Red Hot July Days Hard On The Baby

July—The month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Colic, diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Wonderful Empire

The following interesting compilation of Empire-Day facts, by the Rev. Alexander Sharpe, is reproduced from the Naval and Military Record and Royal Gazette of May 23:

The British Empire is the greatest political fact in the world today. It is the greatest political fact the world has ever seen. It is the most extensive empire the world has ever seen. Its area is about 13,500,000 square miles, or one-quarter of the earth's land area. It is seven times as large as the Roman Empire at the time of its greatest effort. It is four times the size of the United States proper. It would make 65 Germany's.

The Empire includes the ancient United Kingdom; a mighty Dominion, Canada; a giant Commonwealth, Australia; a vast Union, South Africa; a splendid Empire, India—among its states. It is really a company of empires. Canada alone is nearly as large as all Europe including Russia. It is larger than the United States. Australia is as large as Brazil, or the United States. South Africa is larger than Argentina, or than all the United States east of the Mississippi. India is as large as all Europe except Russia.

It owns more of Central America than any other non-Central-American country. It owns more of South America than any other non-South-American country.

It is the most populous empire of the world, about 450,000,000, or one-quarter of mankind. It is the most populous empire the world has ever seen. King George has 170,000,000 more political subjects than the Pop has spiritual ones.

It has among its provinces the oldest countries in the world: Chaldaea and Mesopotamia, Moab and Edom. The Holy Land, or Palestine, is one of its provinces—Judea, Samaria, and Galilee. Within its boundaries are large parts of the ancient empires of Assyria, Babylonia, Persia, Rome and those of Alexander and The Mogul.

World's Newest States
It contains the newest states of the world: Saskatchewan, Rhodesia, Kenya, etc. The "new" lands of the Empire contain about 8,000,000 square miles, and have about 16,000,000 or more people; they could support 200,000,000.

It has the highest mountain in the world. It has the highest mountain in Africa, Kilimanjaro. Among its mountains also are: Nor, Nbo, Tabor, and Carmel.

It has within its borders the largest inland sea outside the Mediterranean—Inland Sea. It is the Canadian Mediterranean, as large as three Baltics. Many of the world's greatest rivers are within its boundaries, the Nile, Mackenzie, Irrawaddy, St. Lawrence, Indus, Saskatchewan, Niger, Ganges, Zambezi and Murray.

Also such historic rivers and streams as the Euphrates, Tigris, Jordan, and Kishon. It contains, or partly contains, the largest lakes of the world, Superior, Huron, Victoria, Nyanza, Tanganyika, Nyassa, Winnipeg, Great Bear, Great Slave, Ontario, Erie. These are inland seas.

The Dead Sea and the Sea of Galilee also are on its borders. Canada has half the fresh water on the earth. Kaitum, in British Guiana, is the highest considerable waterfall in the world.

It possesses the greatest "gates" of the world, Gibraltar, Suez, Aden, the Panama, Quebec. It possesses the vastest wheat

field, or more than any other producer. It has the world's greatest wheat market, Winnipeg. It has the world's greatest wheat shipping port, Montreal, which ships more wheat than the three chief ports of the United States combined.

It is the world's greatest wool producer. No other country ever put forth such gigantic strength in the history of the world. The Crown buds the Empire; not the Homeland Parliament.

"Half the World" General Smuts said:—"You are not an empire; you are half the world."

General Botha said:—"Britain is the cornerstone upon which civilization is built."

The finest tribute ever paid to the vastness of the British Empire was paid by an American statesman, Daniel Webster: "... whose morning drum-beat, following the sun and keeping company with the hours, encircles the globe with one continuous strain of martial music."

It has led the world in the great interests of humanity and liberty.

Its break-up would be a world calamity. Our political unit should not be merely England, but "The Empire."

Rule Britannia! God save the King.

We shall be filled with holy joy, And love will smother forer destroy, And is not mixed with base alloy, And will our tongues forever employ.

Our joy in Heaven will be complete, The love of God our very meat, In love we will each other meet, When gathered at our Saviour's feet.

D. MacLean

Policeman (to belated reveller who is searching in the gutter)—"Lost anything sir." Belated Reveller—"Yesh, Lost my watch." Policeman—"Where did you lose it?" Belated Reveller—"In the nextst shiree."
