BOYS LEFT ON YACHT IS THEORY

Possibility of Missing Lads Having Gone to Nova Scotia Being Investigated By Police.

The mysterious disappearance of Gilbert Moore, 14, and Billy Downing, 10, is being associated by the police with the equally mysterious disappearance from Charlottetown Harbor some time during Wednesday night of the racing yacht "Zenith" property of Mr. Frederick Morris. This theory of the Mount-Edwards police is supported by the fact that on Thursday a boat believed to be the "Zenith" was seen off the coast with two boys answering to the appearance of the lads sought. Additional grounds for the

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC

- **Announcements are inserted in this column at 2 cents per word strictly payable in advance.
- **Dr. Carson's office is now open. 1199-6-16-21

Officer Learns Secrets

Boards Laden Schooner Off Nfld. Coast In Quest of Rum Runner.

(Canadian Press)
ST. JOHN'S, Nfld., June 16—A drama of Newfoundland's rum row, in which a customs officer who boarded a liquor laden schooner in the guise of a rum-runner played the pleading part, was disclosed today.
Menaced by pistols in the hands of the vessel's crew when he revealed his identity, the officer, collector of customs W. A. King, was given the alternatives of abandoning his capture or being carried a prisoner to sea. He chose the former course.
King was in command of a patrol boat cruising in Bay of Islands when he approached the craft, which he recognized as a liquor vessel. As his ship drew up alongside he was surprised to receive a friendly hail and an invitation to come aboard.
He boarded the schooner and the skipper immediately welcomed him as a ship-to-shore runner and asked him to come into the cabin to "talk business." King played up to the role and followed him down the companionway.
After the officer had answered questions regarding other ships ex-

Anticipate Increasing Demand For Timber

(Continued on Page 3)
OTTAWA, June 16—(C.P.)—An increasing demand for Canadian timber during the coming season is anticipated by British timber importers who visited the Canadian exhibit at the Manchester building trades exhibition in May, according to a report on the exhibition received by the Department of Trade and Commerce, Ottawa. The report stated that the attendance at the exhibition was made up to a large extent of buyers directly interested in building trade products. As a result a very satisfactory number of inquiries were received by the Canadian Government officials and by Canadian firms who exhibited independently. The report says — "From conversations with a number of timber importers it is evident that there will be an increasing demand for Canadian timber during the coming season. In fact several importers expressed the fear that there might not be sufficient supplies available to meet the demand."

Rotary Concludes Two Day Session At St. John

Mr. Wilfred Boulter, of This City Was One of the Principal Speakers Yesterday.

(Canadian Press)
SAINT JOHN, N. B., June 16—Efforts of Rotarians in behalf of crippled children and underprivileged boys were featured in address delivered today at the closing session of the two-day conference of clubs of the 32nd District Rotary International.
Wilfred Boulter, of Charlottetown, outlined the work being done for crippled children, and Rev. Ross Flemington, of Sackville, member of the faculty of Mount Allison University, talked on "Rotary and the boy."

Canadian West Sweltering In Grim Heat Wave

Terrific Heat Threatens Damage To Sprouting Wheat Crop—One Death Reported—Mercury Wavers Around 100

(Canadian Press)
WINNIPEG, June 16—Summer's first sustained heat attack had taken a grim grip on the Canadian West tonight. The wave had claimed at least one life and threatened damage to sprouting wheat crops as Old Sol chased the mercury in a dizzy ascent to new high marks.
The heat wave was most pronounced in Alberta and Saskatchewan where torrid weather has persisted for five successive days. Already scorched by the burning rays, prairie citizens gasped as thermometers recorded century marks and better at 13 widely scattered points.
First death from prostration was reported at Lethbridge, in Southern Alberta, where Mike Kukuro, beet worker, succumbed to the intense heat. Heat "honors" for the Dominion went to Kindersley, in Saskatchewan, where the temperature had risen to 104 degrees, a new record for the date.
High readings of 102 were registered at Medicine Hat, in Southern Alberta, and at Empress, Elbow, Kamsack, Consul, Shaunavon and Moose Jaw, in Saskatchewan. Heat was most oppressive in the cities. In the country, farmers herded their cattle to nearby watering places, preferring to work their fields at night to escape the burning sun.
There was a cooler side to the weather report, too. Ice was reported still in the river at Churchill, Manitoba's baby seaport and along the coast of Hudson Bay, in the vicinity of the port. The temperature was 38 above, with cool northwest winds prevailing.

Germany Asks For Return Of Possessions

LONDON, June 16—(A.P.)—For the first time since she was stripped of all her overseas possessions after the war, Germany officially asked the world today for an African Empire or other new territories.
The appeal was laid before the Economic Conference of the World Economic Conference by Dr. Alfred Hugenberg, who holds the two ministries of Economics and Agriculture in the Hitler Cabinet.
He said there were two possible ways to increase Germany's capacity to meet her international debts — by giving her an African Empire where large public works could be carried out or by opening other territories to "this people which has not had enough space in which to live."
Dr. Hugenberg presented the German views in a 10-page memorandum, largely a plea for debt alleviation. It was submitted as negotiation proceeded over the German moratorium halting virtually all Germany's foreign debt payments.

Steel Industry Records Rise

YOUNGSTON, O., June 16—(A.P.)—Even as President Roosevelt was signing the National Industrial Recovery Act today, the steel industry was moving in several sectors to give employes a greater voice in its management as a direct result of that Act.
Approximately 7,500 employes of the Republic Steel Corporation in this and the Warren district today were nominating 18 representatives to act for them on a joint committee in all matters relating to wages, working conditions, welfare, sanitation and general conditions affecting workers and the company.

