..\*BELLVIEW ICE HORSE RACES —  
The horse races held on the mill  
pond at Bellview on Friday last the  
15th, were a grand success, and were  
closely contested, there was a good  
field of horses and a large crowd in  
attendance. There were two classes  
called the Free-For-All, trot and pace,  
and a green race. The free for all had  
three starters Brazilian Boy, Munroe  
Bruce, Valleyfield; Commodore Wilkes,  
William Ross, Eldon; and Hilda,  
John McPhee, Bellevue. The horses  
did not give an even score, Com-  
modore Wilkes taking the lead, he  
held until the three quarter mile  
was reached, where he was passed by  
Brazilian Boy, who won the heat,  
Commodore Wilkes second, Hilda  
third. The second heat went to Com-  
modore Wilkes, Brazilian Boy finish-  
ing second, on account of a bad  
boot, Hilda third. The third heat was  
a repetition of the first, and Brazilian  
Boy, won the heat and first money. In  
the Green Race started, Smuggler,  
Malcolm McPherson, Bellevue; Ruby,  
John McKinnon, Grandview; Mazie,  
Bruce McLellan, Grandview. This race  
was won in straight heats, by Smug-  
ger, with Ruby, second and Mazie,  
third money. The officials were, Arch-  
ie Matheson and Alexander McPherson,  
Starters, with James Finlayson,  
and R. C. McDonald, Judges. The  
management was to be congratulated  
on the splendid manner in which the  
races were conducted. And every-  
body looks forward to the time when  
they can again have such another  
meet.—B.

..\*NO GROG, NO POKERS;  
TARKS KNIT SOCKS  
WASHINGTON, Jan. 15.—With grape  
juice virtually the only means of re-  
laxation and poker regarded rather  
dubiously in high circles, the Sam's  
navy officers afloat, have taken up  
knitting to break the monotony of the  
long hours of the watch. As a conse-  
quence many otherwise scantily-clad  
Belgians are enjoying the warm com-  
fort of woollen scarfs and mufflers  
made by American engineers, lieuten-  
ants, captains, and perhaps by some  
of even higher rank.

The Belgian Relief Committee to-  
day received from an officer of the  
battleship Florida a woollen scarf, ac-  
companied by a card which said:  
"My kindest regards to the fellow  
who is to wear this scarf. I know  
of no better way of showing my feel-  
ing for him than to make a piece of  
wearing apparel for him myself."  
The note also promised more gifts  
of the kind from the same donor, and  
some of his associates on the Florida  
who have turned to knitting away the  
idle hours.

The officer's name had been  
scratched off the card, though his  
naval rank was still legible. Mrs. John  
A. Logan, chairman of the committee,  
said it was not the first piece of naval  
knitting received for the Belgians.

**TURKS ADVANCING  
ON SUEZ CANAL**  
CARO, Egypt, Jan. 15.—The Turk-  
ish forces advancing toward the Suez  
Canal number 40,000 men. Their artill-  
ery includes many guns of the most  
modern type, believed to have been  
sent to Turkey from Germany. British  
aviators brought this information to  
English headquarters today. They  
made a flight of 80 miles and got com-  
plete details of the Turks equipment.

In the three northwest Provinces of  
Manitoba, Saskatchewan and Alberta,  
the production in 1914 of wheat is  
placed at 140,955,000 bushels compared  
with 209,262,000 bushels in 1913, of  
oats at 150,843,000 bushels compared  
with 242,413,000 bushels and of bar-  
ley at 19,535,000 bushels compared  
with 31,060,000 bushels. The wheat  
production of 1914 in Manitoba was  
38,606,000 bushels from 2,616,000 acres,  
in Saskatchewan 73,494,000 bushels  
from 5,348,300 acres and in Alberta  
28,859,000 bushels from 1,371,100 acres.

Computed at average local market  
prices the value of these crops in  
1914 were as follows: Wheat, \$196,  
418,000, oats \$151,811,000, barley \$21,  
557,000, rye, \$1,679,300, peas \$4,895,000,  
beans, \$1,844,300, buckwheat, \$6,213,  
000, mixed grains, \$10,759,400, flax,  
\$7,800,000 and corn for husking, \$9,  
808,000. For all field crops, including  
root and fodder crops, the total value  
amounts to \$639,061,300, as compared  
with \$552,771,500 in 1913, the increase  
of \$86,289,800 being chiefly due to the  
enhancement of prices, which has  
been far more than counterbalanced  
by the low yields of grain in consequence  
of the drought.

**WHEAT, OATS AND BARLEY IN  
THE NORTHWEST PROVINCES**  
The situation is serious in the Twin  
Cities as there are 1400 men register-  
ed. At present the government is help-  
ing a large number in their homes. A  
great many are railway laborers who  
have come in from the C. N. R., and  
other camps.

It has been suggested by the munic-  
ipal authorities that the interred  
aliens should be employed on road  
work. The government does not want  
them to compete with Canadian lab-  
or. They can be brought east to the  
experimental farm site at Kapuskasing  
west of Cochrane, or sent West to  
some employment camp that will be  
established. The latter plan is more  
likely to be adopted.

**Various Forms  
Of Headache**  
"It is necessary in order to treat head-  
aches properly to understand the causes  
which produce the affection," says Dr. J. W.  
Hay of Blockton, Ala. Continuing, he says:  
"Physicians cannot even begin the treat-  
ment of a disease without knowing what  
causes give rise to it, and we must remem-  
ber that headache is not a disease, but a  
symptom of some other ailment. Accord-  
ing to the same rule, we must not only be  
particular to give a remedy intended to coun-  
teract the cause, but we must also give a remedy  
to relieve the pain until the cause of the trouble  
has been removed. To answer this purpose  
Anti-kammia Tablets will be found a most  
convenient and satisfactory remedy. One  
tablet every one to three hours gives comfort  
and rest in the most severe cases of headache,  
neuritis and particularly the headaches  
of women."

When we have a patient subject to regular  
attacks of sick headache, we should caution  
him to keep his bowels regular, for which  
nothing is better than "Actoids," and when  
he feels the first sign of an oncoming  
attack, he should take two or three  
tablets. Such patients should always be instructed  
to carry a supply of Anti-kammia Tablets, so as to  
have them ready for instant use. These  
tablets are prompt in action, and can be  
depended on for prompt relief in a very  
few minutes. Ask for A-K Tablets.  
Anti-kammia Tablets can be obtained at all  
druggists.

**SEEKS TO EMPLOY  
INTERNO ALIENS.**  
OTTAWA, Ont., Jan. 19.—General  
Sir William Otter has gone to Fort  
William to arrange about the intern-  
ment of Austrians and Germans there  
and at Fort Arthur, and also to see  
what can be done to provide employ-  
ment.

The situation is serious in the Twin  
Cities as there are 1400 men register-  
ed. At present the government is help-  
ing a large number in their homes. A

**In 12,000 Shares of \$25 Each**

The Glenaladale Silver Black Fox Company Ltd., earned one  
hundred per cent dividend in 1913-4. The prospects for 1914-5 are  
such as to give reasonable anticipations of at least 50 per cent  
dividend.

The Company has no "watered" stock, and commission on the  
sale of shares is limited to a maximum of fifteen per cent, but ar-  
rangements have been made whereby no more than ten per cent  
shall be paid, the Secretary-Treasurer handling the bulk of the  
issue direct.
