PACKERS ASKING TO BE FREED

CHICAGO, March 7.—Attorneys for the ten millionaire meat packers on trial here for violation of the Sherman anti-trust law, today demanded that Federal Judge Carpenter apply the "rule of reason" to the charge that the defendants have formed a trust, and turn them loose. The demand was made in a long motion to the court, setting out specific points showing that, according to the view of the packers, the government charge has not been substantiated. The first point in the motion brought out the "rule of reason" contention set up by the Supreme Court of the United States in the decision in the dissolution suit against the Standard Oil Company.

About a million women would be affected if it was passed.

COAL PRICES JUMP \$1 A TON IN NEW YORK

NEW YORK, March 7.—Years of a strike of the 180,000 anthracite coal miners on April 1 has caused a general rush by consumers for coal to carry them over the strike period. Many dealers made increases in the price of coal from \$1 to \$1.25 a ton, while wholesalers are charging more.

He describes the long journey over the great ice barrier, tells how he followed the outline of Victoria and King Edward Land and a great mountain range which stretches across region generally in the direction which he followed named the Queen Maud range. The explorer does not devote many words to a description of his feelings upon arriving at the pole, but there is just sufficient vagueness in regard to the details to suggest that he shared the great discovery with the others. The cause of the explosion is not known but it is thought to be due to a small quantity of naptha and a large supply of varnishes stored there.

The senators who voted against the ratification were—Lorimer, Maritime and Reed. The latter two are Democrats. SPOONEY BOY AND MEADOWVALE TO RACE

NORTH SYDNEY, March 7.—Never since the memorable battle for supremacy between Nat Brown's Bill, the old hero of a hundred contests, and Charlie Thompson's Lumberboat, when the latter defeated the pride of Sydney Mines in straight heats a year ago, has such interest been manifested in a horse race as is being shown in the match race to take place next Friday afternoon between Meadowvale, the old P. E. Island son of Tormentine, of Florence, and the speedy Indian bred Spooney Boy, owned by the popular proprietor of the Savoy hotel in Sydney, Dan McKing.

Yesterday representatives of the two turf kings deposited \$100 in the hands of a stakeholder for the match, which will be held in five heats, best three in five. This means that if the weather man is liberal, the largest crowd that ever witnessed a race in Sydney will see the two fastest horses in Cape Breton battle for supremacy. Considerable money has already changed hands, and it would not be surprising if the race would equal in point of money backing, the Bill-Lumberboat battle. Stephen Purves will guide the old son of Tormentine, while Fred Warren drives Spooney Boy. It was hoped the race would take place on the ice here, as it would mean each horse would be coming half way, but as there is no track here, and the Sydney end was obstructed, Mr. McKing gave way, laughingly remarking, "the old horse will win any way."
