LIABILITIES OF OVER \$1,600,000.

CLEVELAND, October 27—Creditors of the Leetonia Steel Company, of Leetonia, Ohio, filed an involuntary petition in bankruptcy in the federal court here today. Liabilities of the concern are said to be in excess of \$1,600,000, a single mortgage to the Commonwealth Trust Company, of Pittsburgh, aggregating that amount. The company previously had admitted insolvency in a suit brought against it. The liability, the petition says, was incurred in purchase of property and erection of mills.

STOP LOOK LISTEN

Do you wish to be one of the fortunate shareholders in a Fox Company whose breeding stock cannot be beaten, then decide today to secure a few shares in The Empire Black Fox Co., Ltd. Without doubt this is the best proposition on the market today. The fifth and last pair of foxes, will be in the ranch this week and thereafter the ranch will be closed to the public. If you miss this opportunity you will certainly regret it. There is only a limited amount of stock yet for sale and after this is disposed of any further offering will be at a premium. Call or telephone or write Walter J. Lantz, Secretary, Charlottetown, and do it now. 2387-10-29M21.

NARROW ESCAPE OF S. S. TEUTONIC

NEW YORK, October 28—A cable to the Boston American says: The steamship Teutonic narrowly escaped collision with an iceberg on her last voyage from Montreal. On Oct. 18th after passing Newfoundland and when in a thick white fog, the lookout called "Ice Right Ahead." The engines were quickly reversed and the ship was backed away to let the ice mountain pass.

CATTLE SHIPMENTS.—Yesterday morning the cargo of the Northumberland included thirty head of cattle, consisting of twenty-eight cows and two calves shipped to Winnipeg in charge of Messrs Peter Brodie and W. J. Gibson of Marshfield. There were two carloads Mr. Brodie and Mr. Gibson each being in charge of one car. The animals were all dairy cattle, consisting principally of Ayrshires and Holsteins, and in the lot were some very fine animals. They were secured in different parts of the country and were selected by experienced cattlemen. One carload is for Mr. James A. Gibson, of Winnipeg, (a former cheese-maker of this province) and the other for Mr. E. Tallant. The cattle were selected from herds of the following Holsteins from Leonard Conant, Donaldson, Peter Robertson and W. Gibson, and son, Marshfield, grade Holsteins from James Jones, Pownall, Robert McKinley, North River, A. McKay, East Royalty, Ayrshires from Lane and Son, Lot 43, Scott Bros., and T. P. NICHOLSON AND McNEILL.—On Wednesday, Oct. 22, at 7:30 in the sweet strains of "The Voice that Breathed o'er Eden," melted away into silence, the vocalist, Miss Mayme Ross, Charlottetown, struck the first bars of Lohengrin Wedding March. Nearly two hundred guests were made welcome in the home of Mr. and Mrs. Norman Nicholson, Stanley Bridge, to witness the ceremony performed by the Rev. John Sterling of uniting in marriage their eldest daughter, Elva Jean, to Mr. Ernest McNeill of Cavendish. The bride, who was given away by her father, wore a gown of white satin de Chene with an overdress of Ninon and pearls, also wearing a veil of Brussels Net caught up with Lilies of the Valley. She carried a bouquet of bride roses and white carnations. The bridesmaid, Miss Annie Nicholson, was gowned in a Pink Silk Voile and carried pink roses and carnations. Mr. Archie Cousins, Park Corner, acted as "best man." The bountiful supper was presided over by Mrs. Stewart Simpson, Miss Lena Nicholson, and Miss Gertrude Bell. Beautiful gifts were received, among them, a handsome China Cabinet presented by the members of the church in which the bride had been organist. Mr. and Mrs. McNeill left the following morning for an extended trip through eastern Canada and New England States.

GOOD SERMON.—Owing to the unfavorable weather the congregation at Granville was exceptionally small on Sunday last and there was no Sabbath School. The pastor, Rev. John B. Gough, spoke very forcibly from the words:—"How can we escape if we neglect so great salvation." He also dwelt at some length on Missions and systematic giving.—N.

POULTRY SHOW.—The prize list of the sixth annual show of the P. E. Island Poultry Association to be held in the Agricultural Building, Charlottetown on December 16th to 19th, has been issued. Preparations on a more than ordinary elaborate scale are being made for this show and, with the facilities for displaying stock, afforded by the enlarged and improved Agricultural Building, one of the best shows ever held in the province may be expected. The prizes offered are generous and cover practically every kind of poultry raised in the province. It is hoped that farmers as well as poultry specialists will endeavor in every possible way to make this the biggest and best poultry show yet held here.

PEAT AS MANURE.—It is well known that there are large peat beds in this Island. In view of that fact of peculiar interest to Islanders is the announcement that a cheap method of obtaining organic artificial manure by means of peat has been discovered in England. It has been found that by the treatment of ordinary moss litter with bacteria, an organic manure is formed, a ton of which, it is claimed, is worth more than 80 tons of ordinary farm manure. It has been found that the insoluble humic acid present in large quantities in peat can be readily converted into a soluble humate by the action of certain aerobic bacteria. Peat, after treatment with these organisms, is sterilized, and then inoculated with a culture of nitrogen-fixing organism. This prepared peat can then be used for soil inoculation either by direct application to the soil, or preparing from it a culture solution. Experiments made demonstrated the remarkable effect which this peat has on plant growth. A plot of radishes watered once with an extract of prepared peat gave an increase of 54 per cent. over another irrigated plot. It has been tried in competition with farmyard manure, and it gave the following increases: Lettuce, 27 per cent; turnips, 23 per cent., and potatoes, 41 per cent. Ordinary organic manure is getting scarcer in England, owing to the substitution of horses by motor-driven vehicles, and peat, it was stated, may become a marketable substitute.

PRESBYTERIAN OF ST. JOHN.—At a special meeting of the Presbytery of St. John on Friday a call from Montrose and Elmsdale, P. E. Island, was placed in the hands of Rev. A. J. McPherson, of Harvey, N. B. Mr. McPherson asked for time to consider the matter and he was granted a month. Another call was given to Mr. John D. Macneill, a recent graduate of Westminster Hall, Vancouver. This call was sustained and arrangements were made for induction and ordination November 11 at Chipman. Rev. J. H. A. Anderson will provide and address the minister, and Rev. Thomas A. Mitchell

of Sussex will address the people. A third call from the church of St. George and Bonaventure to Rev. Thomas Harrison, Longueuil, Quebec, was sustained. Rev. Gordon Dickie presented reports from the catechists actively employed in the home mission field.

AGRICULTURAL NOTES.—On visiting the Eldon district last week Prof. R. Robertson of the Department of Agriculture was agreeably surprised to find a more than usually progressive farming section; such men as Mr. Frank Halliday with his progressive methods, such as special attention to the growing of clover, of which he is making quite a success; his keeping of a fine herd of dairy cattle, among them some good pure bred Ayrshires; his breeding of Draft horses; fine looking pigs and poultry—all in keeping with unusual success. Mr. James Jenkins a near neighbor being another of the same stamp, who, among other progressive methods is engaged in breeding draft horses of the right kind, and has some of the best young ones the writer has yet seen. Mr. Thos. McLeilan is also owner of a Clydesdale stallion of more than usual good quality; his stock are a uniformly good lot of which there are many in his immediate neighborhood.
