or sour stomach gas or wind on stomach, to much bile, undue fullness or pressure after eating and similar symptoms resulting from disordered digestion. Stuart's Dyspepsia Tablets were not placed before the public until this three years' trial left no doubt as to their value and they have recently been placed in the trade and can be found on sale at all druggists at the nominal price of 50 cents per package. No extravagant claims are made for the remedy. It will not cure rheumatism, pneumonia, typhoid fever nor anything but just what it is claimed to cure and that is every form of stomach trouble. No dieting is necessary, good wholesome food and plenty of it and you may rest assured that Stuart's Dyspepsia Tablets will digest it. Druggists claim for it that it is a pleasure to recommend it to dyspeptics, because it gives such universal satisfaction.

Mr. S. N. Earle's Studio, Newsom Block This studio has been open to the public Friday and Saturday during the summer months and several students have been taking advantage of Mr. Earle's instruction in voice culture, singing, piano and organ. Upwards of sixty-eight pupils attended the above the past season. This long established and most popular institution has been opened for the fall and winter months. It is necessary that students should send in their names at once as only a limited number of pupils will be taken. Special attention will be given to beginners and also to advanced pupils. 96, Wed and Sat. ft.
