A LIFETIME OF SICKNESS

Worn Out, Thin and Miserable Until She Took "Fruit-a-lives"

"Stomach Trouble and Distressing Headaches nearly drove me wild. Some time ago, I got a box of 'Fruit-a-lives,' your famous fruit medicine, and they completely relieved me. To-day I am feeling fine and a physician, meeting me on the street, asked the reason for my improved appearance. I said, 'I am taking Fruit-a-lives.'" He said, 'If Fruit-a-lives make you look so well, go ahead and take them. They are doing more for you than I can.'"

Mrs. H. S. WILLIAMS. 50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

Island's Creditable Recruiting Record

(Continued from page one) of the staff is transacted and recruits enrolled. The Standing Orders for the day are as follows:—

Table with 2 columns: Activity and Time. Includes items like Reveille (6.30), Physical Exercise (7.15 to 7.45), Rations (7.30), Inspection of Rooms (7.30), Breakfast (8.0), Morning Parade (9 to 12), Orderly Room (10.0 to 12.30), Dinner (2 to 4.30), Afternoon Parade (2 to 4.30), Supper (5), Guard Mounting (5.30), Retreat (6.0), First Post (9.30), Last Post (10.0), Lights Out (10.20).

Route marches take place twice a week when they cover five or six miles in good style.

In the matter of amusement the men are being provided with a piano this week, which will be a great acquisition. Professor Barlow's services have been much appreciated at the concerts and the phonograph provides a good deal of amusement. There have been several applications for a place in the pipe band shortly to be formed, which will consist of 8 pipers and two drummers.

It is expected that the headquarters for the Battalion will be in Charlottetown until complete. The men are picking up the work splendidly, and often get the drill down inside of a week. The difference in their bearing and conduct is speedily apparent, while the good feeding and regular exercise make an astonishing difference in their physique in a remarkably short space of time.

With another couple of months' training they will be as efficient in marching as any unit on P.E. Island. Only seven men are required to complete the first establishment of 255 men, after which the succeeding companies will continue filling up their ranks until the battalion is complete.

The nominal roll will be published in a few days when the company is complete. The Guardian reporter while being shown through the quarters was told by one of the N.C.O.'s to state on behalf of the men that the report would not be complete without reference to the splendid officers that the men of the Company have the honour to serve under. They are strictly fair in all their dealings, painstaking in their efforts to secure the utmost efficiency in the men under their command, and most considerate of the men's personal comfort, which results in the best of comradeship which exists between all ranks in the company.

The winter promises to be a long and hard one, and many men will be out of work. The freeze-up may be expected in a few weeks, and various branches of industry will close down for the winter. To the crowds of young and husky men with which P.E.I. abounds, no better advice could be given than to throw in their lot with the New Highland Battalion at once. They will never regret the act, and it is one that will have a powerful influence in making them stronger, better and braver men in the great days to come. Every new recruit means another nail in the Kaiser's coffin. Be a nail!

West Kent School Wins Interscholastic Championship

At the Victoria Park yesterday afternoon the second and last game for the interscholastic championship between West Kent and Queen Square Schools was played, which resulted in a decisive victory for W. K. S. by the good score of 18 to 0. One of the features of the series was the wonderful runs by Drake of W. K. S. In the first game W. K. S. had it very easy beating them by 24 to 0. This time it was the closest for the first half played by any teams this year. The first half ended with no score with the ball in W. K. S. territory.

In the second half after about 10 minutes' play Drake got away and made the first score by a splendid run, which he followed up by three more touches. McEachern and Davis also got over with long runs. Lane, Cameron, Johnston, McLeod, Ross, Paoli also played an usually fast game. The fitness of the W. K. team belongs to the untiring efforts of Captain McLeod, coaches Lewis and Chandler. Stanley Ryan started for Queen Square by his wonderful tackling, kicking, and marvellous bursts of speed which would have resulted in touches if he had got away with the ball. Mr. Geo. Mahon refereed the game most satisfactorily.

The line-up was as follows: W. K. S. Halves: S. Ross, Stanley Ryan, W. Drake, E. Henry, H. Riggs, J. Hughes, R. Anderson, T. Francis. Forwards: R. Lane, M. Monaghan, H. Large, Ted Praught, J. MacEachern, T. McCauley. S. McLeod (Capt), G. Francis, Paoli, Frankis Trainor, H. Cameron, Ernie McQuaid, T. Waver, Johnnie Connolly, B. Davies, Willie Praught, R. Nelson, A. Burns, E. Ferguson, Alex. McDonald (Other papers please copy).

