Says Normandie Must be balanced To be re-floated

(By Larry Hauck, Associated Press Staff Writer) NEW YORK, Feb. 12 (AP)—The designer of the capsized Normandie said today that the fallen giant could be righted only by its own buoyancy and estimated the job would take five months. "Men and machines aren't powerful enough," Vladimir I. Your-

Kevitch declared. "The Normandie will have to save itself." As the first step in salvaging the fire-scared \$90,000,000 liner that was the pride of France, he said all openings and vents in the ship's upper part, now under water, must be repaired and the compartments pumped free of water. Then he would pour 6,000 tons of water into the double bottom and fill other lower compartments to help create buoyancy.

C. N. R. REVENUE UP MONTREAL, Feb. 10 (CP)—Increase of \$1,534,000 is reported by Canadian National Railways in gross revenues of \$6,439,000 for the week ended Feb. 7, compared with \$4,905,000 for the corresponding week last year.

RENTAL OFFICIALS' VISIT.—Two officials of the Rental Ceilings organization were in the city yesterday, and left in the afternoon for Summerside. They were Mr. Robert Stanfield, Truro, Rental Administrator for P. E. I. and Nova Scotia, and Mr. W. H. Jost, Halifax, Enforcement Counsel for the same area. They were in conference with Mr. J. Gordon Macdonald, of the War Time Prices and Trade Board, who will handle any questions that may arise. Mr. Jost stated that they were very favourably impressed with the situation here, and the hearty co-operation afforded them in the enforcement of the act.

TELEPHONE MEETING.—The annual meeting of the Marshfield Dunstaffnage Telephone Company was held in the hall Feb. 9th with a good attendance. The financial and other reports showed a very satisfactory year. This Company have adopted the plan of estimating the tolls in advance which has been found very satisfactory. The Directors were instructed to keep the line in first class condition and to increase the line tax if found necessary for replacement and other repairs. One half mile of line is now being replaced with new wire. The following Directors were appointed: W. J. Jenkins Pres., Almon Wood Vice Pres., Alex Scott, C. W. Robertson and Alfred Reid. Borden Boswell was appointed to look after the line and Harold Stewart is making the replacements.

ISLAND GIRL JOINS C.W.A.A.F.—Miss Edna LePage employee of the Dominion Government, Ottawa left recently for her training at the Manning Depot. Prior to her departure, she was tendered a farewell by Misses Belle and Emily Foster, 224 Lyon St. Ottawa, who was presented with a parting gift as a token of the esteem in which she is held by her Ottawa friends. An enjoyable evening of games and social intercourse, at the close of which a typically "Island" lunch was served by the hostesses. After spending some time at Toronto, Miss LePage will proceed to St. Thomas to complete her training in the military hospital there. The above mentioned Miss LePage is the daughter of Mr. and Mrs. Oliver LePage of New Glasgow, and a niece of Lieutenant Governor LePage of this province.

In Memoriam

Johnson at Trenton, N. J. Funeral services were held Tuesday morning at St. Mary's Church, Denville, and interment was in Rockaway near Cemetery. She is survived by her sisters, Miss Catherine Wynne of Philadelphia, Pa., Sister Vincent of Rome, New York City, and Miss Agnes Wynne of Amesbury, Mass. Mrs. Mary Cahill of New Wiltshire, P. E. I., and Mrs. Anna Cummings, Prince Edward Island, Canada, Vincent Wynne of Dorchester, Mass. and Gregory Wynne of Rockland, Maine.

Can The Deafened Hear Again?

Medical authorities say yes—in many cases. Aurine Ear Balsam, a prescription, has proven a blessing to many deafened people. Used since 1895 by those who are deafened and bothered by ringing, buzzing head noises due to hardened or congested wax (cerumen). Over a million packages sold, making a no-risk test. Must satisfy or money refunded. Ask today for Aurine Ear Balsam at The Jenkins Pharmacy or other leading druggists.

