

A REMINDER
That lad of yours, overseas. All that is humanly possible is being done to see to it that he is well fed, well clothed and efficiently equipped. Organizations like the Y. M. C. A. are looking to his physical comfort, healthful recreation and clean fun. If he is sick or wounded the Red Cross will provide for him with tender, loving care. Yet there is one thing that will bring a smile to his face and a joy to his heart that none of these can give; that only you can give—Your Photograph.

The Best Eye Service

Having recently returned from Toronto where I attended a post graduate course in Optometry and was awarded my diploma, I am now in a position to give my patrons the very best eye service obtainable.

My parlor is fitted with the very best and latest instruments and is on a par with the best optical parlors in Toronto and Montreal.

We guarantee you perfect satisfaction and are at all times pleased to give you advice regarding the care of the eyes.

We are also expert repairers of Eye Glasses, Spectacles, etc and will attend to same while you wait.

Do You Know—

That we operate the only Lens Grinding Plant on P. E. Island?

That we employ a skilled Surface Grinder, and are daily grinding from the rough glass—the most complicated kinds of lenses?

These are facts, which mean a good deal to the Glass wearing public, doing away with the annoying delays caused by sending away for special lenses?

Send your glasses in by mail, you'll get them back promptly and in perfect condition.

Call in and look over our plant.

We Are Modern Opticians
We keep in constant touch with the latest discoveries and inventions in optics, and immediately anything new is placed on the market which will increase our knowledge or facilities, we have it.
Our optical office is of the most approved style and is equipped with the very latest instruments and sight testing appliances.
Glasses fitted by us do not detract from the appearance. We make a special study of the cosmetic effect to be obtained, and can assure you that our glasses add a certain note of neatness and refinement that meets with favorable comment.
Children's eyes receive our special attention, and we pride ourselves on our ability to fit a child with child's glasses, not with cumbersome glasses that were intended for adults.

More Brutality in Belgium
London, Sept. 4—(Canadian Press Despatch from Reuter's Ltd.)—The Echo De Belge states that the Germans at Herubize have deported fifty workmen, who refused to sign a contract to work in the army zone. The men were handcuffed and marched away, women and children who tried to say good-bye to them were driven off with blows. Several women were hurt and a child of nine years old had its shoulder broken by a blow from a rifle butt.

URGES ALL TO SUPPORT "SAILORS' WEEK" CAMPAIGN

OTTAWA, September 3—The following appeal was issued yesterday morning to the women of Canada by Lady Borden, honorary chairman of the Ladies, Committee of the "Sailors' Week":
"Now that the 'Sailors' Week' campaign is launched, I feel that it is our duty—the duty of every woman of Canada—to give our earnest support and active co-operation to help the sorrowing dependents of the heroic dead of the mercantile marine. The great work which these men have done for the British Empire can never be appreciated to the full, had they not fought and died by the thousands, the efforts of our gallant armies would have been without avail—all their sacrifices would have been made in vain.
"Therefore, the men of our mercantile marine are deserving of our very best, and their dependents are worthy of our greatest effort on their behalf. We cannot do less than show them our deep appreciation of, and sympathy with, their sufferings, in some substantial way during Sailors' Week."
"(Signed) LAURA BORDEN."

ARMY DOCTORS WAGE WAR ON HOUSE FLIES

The war against the house fly goes on side by side with that against German militarism.
It is now known that in many former wars flies were responsible for more deaths than all the ammunition of the belligerents.
To-day all possible means of destroying flies are used by military men at the front and the order has been given to the men in the trenches to kill every fly in sight.
Here in Canada we should use all means of destroying the house fly. Swat them, trap them, or, better still, poison them. This should be done as early in the season as they appear, and thus protect your family from the contagion of Typhoid, Tuberculosis, Dysentery, Infantile Diarrhoea, etc.
Scientists have proved beyond all doubt that these diseases are extensively spread by the common house fly, which is hatched and reared in deposits of putrid decaying matter of the foulest description. The very thought of such vile insects crawling over one's food gives one the creeps.
So kill flies from the beginning of summer to the end and make your home absolutely fly-free.

IN MEMORIAM

JAMES P. PHEE

It is with sad regret that we record the death of James P. Phee, which occurred at his homel in Norway, Sunday, Aug. 20th, at the early age of 66 years. Although the deceased has been in falling health for some time, and it was not until a few days before his death that his family and friends realized that his end was near and in spite of all that loving care and medical skill could do he passed away peacefully to his eternal rest, fortified by the last rites of the Roman Catholic Church. His funeral which was very largely attended took place on the 27th, at St. Simon and St. Jude's Church, where High Mass was sung by Rev. A. J. McDougall. His remains were laid to rest beside those of three members of his family, who predeceased