PERSONALS

Hon. John McLean returned last night from Ottawa. Hon. Chas. Dalton returned last night from a visit to Vancouver and other Western cities.

Mr. Gerald McCarthy, Principal, Georgetown High School spent Sunday in Charlottetown.—T.

Mr. Wendell Jay, Fanning Brook has returned home after a pleasant visit to Mr. and Mrs. W. Swan, City.

Mr. Ban Robertson of the 9th C.M.R. has arrived from Camp Hughes, Manitoba, on a visit to his parents, Mr and Mrs Peter McN., Robertson, of Marshfield.

Major Louis H. Beer whose name has been mentioned in connection with the command of one of the two infantry regiments proposed to be raised here arrived in Summerside last night.

CANADIANS DIG WELLS AT LEMNOS.

LONDON, Nov. 15.—When the first British naval forces landed at Lemnos, near the entrance of the Dardanelles, they were surprised to find that the island, which has an area of nearly 30,000, was practically destitute of drinking water, except for uncertain supplies from a few small springs.

The Allied troops were supplied with mineral water sent in shiploads through the generosity of a French woman in Marseilles.

The British authorities promptly sent to Canada for engineers, who are now engaged in sinking artesian wells which will guarantee the people of Lemnos a reliable and abundant water supply.

Kitchener Against German Kaiser

NEW YORK, Nov. 16.—A cable to Herald from London this morning says: It is Kitchener against the Kaiser and his bribe-givers at Athens, where King Constantine and his puppet cabinet are trying to serve mammon, but all despatches from this main centre of Austro-German intrigue indicate that the mere presence of Lord Kitchener in the near east theatre of war foreshadows a victory for the Quadruple Entente, that Germany thoroughly understands. That an immense influence will be exerted by the trip of Lord Kitchener to the Balkans, even if he does not meet King Constantine, is proved by the sudden despatch of a German military mission, one of the members of which is a Royal prince, and the arrival of Count Berchtold, Austria's Foreign Minister, to urge the King to cast his lot with the Central Powers.

The King, however, fears the Franco-British fleet, which is reported to be ready, with steam up near Malta, to make a demonstration, if the diplomats of the Entente discover tangible evidence that the Hellenic Monarch contemplates following the treacherous example of King Ferdinand of Bulgaria.

But the greatest influence of all is the Serbo-French troops in Serbia. The Entente diplomats, once burned, twice shy, undoubtedly distrust the Greek ministry, as accomplices in the Greek King's destruction of the constitution. All the newspapers here unite in demanding that Entente Powers shall take such drastic action that those who have stifled the will of the people of Greece may read as they read, that treachery will mean annihilation.

Despite the threats of the Kaiser and the bribe-giving propaganda of his agents, the belief is growing that the fear of the loss of his crown and kingdom outweighs the King's fear of his German Consort and his frightful brother-in-law, the Kaiser.

If, however, he should unexpectedly turn traitor to the Powers that have consistently aided the growth of Greece to her present enviable position, all the newspapers, from the Daily Telegraph down to the Daily Mail, insist that the Entente Powers will never rest until his perfidy is completely avenged."

S.S. ADRIATIC REPORTED SUNK

Not White Star Liner but is Supposed to be British Steamer.

NEW YORK, N. Y., Nov. 16.—There was a report this morning in maritime circles that the steamship Adriatic had been sunk, but the report did not state whether the steamship was the big passenger-ship of the White Star Line, or was the British steamship Adriatic, which left Kymassay, Greece, on October 13 for Philadelphia and passed Tarifa, Spain, on October 19.

The White Star Liner Adriatic arrived in Liverpool on November 11 and was not scheduled to leave for New York until November 24. Later a report became current on the maritime exchange that it was the Adriatic of the White Star Line that was in trouble. The other steamship Adriatic, the bound for Philadelphia from Kymassay, should be about in mid-Atlantic today.

Officials of the White Star Line said this morning that they had no information regarding the Adriatic, other than that she had arrived safely last Thursday in Liverpool.

They did not credit the report. David Lindsay, assistant to Mr. Jeffrey, the passenger manager of the White Star Line, said that he was most positive that the Adriatic was still at Liverpool.

The Adriatic was heavily laden when she left New York," said Mr. Lindsay, "and it will take at least three days to unload her, and as many more to load the steamship for her return voyage to this port. She was not scheduled to sail for New York until November 24."

