"A BELL FOR ADANO," PRIZE-WINNING NOVEL COMES TO THE SCREEN

—"A Bell For Adano," the eagerly-awaited 20th Century-Fox filmization of John Hersey's Pulitzer prize-winning novel, starring Gene Tierney, John Hodiak and William Bendix, is scheduled to open at the Capitol Theatre.

Universally acclaimed as one of the finest stories to come out of this war, named by the Pulitzer Prize Committee as the best American novel of the year, "A Bell For Adano."

The story of an American who came in a jeep to a bomb-blasted town and saw a people without laughter and a woman without hope, and of how he conquered their fears with his courage, and her heart with his arms, blazes with superb drama, glorious romance and matchless emotion.

Marking her most important role to date, Gene Tierney appears as Tina, the fisherman's daughter; lovely, glamorous and lonely. John Hodiak is seen as Major Joppolo, who had the might of right in his fists, and the fire of the sun, moon and stars in his arms. William Bendix plas the role of Hodiak's burly but soft-hearted aide.

S'side Zoning By-Law Criticized At Meeting

Town To Have Daylight Saving Time; Truckmen Get Increase In Rates.

At the regular monthly meeting of the Summerside Town Council held last night Councillor Wedge voiced strong criticism of the present town by-law which regulates the zones designated as business and residential sections. Councillor Wedge expressed his opinion that this law was a definite protection for certain citizens and that it did not take into consideration the rights of others who were placed in those sections, known as the business sections, without regard to their personal feelings in the matter.

Last night's meeting was for some considerable time given over to a discussion of the possibilities of the erection of a new Town Hall which would be adequate to contain a community hall, with an approximate seating capacity of about 500 people.

It was pointed out by His Worship Mayor J. Frank Arnett, who presided, that the present Town Hall was definitely not adequate for the purposes it was called upon to meet. The present quarters of the Town Clerk and his staff must be enlarged due to the great increase in town business and facilities must be provided to house a quantity of town equipment which is at present without housing facilities.

It was agreed that Mayor Arnett would in the near future call a special meeting of the councillors to go into the proposed building plans in detail and ascertain the possibilities of disposing of the present civic building should it be decided to proceed with the erection of a new building suitable to meet all requirements.

Planning Committee Named

A town planning committee was appointed with the following members: M. L. Bradshaw, A.R. Brennan, L. W. Hancock, T. E. Hickey, Alex Horne, Donald Baker, H. T. Holman Jr., William Forbes, Lorne Driscoll. Also the following councillors who were to be members of the committee: William Smallman, Theron Morrison, Henry Wedge, and Mayor J. F. Arnett.

A petition was read signed by residents of Pleasant St. to have same paved and Councillor Gorrill assured the Council that several streets would be prepared this year for paving and that this street was included in the agenda.

In compliance with a petition signed by a large number of town business men the Council voted to adopt daylight saving time in Summerside beginning April 27th and ending on Sept. 28th.

Summerside truckmen were granted an increase of ten cents per load over the present existing rates in response to a petition signed by a large number of men engaged in the trucking business.

A resolution increasing the fee charged local restaurants from $10 to $50 annually was adopted. Councillor Wedge requesting a reason was informed by Councillor Mollison that in view of a future and more stringent inspection of restaurants it was felt by the Council that the increased cost of the perpetual inspection warranted the increase.

Charges Reckless Driving

Mayor Arnett drew the attention of Coun. Wedge to the fact that a great number of complaints have been coming in from the citizens of the Town regarding reckless driving of taxis which appears to have reached the stage where the lives of the citizens in general are endangered by these drivers.

His Worship requested Councillor Wedge to impress on the local police the fact that in future the law regarding reckless driving would be rigidly enforced. In connection with work carried out by the electric light committee in erecting a line to the local airport for the proposed beam it was explained by Mayor Arnett that due to the closing of the port the contract had been cancelled and the sum of $698 had been accepted in full payment of work done up to the time of cancellation.

A by-law to amend the present by-law re traffic was passed and in future no motor truck with an overall length of eighteen feet be allowed to park on Water Street. S

Modest Bathing Suit Question Still Unsolved

(By Doulas Amaron)

MONTREAL, April 15—(CP)—The provocative question of when does a bathing suit cease to be modest remained unanswered today when Msgr. J. A. Valois, directing a Montreal Roman Catholic diocesan campaign against immorality, disclosed that approved designs are not yet ready for public display.

A half dozen reporters, two cameramen and a designer of catchy swim suits were present today for what they expected to be a preview of swim suits a women's committee of the diocese has approved, but it appeared there had been a mistake.

The meeting with the tall, white-haired and congenial Monsignor was for press conference purposes and no swim suits were on display. One of the photographers left and the lady designer was advised that members of the committee would confer with her later.

A statement issued at the brief conference, at which the Monsignor spoke in both French and English, outlined the general objectives of the campaign with special emphasis on women's summer wear, especially eyebrow-raising swim suits.

With the approach of summer, the statement said, the diocesan committee of Catholic Action "wants to raise a cry of alarm against the immorality of certain summer costumes, particularly bathing suits, sun suits, shorts and young girls' dresses."

Immoral printed matter aroused sensuality and was provocative, but it was not as pernicious "as style creations which lead to a condition of undress more and more audacious among women, young girls and even men."

"Bathing suits, sun suits and shorts add nothing to a woman from a moral viewpoint, nor from an aesthetic viewpoint, and can on occasion harm her health."

Designers had set to work and with the advice of the women's committee had created several bathing suit models which were pretty and decent. This season's suits, however, already had been manufactured and were on sale and, because of rationing, material to make the new models was not sufficient to meet the demand.

It was hoped, however, that by next summer there would be an abundance of bathing suits "of irreproachable taste from every point of view."

Meantime, it was suggested that women and girls get to work on the bathing suits they possess now and make them modest, getting the help of a dress-maker if they are unable to make the alterations themselves.