Bandits Escape With Sheriff

BOLIVAR, MO., June 16—(A.P.)—Charles (Pretty Boy) Floyd, notorious Oklahoma outlaw, and a companion, Adam Richetti, kidnaped Sheriff Jack Killingsworth here today and drove away in a stolen automobile, eluding pursuit.
The Sheriff strolled into a garage where Floyd and Richetti had lined bystanders against the wall at the point of revolvers while their disabled automobile was being repaired. The Sheriff was covered with a machine gun, forced into an automobile belonging to Joe Richetti, mechanic at the garage and Adam's brother. The desperadoes dashed out of town.

Mattern Is Still Missing

Texas Aviator Unreported Since Hopping Off For Nome, Alaska.

(Associated Press)
NOME, Alaska, June 16—Clouds and fogs which kept Alaska planes grounded today concealed the fate of Jimmie Mattern, Texas aviator who hopped off Wednesday from Khabrovsk, Siberia, for Nome, Alaska, on his round-the-world flight.
Even were weather conditions favorable a search for Mattern would be comparable to looking for the proverbial needle in the haystack—he might be anywhere within an area of thousands of square miles of sparsely inhabited land, isolated by lack of speedy communication with the outside world.
The flyers fuel supply would have been exhausted at 8:30 p.m. E. S. T. last night had he remained in the air, but residents of Nome believed he had come down somewhere many hours before that.
Numerous small settlements of natives and traders are scattered along the Bering Sea rim. If Mattern's plane was damaged in landing it might be weeks before he would be able to reach a place where he could send out word, even with the willing cooperation of the natives.

Roosevelt Has Virtual Power Of A Dictator

By Francis M. Stephenson,
Associated Press Staff Writer.
WASHINGTON, June 16—(A.P.)—President Franklin Roosevelt took over unprecedented peace-time control of United States affairs today by attaching his name to the last of the bills given him by Congress to battle the emergency.
Mr. Roosevelt, happy at the adjournment of Congress, became serious as he signed the Public Works-Industrial Control measure.

C. W. L. Elect New President

(Canadian Press)
QUEBEC, June 16—Delegates to the annual convention today elected Mrs. J. C. Keenan of Toronto President of the Catholic Women's League of Canada for the ensuing year. Mrs. Keenan was first Vice-President this past year, and succeeded Mrs. W. J. MacIntyre of Charlottetown in the Presidency.

Transportation Situation Shows An Improvement

(Canadian Press)
OTTAWA, June 16—The transportation situation in Canada is showing considerable improvement and reflects the increasing confidence of the buying public and improving internal and external commerce, according to a bulletin issued by the Department of Trade and Commerce. Carloadings for the week ending June 10 numbered 40,842 cars, an increase of nearly 2,000 cars over the preceding week and representing the largest movement of freight in 34 weeks.

Fixed Rate For British And U.S. Currencies Aim

U.S. President Denies All Knowledge Of Tentative Agreement—Premier Bennett Represents Can. On Monetary Committee

(By Claude A. Jagger, Associated Press Staff Writer)
LONDON, June 16—An agreement for the stabilization of British and United States currencies, which the French Government insists is the first essential for any progress in the World Economic Conference, was said in American delegation quarters tonight to be fairly complete save for the vital matter as to the rates at which control should begin.
(President Roosevelt said in Washington today that he had heard nothing from the London conference in the way of a suggestion for currency stabilization and he asserted that the conference neither would nor could do anything about stabilization unless the action is approved by the President, the acting Secretary of State and the Secretary of the Treasury).
It was explained in well informed quarters that the level of \$4.05 at which it was rumored in financial and conference circles that stabilization was likely to start had been used merely hypothetically by experts for the purpose of discussion, but that no agreement had yet been reached as to the level.
Earlier today Georges Bonnet, French Finance Minister, indicated he had considered the American delegation had agreed to dollar stabilization when he acceded to the election of James M. Cox as chairman of the Monetary Commission.
The pound closed here today at \$4.05 1/2, up one-half cent over yesterday's final quotation.
If the pound and the dollar should be stabilized with relation to each other somewhat above \$4, it was explained that this would

Ch'town Lady Decorated With Pontifical Medal

QUEBEC, June 16—On behalf of His Eminence Cardinal J. M. Sordique Villeneuve, Archbishop J. C. McLaughlin, of Regina last night presented Mrs. W. J. MacIntyre of Charlottetown, President of the Catholic Women's League, with the Ecclesiastical and Pontifical medal.
The decoration took place in the course of the League's annual banquet and was in recognition of the President's services to the Catholic Church.

Calmly Faces Murder Charge

(Canadian Press)
LUNenburg, N. S., June 16—Accused of her husband's murder, Mrs. Lillian MacIntosh sat calmly today through arraignment proceedings and then went back a prisoner to the home where Harry D. MacIntosh was found stabbed on May 30.
She is charged with having stabbed her husband in his bedroom following a quarrel. Charles, their 14-year-old son, told a coroner's jury his discovery of his father's body was preceded by an argument between the parents over "this Elizabeth racket."

INDUSTRIAL FIRMS FORM ASSOCIATION

Objective Is To Promote Purchase of Home Manufactured Products—Mr. C. L. MacKay Elected President.

The Prince Edward Island Manufacturers Association with an initial membership of twenty-two was organized last evening with the objective of promoting the purchase of Island-made products. The meeting was held in the Board of Trade rooms under the chairmanship of Mr. T. E. MacNutt, chairman of the Industrial Committee of the Board.
The following officers were elected:
President—Mr. C. L. MacKay.
Vice-President—Wm. Rowe.
Secretary-Treasurer—John Morris, Jr.
Executive Committee—S.T. Green, J. D. Jenkins, M. R. Bethune, John Lohnes.

SOME FOLKS THINK THEY ARE HONEST IF THEY RETURN ONE LOST GLOVE!