NEEDS OF UNDER DRAINS.

This summer has been a great mover for underdrainage. Land that has struggled through with a fair crop for many years has been beaten at last by the excessive rainfall, in spite of the best efforts of its owners. The ditches that have been made to temporarily take care of the excess water have had to be made, very often, at the expense of portions of the standing crop, especially in grain fields, and where hood crops, have been killed up so as to make a drainage furrow between the rows much soil-washing has occurred where the

Below the illustration, it says 'Master WORKMAN SMOKING TOBACCO is also put up in packages, and is CUT from the Genuine PLUG. Same fine aroma—Same delicious taste—SOLD EVERYWHERE.'

case, as an exact understanding of this important part of the system will save money and subsequent worry for the man who is to get the benefit of the drains.

Sybil, now the days grow colder, Shrewdly bites the evening air. Soon those furs about your shoulder You may cease to wear. Through the long hot days of summer, Snugly wrapped has been your throat. Soon, although it is a hummer, You may crop that sweater coat. Winted speedily is napping. Very shortly, Sybil you On the streets may be appearing In a flimsy peek-a-boo. All the heavy garb you're wearing 'n the dear old year may cast And you lovelily neck be bearing. To the cold and w'ry blast Sybil you should p'w begin to Shake the garb that warmly clings, For we're coming on to winter, For we're coming on to winter, When you'll need your summer things. —DETROIT FREE PRESS.'

of the land has been favorable, with the result that the roots of plants have been left bare in many instances. Natural surface drainage can be improved on by the use of underground tile, not only in exceptionally wet seasons, when flooding occurs, but in seasons of near drought, when a large storage of the water from Spring rains or melted snow is necessary. The work of laying the tile for drains needs some care, but can be done by any farm hand well supervised by the owner of the place, and an engineer for the planning of the system is not necessary unless a big work is being undertaken. However, drainage surveys are made free of charge by the Department of Physics O. A. C., Guelph, and the only expense is the railway fare and meals of the drainage advisers. One of the great benefits from the experience of a qualified adviser is the knowledge of the right size of tile to use in every

FRENCH STEAMER LOST IN BIG GALE. LONDON, Nov. 16.—Many of the smaller shipping craft have been lost as a result of the recent gale. The French steamer Saint Malo (121 tons) turned turtle near Guernsey, all on board being lost. MISSOURIAN ONE OF THEM. My friend, the novelist tells me this story of Winston Churchill: The author once met an old Missouri friend on Broadway New York. Seth had left Missouri a raw country boy but was now finely dressed and had acquired all the polish a big city can give. "Doing well, eh Seth?" asked Churchill. "Yap—doin' fine. Suppose you saw 'bout me in the papers yesterday?" "No," replied Churchill, "I didn't What was it?" Why they said that figures showed there are over 5,000,000 people in New York. "Well—?" "I'm one of them."

Advertisement for A Remedy For All Pain. Text: 'The efficiency of any drug' says Dr. C.P. Robbins, 'is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for, i. e. something to relieve his pain. If we can arrest this promptly, the patient is most liable to trust in us for the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is Anti-kamnia Tablets. Many and varied are the uses. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headaches of malarial origin, where quinine had had after-effects of the quinine. Anti-kamnia Tablets are also excellent for the headaches from improper digestion; also for headaches of a neuralgic origin, and especially for women subjects to pain at certain times. Two Anti-kamnia Tablets give prompt relief, and in a short time the patient is able to go about as usual.' These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also unexcelled for headaches, neuralgia and all pains.

BRINGING UP FATHER

Comic strip 'Bringing Up Father' showing a conversation between a man and a woman. The man says: 'YOU MEAN TO TELL ME YOU DON'T BELIEVE IN MIRACLES?' The woman replies: 'YOU HEARD WHAT I SAID!' The man says: 'WELL, WHAT WOULD YOU CALL IT IF YOU FELL TEN STORIES AND LIT ON YOUR HEAD AND DIDN'T HURT YOURSELF?' The woman replies: 'THAT'S JUST AN ACCIDENT!' The man says: 'BUT SUPPOSE IT HAPPENED THE NEXT DAY TOO?' The woman replies: 'THAT'S JUST A COINCIDENCE!' The man says: 'WELL, THEN SUPPOSE IT HAPPENED THE THIRD TIME?' The woman replies: 'WHAT—FALL THREE TIMES?' The man says: 'THAT'S A HABIT!'
