Spurgeon Gammon of New Glasgow has the following in his Provincial Letter in the American Horse Breeder this week: In a letter to a friend here, Trainer Fred Cameron, formerly of Charlottetown, P. E. Fred has been west for some years, being employed as trainer on the Hopper Farm, the home of Expedition (2.15), Rediac (2.07), and other noted horses. A resident of Montague, who has been a clerk in his uncle's store over fifty years ago at Orwell Head, writes the following information concerning the different prices farmers get for their produce, eggs, milk and poultry today, to fifty years ago. The writer says that the farmer's wife had to give eight dozen of eggs for one pound of tea and four bushels of oats for the same quantity. Flour was then from ten to twelve dollars a barrel, sugar 7c., molasses 50c., cottons and prints of all kinds were from 16 to 25c. per yard, boots and shoes dearer than they are now, and the farmer was only getting 15c. per bushel for his oats and potatoes, one dollar for a lamb, \$2.00 for a sheep, \$10 to \$15 for his best cow, \$68 to \$70 for his best horse. The only article that was cheap then was Scotch whiskey, which was sold for 80c. per gallon, and is now sold at Montague for 80c. a pint. Now on P. E. I. land the farmer can get 8 lbs. of tea for 8 doz. of eggs and 8 lbs. of tea for 4 bushels of oats, and 60c. per bushel for his potatoes and if you don't grow wheat you can get a barrel of flour at the Montague mills for \$4.50. No better flour a person wants in his house. Cottons, prints and all kinds of dry goods at half the price they were 50 years ago. And now I think the farmer should be rich when he gets \$5 for a sheep, \$35 for a lamb, \$30 to \$60 for a cow, \$150 to \$250 for a horse, \$1 for a hundred pounds of milk to be made into butter or cheese. Now the farmer should prosper as they are doing when they get such prices to what the farmer of fifty years ago was getting. Great contrast between the year 1857 and year 1912 when 1 pound of tea can be bought now for 12 eggs, and then for 96 eggs. Year 1857 eggs 8c. per doz., tea 64c. per lb.—M.

A large sheet of ice was cleared, and the remainder of the sporty portion of the community showed their appreciation of the willing workers by skating till a late hour. Many good times would be missed in Tryon were it not for the benevolent influence of the above mentioned gentlemen.

An event of more than ordinary interest took place on the morning of the 5th inst, at the hour of nine o'clock at the home of her uncle, John McGoigan, Kensington, when Miss Clara Stewart, daughter of Albert Stewart, Park Corner, was united in marriage to Capt. The bride was beautifully attired in a travelling suit of steel grey broad cloth, and black hat with ostrich plumes. The happy couple left on the morning train for their future home in Swift Current. The numerous wedding gifts gave evidence of the high esteem in which bride and groom are held by their many friends who very heartily join in wishing them a happy journey through life. At the late Ecumenical Methodist Conference held at Toronto, it was agreed to have an Ecumenical day on which a pastoral should be read in all Methodist Churches. That message was read in Charlottetown lately. The Methodist Church is now the leading Protestant body in Canada and is now world-wide in its dimensions. The amazing fact is chronicled that if the arrangement made at the Toronto Conference was fully carried out then one hundred thousand Methodist congregations in all parts of the globe listened to this evangelical if all the adherents of Methodism heard it then it fell on the ears of 30,000,000 of people, who own kinship with the Methodist family. Should this large body in Canada be amalgamated with the Presbyterian, ranking second in strength with the Methodists in the Dominion, and then the Congregationalists incorporated, would not this strong cord present the most wonderful spectacle ever gazed upon in the ecclesiastical world?

On Monday, Feb. 19th, at Palmer Road, a very gratifying basket social was held. A large number of people attended it, and a most splendid evening was spent in the magnificent hall. The baskets were plentiful and were well sold. This was chiefly due to the fact that the proceeds were to be deposited as church funds. Some ninety-four dollars were realized. Rev. P. C. Gauthier, Parish Priest, was presented the sum of two hundred dollars, collected in the parish. Two addresses, one in English, the other in French, were read to the reverend gentleman by Dr. S. H. Gillis of St. Louis and M. W. Hedge, Palmer Road, teacher. He replied to them in a most suitable manner. No wonder the inhabitants of Palmer Road are so generous in dealing with Father Gauthier; he undergoes so much hardship in their behalf, and works so courageously both spiritually and materially for their welfare. The work he does speaks for itself. (Summerside Journal and Pioneer please copy.)