How Are Your Eyes?

If you are having symptoms of strain — headaches, sore eyes or dizziness — consult specialist. At your service with year of experience and a thorough refracting service. Call in and discuss your difficulties.

G. F. Hutcheson F. G. HUTCHESON G. F. HUTCHESON

Livestock Production Is Major Factor In General Scheme.

TORONTO, Feb. 11 (CP)—Canada's 1942 agricultural program calls for increased production in all feed producing crops across the Dominion with special emphasis on coarse grains, Dr. G. S. H. Barton, Federal Deputy Minister of Agriculture, told the Ontario Crop Improvement Association today. In a review of probable agricultural requirements for the year, with livestock production a major factor, Dr. Barton said that apart from wheat Canada had less than a month's feed supply on hand before the 1941 crop was harvested and termed this a "very unsafe position."

Each Canada could not "coast along" in feed production, assuming it could look to the west for all the supplies it needed and receiving public money to bring them east. Free freight for feed was justifiable under war emergency conditions but it was doubtful if it could be considered sound practice except on a purely supplementary basis. The west was in a position to increase its coarse grains acreage and livestock producers should begin to raise output by 25 per cent over last year.

Fluid milk requirements would probably require an increase of 500,000,000 pounds, half the increase attained in 1941. With respect to labor, Dr. Barton said that perhaps the best which could be hoped for was that every productive farm would have experienced direction whether operated as a unit or in conjunction with some other farm, and that sufficient labor would be obtained to man the key positions.

Under the planned fertilizer assistance policy it was proposed that suitable formulas be approved by provincial fertilizer boards, and a definite part of the fertilizer cost be paid by the Dominion government for fertilizer applied to specified crops including spring wheat, barley, oats and mixed grain, hay crops and pasture, mangolds, turnips and corn for huskings and ensilage.

Problems had arisen in the canning industry because of restricted supplies but this condition was being dealt with. Weight adjustments might have to be made, an increase in certain vegetable crops was desired for canning—notably peas, corn and green beans—and for fresh vegetables and dehydration turnips, onions, beets and cabbage. "It would appear that a 25-per cent increase in these crops will be needed," Dr. Barton said.

Cooperation in farm operations and the use of machinery, exploration and use of sources of supplementary labor, community interest and assistance at peak periods of need, were some of the means already partly employed which could be developed to meet urgent labor needs, Dr. Barton said.

Ground Men Of Air Force Play big role

Montague Man Included In Ground Crew Of R. A. F. Station Overseas.

By Louis V. Hunter Canadian Press Staff Writer A ROYAL AIR FORCE STATION SOMEWHERE IN ENGLAND, Feb. 11 (CP)—Ground crews are the forgotten men of the air force. The men "behind the lines" in Britain's air war, they play a silent, unspectacular role in keeping the big bombers in the air. Their work never brings them into the headlines but they are "tops" with the men who fly the machines and there is a kind of mutual admiration between them. A bomber is as good as its ground crew. Fliers can't feel safe in the air unless they have confidence in the men who service their machines on the ground. That is why, in the opinion of officers of a Royal Canadian Air Force Wellington squadron stationed here, "it is imperative to have very good ground crews—and we have."

Maritime Provinces, Ontario, Saskatchewan, Alberta and British Columbia. Their only complaint was that bad weather was keeping their planes on the ground and there wasn't enough work to do. AC, Frank Osmond of Truro, N. S., who worked in a knitting mill making underwear for soldiers, said his job as a flight mechanic required him to see that his bomber had enough gas and oil. He does minor repairs and tunes up the engines before the aircraft takes off on a raid. His companions included AC, Don Mellenan, Annapolis Royal, N.S.; Lac, Ernest D'gout, St. Peters, N.S.; AC Melvin Lunney, Minto, N.B. and AC, Alwood MacDonald, Montague, P.E.I.
